Section 1. Pension application; procedure. Unless the pension applicant withdraws a pending application for pension benefits, or abandons his or her appeal from the denial of such application by the board of trustees, no new application for a different category of pension benefits shall be accepted by the board of trustees. Further, whenever an officer or employee has been granted a certain category of pension benefits no new application for a different category shall be accepted by the board of trustees.

Section 2. Appeals from decisions of the board of trustees; procedure. A majority of the board of trustees shall control on all disputed questions.

Whenever an application for disability pension, whether in line of duty or not in line of duty, has been filed, the applicant shall submit therewith a signed certificate from a licensed, practicing physician of Georgia certifying to the applicant's total and permanent disability from his or her regular, assigned or comparable duties with such city and that, where applicable, in the opinion of such physician, such disability was either caused by or resulted from an accident or injury sustained on the job. Immediately thereupon, the board of trustees shall direct the applicant to submit to an examination by physicians chosen by the board who likewise shall certify the physical or mental ability or disability of the applicant, and, where applicable, whether in the opinion of such physicians, such disability was either caused by or resulted from an accident or injury sustained on the job. In the event the certificates of the respective physicians shall be in general agreement with respect to such matters, such facts shall be conclusive as to the physical or mental condition of the applicant and the board shall thereupon approve such pension in the proper amount. In the event the certificate tendered by the applicant and the certification of the physicians chosen by the board, shall disagree as to the condition of the applicant and where applicable, the cause of the disability, then and in that event, the board of trustees shall conduct a hearing for the purpose of determining the true condition of the applicant, and where applicable, the cause of such disability. Such hearing shall be conducted informally by the examination of witnesses for and in opposition to such application who shall

be sworn, and the applicant, the city, and the board of trustees may be represented by legal counsel if they so desire. The board of trustees shall be authorized to promulgate reasonable rules and procedures, not inconsistent with general legal principles, governing the manner in which such hearings shall be conducted. The decision of the board after the hearing, shall be final as to the physical or mental condition of the applicant, and where applicable, as to whether the disability is compensable as one incurred in the line of duty, provided however, such proceeding shall be subject to review by writ of certiorari to the Superior Court of Fulton County. The secretary-treasurer of the board of trustees shall be authorized to acknowledge service of any such writ and shall, within the time provided by law, certify and cause to be filed with the Clerk of said Superior Court, a record of the proceedings before the board including a copy of the application for disability pension or other relief involved, the decision of the board and the notice of the board's action as provided to the pension applicant. Where appeals are taken by a pension applicant as provided herein, the board of trustees shall be the respondent and the city shall be the defendant.

The method of appeal as provided herein shall also serve as the method by which all other disputed pension questions shall be appealed.

Section 3. Definitions. When used in this Act, as amended, the following terms shall have the following meanings:

Laws 1924, pp. 167, et seq.), as amended providing for pensions and other benefits for members of paid fire departments in cities having a population of more than 300,000 as disclosed by the United States Census of 1920, or any subsequent census, shall furnish pensions to all officers and employees of such cities, and for other purposes, as amended, be and the same is hereby further amended, as follows:

A RESOLUTION

Requesting the Board of Regents of the University System of Georgia and the Georgia members of the Board of Control for Southern Regional Education to seek an agreement between the State of Georgia and adjacent states whereby certain citizens of Georgia may attend the adjacent state institutions at reduced tuition rates; and for other purposes.

WHEREAS, because of their location within the state, the four-year and graduate institutions of the University System of Georgia are not equally and fairly available to citizens residing within all parts of Georgia; and

WHEREAS, the proximity of certain educational institutions in adjacent states would make the opportunity to attend a four-year or graduate institution of higher learning equally and fairly available to these Georgia citizens if they could be charged tuition rates comparable to those charged by units of the University System of Georgia; and

WHEREAS, pursuant to a Resolution approved January 31, 1949 (Ga. Laws 1949, p. 56), as amended by a Resolution approved February 18, 1957 (Ga. Laws 1957, p. 66), Georgia became a party to the compact creating the Board of Control for Southern Regional Education; and

WHEREAS, adjacent states are also parties to said compact; and

WHEREAS, said compact authorizes any two or more states who are parties to enter into supplemental agreements for the establishment, financing, and operation of regional educational institutions for the benefit of citizens residing within regional areas; and

WHEREAS, pursuant to said compact provision an equal and fair opportunity to obtain a four-year or graduate education could be made available to all citizens of Georgia.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA that the Board of Regents of the University System of Georgia and the Georgia members of the Board of Control for Southern Regional Education are hereby requested to explore the possibility of securing an agreement between the State of Georgia and adjacent states whereby:

(1) Certain adjacent state institutions would be designated as regional educational institutions for the purposes hereafter described;

(2) Resident tuition rates would be charged by the adjacent states to full-time junior and senior level undergraduate and full-time or part-time graduate students who are Georgia citizens residing less than 50 miles from the adjacent state institution but more than 50 miles from the nearest four-year unit of the University System of Georgia; and

(3) The State of Georgia would:

(A) Appropriate and pay over to the adjacent state funds to defray expenses and lost revenues incurred by that state under the supplementary agreement; or

(B) Make reciprocal benefits available to the citizens of the adjacent state; or

(C) Take both of the above actions.

BE IT FURTHER RESOLVED and directed that the Board of Regents and the Georgia members of said board of control are authorized and directed to submit their findings and recommendations to the General Assembly not later than December 1, 1981.

BE IT FURTHER RESOLVED that the Clerk of the House of Representatives is hereby authorized and directed to transmit appropriate copies of this resolution to the Board of Regents of the University System of Georgia and the Georgia members of the Board of Control for Southern Regional Education.

The following Committee substitute was read and adopted:

A BILL

To amend Code Chapter 84-7, relating to dentists and dental hygienists, as amended, so as to prohibit the use of general anesthesia by dentists without obtaining certain permits; to provide for definitions; to provide for permits and conditions for their issuance, renewal, and revocation; to provide for fees; to provide for provisional permits; to provide for exceptions; to provide for notice and hearing; to provide for summary action; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Code Chapter 84-7, relating to dentists and dental hygienists, as amended, is hereby amended by adding immediately following Code Section 84-707, relating to duties of the Board as to examination of applicants for licenses to practice dentistry, a new Section to be designated Section 84-707.1, to read as follows:

"84-707.1. Use of general anesthesia by dentists. (a) For the purposes of this Section, 'Board' means the Georgia Board of Dentistry established under this Chapter; and 'general anesthesia' means any drug, element, or other material which results in the elimination of all sensations, accompanied by a state of unconsciousness as defined in the **Guidelines for Teaching the Comprehensive Control of Pain and Anxiety in Dentistry**, approved by the American Dental Association.

(b) No dentist shall employ or use general anesthesia on an outpatient basis for dental patients unless such dentist is issued a permit by the Board. The dentist holding such permit shall be subject to review, and such permit shall be renewed biennially at the time the dentist is required to renew his license to practice dentistry. The Board shall provide for permit issuance and renewal fees not to exceed fifty dollars.

(c) No dentist shall be issued a permit under this Section nor have such permit renewed unless the Board has received satisfactory evidence that such dentist

(1) Has a properly equipped facility for the administration of general anesthesia and staffed with a supervised team of auxiliary personnel capable of reasonably handling procedures, problems, and emergencies incident thereto, according to standards promulgated by the Board. The Board may, at its discretion, require an on-site inspection of the facility, equipment, and personnel to determine whether the standards of this paragraph (1) are met; and

(2) (A) Has completed a minimum of one year of advanced training, as approved by the Board, in anesthesiology and related academic subjects beyond the undergraduate dental school level; or

(B) Is a diplomate of the American Board of Oral and Maxillofacial Surgery, or is eligible for examination by the American Board of Oral and Maxillofacial Surgery, or is a member of the American Association of Oral and Maxillofacial Surgeons, or is a Fellow of the American Dental Society of Anesthesiology; or

(C) Employs or works in conjunction with a person who is duly licensed to practice medicine in this State and who is a member of the anesthesiology staff of an institution classified as a hospital and issued a permit as an institution under Code Section 88-1901, relating to definitions regarding hospitals and related institutions, as now or hereafter amended, provided that such anesthesiologist shall remain on the premises of the dental facility until any patient given a general anesthetic regains consciousness.

(d) The Board may grant a provisional permit to any dentist who meets the requirements of subparagraphs (A), (B), or (C) of paragraph (2) of subsection (c) of this Section, but such permit shall expire one year after its issuance or upon the Board's determination that the requirements of paragraph (1) of subsection (c) have not been met, whichever occurs earlier.

(e) Any dentist who has been using or employing general anesthesia prior to the effective date of this Section may continue such practice without a permit for no longer than twelve months after the effective date of this Section.

(f) A permit may be revoked or not renewed if the Board determines that the dentist holding such permit no longer meets the requirements of subsection (c) of this Section. The Board shall provide notice and opportunity for hearing under the Georgia Administrative Procedure Act, approved March 10, 1964 (Ga. Laws 1964, p. 338), as now or hereafter amended, in any case in which it refuses to issue or renew a permit, and in any case in which it revokes a permit, provided that summary action regarding such permit shall be authorized under Section 19 of said Act, as now or hereafter amended."

Section 2. This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Section 3. All laws and parts of laws in conflict with this Act are hereby repealed.

(iii) No creditable service under this subsection may be obtained for creditable service under a local retirement fund unless the member has withdrawn the member's contributions from the local retirement fund and forfeited any right to receive a retirement benefit under the local retirement fund.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. An Act creating the Muscogee County School District, approved February 25, 1949 (Ga. Laws 1949, p. 1086), as amended, particularly by an Act approved December 12, 1953 (Ga. Laws 1953, Nov.-Dec. Sess., p. 2373) and by an Act approved March 30, 1971 (Ga. Laws 1971, p. 2452), is hereby amended by striking Section 5 in its entirety and substituting in lieu thereof a new Section 5 to read as follows:

"Section 5. (a) The administration of said School District shall be vested in a board to be known as the Muscogee County Board of Education, hereinafter known as the 'Board of Education.' The Board of Education shall consist of members who at the time of their appointment shall be 21 years of age and bona fide residents of Columbus, Georgia, for at least 24 months. The members of said Board of Education shall be appointed by the grand juries of Muscogee County. The grand juries shall solicit recommendations from the citizens of Muscogee County regarding nominees for said Board of Education. At least 30 days prior to a grand jury's making an appointment of a member of said Board of Education, such grand jury shall cause an advertisement to appear at least once in a newspaper of general circulation within Muscogee County. Such advertisement shall state that the grand jury is considering nominations for membership on the Muscogee County Board of Education and that citizens may write to the grand jury to recommend names for consideration by the grand jury for such membership on said Board of Education. Said advertisement shall include a mailing address for the grand jury and such other information, including residency requirements that may be applicable to prospective nominees, as the grand jury determines to be appropriate. Said advertisement shall also state the date, time, and place that the grand jury shall meet for the purpose of considering nominations to said Board of Education. Only during the time that the grand jury is meeting for such purpose, such meeting shall be open to the public, but citizens shall not have the right to address the grand jury at any such meeting except on the invitation of the grand jury. The vote on final selection shall be by secret ballot. The cost of advertisements required herein shall be paid by the Muscogee County Board of Education. No member of said Board shall be eligible for reappointment after such member has served two consecutive full terms of five years each on said Board until such member is off the Board for one year or more, when such member shall again be eligible for reappointment.

(b) The Board shall be composed of 15 members, and the grand jury shall appoint three members from each of the four council districts in Columbus, Georgia, and three members from the Muscogee County school district at large. The members appointed from council districts shall be bona fide residents of the respective council districts at the time of their appointment and during their terms of office. If a member from a council district ceases to be a resident of such district during a term of office, a vacancy shall thereby be created in such member's position on the Board. Members of the Board shall be appointed by the grand jury meeting in May of each year or at the next meeting of the grand jury thereafter. Members of the Board shall take office on the first Monday in January following their appointment. The Board shall be constituted, as required herein, effective on the first Monday in January, 1982, and thereafter.

(c) The initial membership of the Board as provided by subsection (b) shall be established as follows:

(1) During 1981, the grand jury shall appoint the three members from council district 1 to take office on the first Monday in January, 1982, for terms as follows: one member shall be appointed for a term of five years, one member for a term of four years, and one member for a term of three years;

(2) The initial members from council district 2 shall be the three incumbent members of the Board who reside within council district 2, and such members shall serve until the expiration of the terms to which they were appointed;

(3) The initial members from council district 3 shall be the incumbent member of the Board who resides within council district 3 and whose term of office expires on the first Monday in January, 1983, and the two incumbent members of the Board who reside within council district 3 and whose terms of office expire on the first Monday

in January, 1984, and all three such members shall serve until the expiration of the terms to which they were appointed.

(4) One of the initial members from council district 4 shall be appointed by the grand jury during 1981, and the member so appointed shall take office on the first Monday in January, 1982, for a term of five years. The remaining initial members from council district 4 shall be the two incumbent members of the Board who reside within council district 4, and such members shall serve until the expiration of the terms to which they were appointed;

(5) During 1981, the grand jury shall appoint the three initial at-large members. All three such members shall be appointed by the grand jury from the incumbent membership of the Board who reside within council district 3 but who were not constituted council district 3 members under paragraph (3) of this subsection. For the purpose of allowing the grand jury to make the appointments from such incumbent membership, the terms to which such incumbent members were appointed are hereby shortened to expire on the first Monday in January, 1982. One of such members shall be appointed for a term of five years, one for a term of four years, and one for a term of three years. All such members shall take office on the first Monday in January, 1982.

(d) Successors to the membership of the Board as constituted under subsection (c) of this Section and future successors shall be appointed by the grand jury during the year immediately preceding the expiration of the respective terms of office, and the members so appointed shall take office on the first Monday in January following their appointment for terms of five years. All members shall serve until their successors are appointed and qualified. The terms of all members shall expire on the first Monday in January upon the completion of the terms to which appointed. In appointing successors to the initial at-large members provided for in paragraph (5) of subsection (c), the grand jury shall make such appointments so that no two members shall be residents of the same council district.

(e) All members of the Board shall serve without compensation. No person shall be qualified to serve as a member of said Board of Education while holding any kind of public office for which compensation is paid, except the office of notary public. Absence by a member of said Board for three consecutive meetings shall be held to be a resignation from the Board, but such absence may be excused by resolution adopted by a majority of the Board.

(f) All vacancies on said Board of Education, whether from death, resignation, disqualification or otherwise, shall be filled by appointments by any grand jury for the unexpired terms.

(g) Each member of the Board of Education upon assuming office shall take an oath faithfully to perform the duties of his office.

(h) The said Board of Education shall hold regular monthly meetings, except during June, July, and August of each year, on a date fixed by said Board. The said Board may hold special meetings upon two days' written notice to its members. At all meetings a majority of the entire membership of said Board shall constitute a quorum for the transaction of business."

HB 459. By: Representative Beck of the 148th: A BILL to authorize the establishment and operation of domestic international banking facilities within this state; and for other purposes.

The following Committee substitute was read and adopted:

A BILL

To authorize the establishment and operation of domestic international banking facilities within this state; to provide for a short title; to provide for definitions; to provide the procedures for establishing and operating such facilities; to provide for the rejection of registration by the Department of Banking and Finance under certain conditions; to provide for the examination and supervision of such facilities; to provide for severability; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Short title. This Act shall be known as the "Domestic International Banking Facility Act."

Section 2. Definitions. (a) As used in this Act, the term "domestic international banking facility" means the location within this state of any banking office, other than an international bank agency as defined in Code Section 41A-3301 of the Financial Institutions Code of Georgia, which derives its funds (1) from sources outside of the United States, (2) from another domestic international banking facility, or (3) from temporary advances from its parent organization and employs those funds for banking purposes outside of the United States or through its parent organization, but does not accept deposits subject to check or draft.

(b) A domestic international banking facility when properly established pursuant to this Act shall not be considered to be a parent bank, branch bank, bank office, or bank facility as defined in Code Section 13-201.1, relating to certain definitions, as now or hereafter amended.

Section 3. Domestic international banking facilities; establishment and operation. (a) Any bank, whether domiciled within this state or elsewhere and having total capital funds of \$25 million or more as reported to its chartering authority as of December 31 of each year, may establish and operate a domestic international banking facility in this state upon compliance with the provisions of this Act. Any bank having total capital funds of \$25 million or less may establish such facility upon compliance with the provisions of this Act and upon further obtaining the approval of the department. The department shall grant such approval only after it has satisfied itself that the registrant is financially sound, is operating in substantial conformity with all applicable laws and regulations, and is, along with its principals, of good character and reputation.

(b) Prior to establishing a domestic international banking facility and annually thereafter for so long as the facility shall continue in this state, the bank shall register with the Department of Banking and Finance on such forms as the department shall prescribe and pay a registration fee as determined by the department. Such registration shall include:

- (1) The name and main office address of the registrant;
- (2) The address at which the facility is to be located;
- (3) The names of the individuals responsible for administering the business affairs of the facility in Georgia;
- (4) The name and address of the chartering authority for the registrant;
- (5) A resolution from the board of directors or other governing body of the registrant authorizing the establishment of the facility;
- (6) A statement of the registrant that it has the legal capacity under the laws pursuant to which it is organized to establish the facility and that its chartering authority (and regulatory authority if different) interposes no objection to the establishment of such facility; and
- (7) Such other information as the department may require.

Information required in paragraphs (5) and (6) need not be resubmitted upon renewal of a registration. The facility shall promptly notify the department of any change in the management or location of the facility.

(c) The domestic international banking facility shall maintain records of its business activities separate from records of the domestic banking activities of its parent or head office.

(d) The domestic international banking facility shall not be subject to any tax or license fee in this state by virtue of its business location in this state or its business activities outside of this state.

Section 4. Rejection of registration. (a) The department may revoke any registration or reject any application to register or renew a registration for a domestic international banking facility upon a finding that:

- (1) The facility no longer qualifies to register under the provisions of this Act; or
- (2) The scope of the business conducted by the facility exceeds that authorized by this Act; or
- (3) The chartering authority of the parent bank of the facility requests such action in writing; or
- (4) The department determines, on its own initiative or otherwise, that representations made by the registrant including, but not limited to, representations under paragraph (6) of subsection (b) of Section 3 are inaccurate.

(b) No facility whose registration has been rejected by the department may establish an international banking facility in this state.

Section 5. Examination and supervision. (a) The Department of Banking and Finance may examine the operations of any domestic international banking facility for the purpose of determining that the scope of its activities does not exceed that allowed pursuant to this Act and that the facility is otherwise operating in compliance with the applicable laws of this state. The department may by regulation establish minimum requirements for the maintenance of books and records in sufficient form to enable the department to carry out its responsibilities hereunder.

(b) The department may enter into cooperative and reciprocal agreements with the bank regulatory authority of any government for the periodic examination of banking offices and facilities of any kind, including domestic international banking facilities, located within this state and may accept reports from such authorities in lieu of conducting its own examination for compliance with laws of this state.

Section 6. Severability. In the event any section, subsection, sentence, clause, or phrase of this Act shall be declared or adjudged invalid or unconstitutional, such adjudication shall in no manner affect the other sections, subsections, sentences, clauses, or phrases of this Act, which shall remain of full force and effect as if the section, subsection, sentence, clause, or phrase so declared or adjudged invalid or unconstitutional were not originally a part hereof. The General Assembly hereby declares that it would have passed the remaining parts of this Act if it had known that such part or parts hereof would be declared or adjudged invalid or unconstitutional.

Section 7. Effective date. This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Section 8. General repealer. All laws and parts of laws in conflict with this Act are hereby repealed.

Provided, that none of the State funds appropriated above may be expended to initiate or commence any new program or project which would create a continuing obligation of the current funds of the State, unless such program or project has been authorized by the General Assembly.

Provided, that where teaching personnel are paid in whole or in part from funds other than State-local funds, the fund source from which such salary is paid shall be the pro rata part of the cost of employer contributions to the Teachers' Retirement System and Teachers' Health Insurance applicable to such salary.

Provided, further, that for kindergarten programs, each system shall be allotted instructional units on the basis of one teacher and one aide for each 40 students or major fraction thereof in average daily attendance, except in the case of mentally, physically or emotionally handicapped children, the ratio shall be one teacher and one aide for 24 students or major fraction thereof in average daily membership.

Provided, that of the above appropriation relative to Kindergarten Transportation, funds shall initially be allotted to local school systems on the basis of one transportation unit (\$10,513) for each 40 students. However, allotments shall not exceed actual cost of midday transportation by the local system.

Provided, however, in order to extend the half-day program to a full-day service in lieu of midday transportation services, local systems may elect to use transportation allotments to employ aides or certificated instructional personnel on a reimbursable basis to the extent that the \$10,513 per unit will allow. Where the transportation allotment is used to employ additional personnel, reimbursable costs shall include salary, retirement and health insurance where eligible.

Provided, that of any State Funds appropriated to local systems for classroom teacher salaries on the basis of Average Daily Attendance in grades 1 through 7, such teachers shall be used in the school where earned and shall be used only for the purpose of funding regular (general education) classroom teachers in grades where earned.

Provided, that of the above appropriation, relative to special education \$30,000 is designated and committed for payment to the Houston County Board of Education for payment to Houston County Speech and Hearing School, and \$30,000 is designated and committed for payment to the Houston County Board of Education for payment to Houston County Happy Hour School.

Provided, further, funds appropriated for Maintenance and Operation, Sick and Personal Leave and Instructional Media, for all Special Education Teachers, payments shall not be made until the allotted teaching unit has been filled.

Furthermore, the Section 5 teaching units so allocated to an eligible local unit shall remain a part of that local unit's allotment until the end of the current school year in which allocated.

It is the intent of this General Assembly that local school systems have the authority to utilize increased maintenance and operation funds contained in this Appropriations Act in such a fashion as to accomplish de facto funding of Section 12 of the Adequate Program for Education in Georgia.

Provided, that of the above appropriation for APEG Grants, it is the intent of this General Assembly that funds are included for allotment of instructional units under Section 10 for grades 1 - 2, at a ratio of 1:20 students in average daily attendance.

Provided, that local school systems, in accordance with State Board policy, may use additional instructional units earned in grades 1 - 2 to employ either certificated or licensed instructional personnel in those grades. Funding for licensed instructional personnel shall include salaries as provided for in APEG Section 10b(2) and Section 15 (M&O).

Provided, that of the above appropriation for \$925,000 for Staff Development, \$92,500 is designated and committed to fund a State level staff development program specifically for Special Education Teachers (Section 5) utilized in programs for intellectually gifted students, and to assist in the development of a State program plan for gifted students by the State Superintendent of Schools.

Provided, that of the above appropriations relative to Sections 5, 7, 10, 20, 21, and 21(c)(2) of APEG for salaries, funds may be moved between said Sections by an amendment to the annual operating budget during the month of June with the prior approval of the Office of Planning and Budget.

Provided, that of the above appropriation relative to Compensatory Education, \$12,746,747 is designated and committed for a compensatory education program for students in grades 3 through 8 and shall be used for remedial purposes only. Provided, however, where a local system Compensatory Education Plan justifies the need, the State Board of Education may approve usage of these funds for remedial purposes in grades 1 and 2.

It is the intent of this General Assembly that, relative to the teachers' index salary schedule, beginning teachers are to receive the same salary as those with one year of experience.

Provided, that of the above appropriation relating to Community Mental Health Centers, agency income, excluding federal grants where prohibited, shall be expended first to cover expenses for local programs. Surplus funds at the end of the year shall not exceed 60-day collections. Surplus above this limitation shall revert to the State and local governments on a pro rata basis based on contribution of said governments to the program.

Provided, that of the above appropriation relating to Community Residential Services Benefits, the Department is authorized to increase the maximum monthly payments to service providers from \$300 to \$350 and to supplant State funds with patient collections to reduce the State cost of the program.

Provided, that of the above appropriation relating to Community Mental Health Centers, private gifts and donations, as well as proceeds of local fund raising activities, shall not be required to be budgeted to the Department or to the Office of Planning and Budget.

Provided that the Department is given the flexibility in the Community Residential Services Program to use benefits to contract with private home providers for service or to provide (through local Health Departments) small group living situations for clients; and further provided that these residential services are available to clients residing in the community as well as those returning to their communities from the institution.

Provided that Community Mental Health Centers shall provide services to clients living within the geographic catchment area served by such centers without regard to the length of time such client has resided in such geographic catchment area if such client is otherwise eligible to receive services.

Provided, that of the above appropriation relating to Supportive Living Benefits, the Department is provided the flexibility to contract with private homeproviders for services in the home and/or to provide small group residences for clients and/or provide respite care services for clients and/or other residential services needed to support clients in the communities.

Provided, that of the above appropriation relating to Uniform Alcoholism Projects, \$250,000 is designated and committed for projects at Waycross (\$200,000) and Dalton (\$50,000).

It is the intent of this General Assembly that to the extent that gross income from operations exceeds the amount contemplated in this Appropriations Act, such excess may be applied toward the cost of operations and excess cost of authorized planning of new facilities, provided that budget amendments reflecting such proposed applications are provided to the Office of Planning and Budget and the Legislative Budget Office at least two weeks prior to such application of funds.

It is the intent of this General Assembly that the World Congress Center Authority repay, by direct remittance to the State Treasury during the next twenty years, the full amount of Capital Outlay authorized in the Fiscal 1978 appropriations bill, such repayments to begin no later than Fiscal 1980. Provided, further, that such payments in any year shall not exceed the net operating revenues derived from the operation of the parking and truck-marshalling facilities contemplated in such Capital Outlay appropriation.

It is the intent of this General Assembly that to the greatest extent feasible, the Georgia Ports Authority utilize existing surplus funds for payments to bond trustees for unmatured issues.

Provided, that the Director of the Department of Public Safety is hereby authorized to pay dues for Georgia's portion of the cost of the membership in the Vehicle Equipment Safety Compact, the American Association of Motor Vehicle Administrators, and the International Association of Chiefs of Police (State and Provincial Police).

Provided, however, that of the above appropriation for Conviction Reports, payment for conviction reports is not to exceed \$.25 per conviction report.

Provided that to the extent that Federal Funds are realized in excess of the amounts of such funds contemplated in the Georgia Peace Officers Standards and Training Activity of this Act, the Office of Planning and Budget is authorized and directed to supplant State Funds appropriated herein. Provided further that such supplantation shall not be implemented if so doing would cause any portion of the anticipated Federal Funds not to be realized. This provision shall not apply to project grants.

It is the intent of this General Assembly that for the purpose of purchasing Police Pursuit Motor Vehicles, the Department of Public Safety is hereinafter authorized to develop and establish specifications for said purchases of Police Pursuit Vehicles when such purchases are made by the State of Georgia, or otherwise placed a part of a State of Georgia Contract. Provided, further, that the development of said specifications shall be submitted to the Purchasing Division of the Department of Administrative Services by November 1 of each year. Provided, further, the Department of Administrative Services is hereby instructed to complete said specifications and place to bid for the letting of contracts by December 1 of such fiscal year.

Provided, none of the funds herein appropriated for construction shall be available for the purchase of any books whatsoever.

It is the further intent of this General Assembly that the Office of Planning and Budget utilize its budgetary and fiscal authority so as to accomplish the above-stated intent to the greatest degree feasible; and that at the end of this fiscal year, said Office of Planning and Budget provide written notice to the members of the Appropriations Committees of the Senate and House of Representatives of the instances of noncompliance with the stated intent of this Section.

Section 55. It is the intent of this General Assembly that each agency for which an appropriation is authorized herein shall maintain financial records in such a fashion as to enable the State Auditor to readily determine by Object Class the expenditures of each activity contained in this Appropriations Act.

Section 56. In addition to all other appropriations, there is hereby appropriated as needed, a specific sum of money equal to each refund authorized by law, which is required to make refund of taxes and other monies collected in error, farmer gasoline tax refund and any other refunds specifically authorized by law. No wholesale distributor of motor fuel shall be entitled to a refund covering shrinkage in the process of retailing motor fuel

as authorized by Act of Georgia General Assembly of 1947 (Ga. Laws 1947, p. 1115), by virtue of the said wholesale distributor being engaged in retailing motor fuel.

Section 57. No State appropriations authorized under this Act shall be used to continue programs currently funded by 100% Federal funds.

Section 58. Provided further that no State funds in this appropriation shall be paid to or on behalf of Georgia Indigent Legal Services or its affiliates, nor shall any State facilities be made available for their use, including but not limited to the Georgia Interactive Statewide Telecommunications Network either directly or indirectly.

Section 59. In accordance with the requirements of Article IX, Section VI, Paragraph Ia of the Constitution of the State of Georgia, as amended, there is hereby appropriated payable to each department, agency, or institution of the State sums sufficient to satisfy the payments required to be made in each year, under lease contracts now in existence or as provided for in this Appropriations Act between any department, agency, or institution of the State, and any authority created and activated at the time of the effective date of the aforesaid constitutional provision, as amended, or appropriated for the fiscal year beginning July 1, 1981, and for each and every fiscal year thereafter, until all payments required under lease contracts have been paid in full, and if for any reason any of the sums herein provided under any other provision of this Act are insufficient in any year to make the required payments in full, there shall be taken from other funds appropriated to the department, agency or institution involved, an amount sufficient to satisfy such deficiency in full and the lease payment constitutes a first charge on all such appropriations.

The General Assembly declares that the sums hereby appropriated for lease rentals are to pay the general obligations of the State incurred under valid lease contracts and such appropriations are to be paid from the general funds of the State as a first charge upon General Funds.

Section 60. All expenditures and appropriations made and authorized under this Act shall be according to the programs and activities as specified in the Governor's recommendations contained in the Budget Report submitted to the General Assembly at the 1981 regular session, except as otherwise specified in this Act; provided, however, the Director of the Budget is authorized to make internal transfers within a budget unit between objects, programs, and activities subject to the conditions that no funds whatsoever shall be transferred for use in initiating or commencing any new program or activity not currently having an appropriation of State funds, nor which would require operating funds or capital outlay funds beyond fiscal year 1982, and provided, further, that no funds whatsoever shall be transferred between objects without the prior approval of at least eleven (11) members of the Fiscal Affairs Subcommittees in a meeting called to consider said transfers. This Section shall apply to all funds of each budget unit from whatever source derived. The State Auditor shall make an annual report to the Appropriations Committees of the Senate and House of Representatives of all instances revealed in his audit in which the expenditures by object class of any department, bureau, board, commission, institution or other agency of this State are in violation of this Section or in violation of any amendments properly approved by the Director of the Budget. In those cases in which the aforesaid Budget Report contains no recommendation by the Governor of expenditures as to objects, the Director of the Budget, except as to the Legislative and Judicial Branches of the Government, is authorized to allocate as to object such funds as he deems proper, but he shall not approve any operating budget containing any such allocation until such shall be submitted and approved in the same manner and under the same conditions provided hereinbefore for transfers.

Section 61. Wherever in this Act the term "Budget Unit Object Classes" is used, it shall mean that the object classification following such term shall apply to the total

expenditures within the Budget Unit, and shall supersede the object classification shown in the Budget Report for F.Y. 1982 submitted to the General Assembly at the 1981 regular session.

Section 62. It is the intent of the General Assembly that for the purposes of this Act,

(1) Authorized motor vehicles are defined as sedans, pick-up trucks, vans, station wagons and any other such vehicles for street and highway use, and

(2) The number of authorized motor vehicles indicated for each budget unit shall include leased vehicles and State-owned vehicles, and

(3) The Departments are not authorized to accept vehicles from surplus property to increase the number authorized in this Act unless specifically approved by this General Assembly.

Section 63. The Office of Planning and Budget is hereby directed to economize wherever possible and in the event any part of the appropriations provided in the foregoing Section of this Act shall be in excess of the actual approved budget allotments for the fiscal year, the amounts so in excess, as determined by the Office of Planning and Budget, shall cease to be an obligation of the State.

Section 64. TOTAL APPROPRIATIONS

Section 65. This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Representative Phillips of the 91st requested the following explanation of his vote on HB 163 be recorded:

"Although I support most of the items in the appropriations Bill, including program improvements and needed salary increases for school personnel and state employees, I voted against HB 163 because it contained funds for the Georgia World Congress Center, committing approximately \$180,000,000 of public funds to this facility at a time when I believe the state should avoid bonded indebtedness and stabilize expenditures instead of increasing them."

The following message was received from the Senate through Mr. McWhorter, the Secretary thereof:

Mr. Speaker:

The Senate has passed by the requisite constitutional majority the following Bill of the Senate:

SB 225. By: Senators Wessels of the 2nd and Coleman of the 1st: A BILL to amend the "Georgia Professional Corporation Act," so as to include by its terms the profession of piloting among those covered thereby; and for other purposes.

By: Senator Horton of the 17th: A BILL to amend Code Chapter 56-3, relating to the general requirements for doing business as an insurer in this state, so as to require all insurance contracts and policies to be written in simplified and plain language; to provide for enforcement; to provide for remedies; and for other purposes.

SB 317. By: Senators Barnes of the 33rd and Cobb of the 28th: A BILL to amend Code Chapter 26-25, relating to criminal obstruction of law enforcement, so as to create the crimes of felony and misdemeanor unlawful disposal or sale of bail bond security; and for other purposes.

SB 413. By: Senators Starr of the 44th, Howard of the 42nd and Gillis of the 20th: A BILL to provide the procedures for the issuance of a summons in lieu of a warrant or in lieu of making an arrest in certain criminal cases; to provide a procedure for failure to respond; to provide for the form and execution; to provide a procedure for the release of certain arrested persons; and for other purposes.

SB 432. By: Senator Robinson of the 27th: A BILL to amend an Act known as the "Georgia Administrative Procedure Act," so as to change the procedure relative to the overriding of a rule by resolution of the General Assembly; and for other purposes.

Under the general order of business, established by the Committee on Rules, the following Bills of the House were taken up for consideration and read the third time:

HB 718. By: Representative Reaves of the 147th: A BILL to provide for the creation, operation, and regulation of farmers' markets; and for other purposes.

HB 237. By: Representative Ramsey of the 3rd: A BILL to amend an Act known as the "Georgia Motor Vehicle Emission Inspection and Maintenance Act," so as to change the provisions relating to periodic inspection procedures and maintenance; and for other purposes.

The following Committee substitute was read and adopted:

A BILL

To amend an Act known as the "Georgia Motor Vehicle Emission Inspection and Maintenance Act," approved April 16, 1979 (Ga. Laws 1979, p. 1213), so as to define an additional term; to change the provisions relating to periodic inspection procedures and maintenance; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. An Act known as the "Georgia Motor Vehicle Emission Inspection and Maintenance Act," approved April 16, 1979 (Ga. Laws 1979, p. 1213), is hereby amended by adding at the end of Section 5 a new paragraph (23) to read as follows:

"(23) 'Owner' means the registered owner or the individual presenting the responsible motor vehicle for the emission inspection required under this Act."

Section 2. Said Act is further amended by striking Section 9 in its entirety and inserting in lieu thereof a new Section 9 to read as follows:

"Section 9. Periodic Inspections and Maintenance Required. (1) Each responsible motor vehicle subject to any requirement under Section 7 must receive a certificate of emission inspection once during any twelve-month period during which Section 7 applies

to such responsible motor vehicle from an emission inspection station holding a valid certificate of authorization from the Department of Public Safety. A certificate of emission inspection shall be issued for such a responsible motor vehicle if upon inspection by a permitted mechanic inspector the mechanic inspector determines, consistent with the terms of Section 7 of this Act, with respect to such responsible motor vehicle:

(a) That any emission control equipment required on such responsible motor vehicle when new by the Federal Clean Air Act (42 U.S.C. Section 1857, et seq., as amended, and 42 U.S.C. Section 7401, et seq., as amended) has been inspected to determine whether such equipment has been rendered unserviceable by removal, alteration, or other interference with its operation; and

(b) That any emission control equipment required on such responsible motor vehicle when new by the Federal Clean Air Act (42 U.S.C. Section 1857, et seq., and 42 U.S.C. Section 7401, et seq., as amended) has not been rendered unserviceable by removal, alteration, or other interference with its operation (unless replaced with equipment of demonstrated equivalent emission reduction capabilities); and

(c) That an inspection of the exhaust and evaporative emissions of hydrocarbons and carbon monoxide from such responsible motor vehicle has been performed; and

(d) That the exhaust emissions and evaporative emissions from the responsible motor vehicle do not exceed any applicable emission standard or emission limitation for allowable emissions of hydrocarbon or carbon monoxide prescribed by the Board pursuant to this Act. Compliance with any applicable emission standard or emission limitation shall be determined by mechanic inspectors meeting qualifications, using methods, techniques, and equipment, under conditions, and following inspection procedures prescribed by the Board pursuant to this Act.

(2) If the inspection discloses any violation of any applicable emission standard or emission limitation, then the owner shall be notified, in writing, of the air pollutant which exceeds the allowable emissions and the degree of excess.

(3) ~~The owner shall have necessary maintenance and repairs performed and return for reinspection at an emission inspection station within fifteen days unless he has obtained an interim certificate of emission inspection from an emission inspection station. The Department shall provide by rule or regulation for an interim certificate of emission inspection not to exceed forty-five days in duration in certain limited cases where an owner has demonstrated that the appropriate repairs cannot be made within the fifteen-day period.~~

(3) The owner shall have necessary maintenance and repairs performed and returned for reinspection at an emission inspection station within fifteen days of the initial inspection. Such reinspection shall be at no charge to the owner. If such motor vehicle fails to meet the requirements of subsection (1) at the reinspection, no certificate of emission inspection shall be issued unless the owner proves, by means of repair facility receipts or other written documents, that:

(a) He has replaced any emission control and exhaust system equipment or part thereof which has been removed, physically damaged, or otherwise rendered inoperable;

(b) He has spent at least \$50.00 in the repair and maintenance of the responsible motor vehicle evaporative (as applicable) emission control systems and related equipment, apart from the replacement or repair of emission control devices and exhaust systems, since the first inspection in the current twelve-month period of applicability of Code Section 68-2507; and

(c) Such repairs and maintenance have produced a decrease in exhaust and evaporative emissions (as applicable) since the first inspection in the current twelve-month period of applicability of Code Section 68-2507.

(4) Upon reinspection a certificate of emission inspection shall be issued to each responsible motor vehicle which meets the requirements of subsection (1) of this Section. If a responsible motor vehicle fails to pass the reinspection, it shall be further maintained or repaired, and returned, within fifteen days (unless an interim certificate of inspection is obtained as provided in subsection (3) above), for a third inspection. If

such motor vehicle fails to meet the requirements of subsection (1) at the third inspection, no certificate of emission inspection shall be issued unless the owner proves, by means of repair facility receipts or other written documents that:

(i) — He has spent at least fifty dollars (\$50.00) in the repair and maintenance of the responsible motor vehicle exhaust and evaporative (as applicable) emission control systems and related equipment since the first inspection in the current twelve-month period of applicability of Section 7; and

(ii) — He has replaced any emission control equipment or part thereof which has been removed, physically damaged, or otherwise rendered inoperable; and

(iii) — Such repairs and maintenance have produced a decrease in exhaust and evaporative emissions (as applicable) since the first inspection in the current twelve-month period of applicability of Section 7.

(5) (4) Notwithstanding the requirements of subsection (1) above, only the requirements contained in paragraphs (1)(a) and (1)(c) of such subsection shall be effective during any initial twelve-month period of applicability beginning on or after April 1, 1981, so that any responsible motor vehicle subject to any requirement under Section 7 of this Act during such initial twelve-month period of applicability may be issued a certificate of emission inspection, for such initial twelve-month period of applicability, upon a determination that the inspections required by paragraphs (1)(a) and (1)(c) have been performed. Upon issuance of a certificate of inspection under the terms of this subsection, the responsible motor vehicle owner shall be notified of the results of such inspections and notified as to whether such motor vehicle would have complied with paragraphs (1)(b) and (1)(d) of this Section had they been applicable.

(6) (5) All the requirements of paragraphs (1)(a), (1)(b), (1)(c), (1)(d), (2), and (3); and (4) above shall become effective upon termination of any initial twelve-month period of applicability so that on and after termination of the initial twelve-month period of applicability any responsible motor vehicle subject to any requirement of Section 7 of this Act may be issued a certificate of inspection only in accordance with the requirements of paragraphs (1)(a), (1)(b), (1)(c), (1)(d), (2), and (3) and (4).

(7) (6) 'Initial twelve-month period of applicability' means, for a given county, the twelve-month period following April 1 of a given calendar year, or the twelve-month period following the date on which the requirements of Section 7 of this Act otherwise become applicable, when such county became subject to any requirement under Section 7 of this Act for the first time. Any county which has been subject to any requirement under this Act, again becoming subject to any requirement under this Act subsequent to an intervening period during which such county was not subject to any requirement under this Act, shall be considered to be in an initial year of applicability upon again becoming subject to any requirement under this Act in such manner.

(8) (7) A certificate of emission inspection shall be displayed on a vehicle which has been inspected and has been approved as meeting the requirements of this Act and shall bear the date said vehicle was inspected, the number or other identification of the inspecting station, the signature of the mechanic inspector performing the inspection, and such other information as shall be required by the Commissioner. The mechanic inspector shall remove from the vehicle being inspected any old certificate of emission inspection when a new certificate of emission inspection will be issued.

(9) (8) All certificates of emission inspection shall be issued for a period of one year.

(10) (9) With respect to any inspection or certificate of inspection required for a responsible motor vehicle at the time of the initial retail sale of such vehicle when new the Department may provide for the issuance of certificates of inspection for such vehicles by the franchised dealer selling the vehicle, provided such dealer first determines that such vehicle meets the applicable requirements of the Federal Clean Air Act."

Section 3. This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Section 4. All laws and parts of laws in conflict with this Act are hereby repealed.

A BILL

To amend an Act providing for confirmation of sales under foreclosure proceedings on real estate, limiting deficiency judgments in certain actions on debts secured by mortgages, security deeds and other lien contracts on real estate, and providing for advertisement of foreclosure sales, approved March 28, 1935 (Ga. Laws 1935, p. 381), so as to require a secured creditor exercising a power of sale contained in a mortgage, security deed or other lien contract on residential property to give a prescribed notice to certain debtors; to provide definitions; to provide for the time and contents of such notice; to provide for applicability of such notice requirement to foreclosure sales after a certain date; to prohibit

waiver or release of such notice; to provide for the validity of title of a good faith purchaser; to provide for other matters relative to the foregoing; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. An Act providing for confirmation of sales under foreclosure proceedings on real estate, limiting deficiency judgments in certain actions on debts secured by mortgages, security deeds and other lien contracts on real estate, and providing for advertisement of foreclosure sales, approved March 28, 1935 (Ga. Laws 1935, p. 381), is hereby amended by adding before the period at the end of Section 2 the following:

Section 2. Said Act is further amended by adding, following Section 2, four new sections to be designated Sections 3, 4, 5, and 6, respectively, to read as follows:

“Section 3. For purposes of Sections 4, 5, and 6 of the Act, the term ‘debtor’ means the grantor of the mortgage, security deed or other lien contract or the current owner of the property subject to the debt if the identity of such owner has been made known and acknowledged by the secured creditor prior to the time the secured creditor has given notice pursuant to Section 4 of the Act.

Section 4. Notice of foreclosure sale. (a) Notice of the initiation of proceedings to exercise a power of sale in a mortgage, security deed or other lien contract shall be given to the debtor by the secured creditor no later than 20 days before the date of the proposed foreclosure. Such notice shall be in writing and shall be sent by registered or certified mail, return receipt requested, to the property address or to such other address as the debtor may designate by written notice to the secured creditor.

(b) The notice required by subsection (a) shall be given either:

(1) by mailing a copy of the published legal advertisement, or a copy of the notice of sale submitted to the publisher, to the debtor with the following statement:

(c) The notice requirement of this section shall apply only to the exercise of a power of sale of property, all or a part of which is to be used as a dwelling place by the debtor or the debtor's spouse, successors, heirs, and assignees at the time the mortgage, security deed or lien contract is entered into.

Section 5. Applicability; waiver. (a) The requirement of Section 4 of this Act shall apply to all nonjudicial foreclosure sales under a mortgage, security deed, or other lien contract taking place after the effective date of this Act, this statute being procedural and remedial in purpose.

(b) No waiver or release of the notice requirements of this Act shall be valid when made in or contemporaneously with the security instrument containing the power of nonjudicial foreclosure sale; but notwithstanding the requirements of this Act, a subsequent quitclaim deed in lieu of foreclosure shall be valid and effective as such.

All deeds under power shall contain recitals setting forth the giving of notice in compliance with this Act or a statement of the facts which render the same inapplicable thereto, which facts may include without limitation the nonresidential character of the property. HR 227. By: Representatives Glover of the 32nd, Ham of the 80th, Williams of the 48th, Marcus of the 26th, Steinberg of the 46th and others:

A RESOLUTION

Creating the Georgia Commission on Women's Opportunities; and for other purposes.

WHEREAS, the concept of equal opportunities for all has been central to the development and tremendous expansion of our economy at every governmental level; and

WHEREAS, the significant role of women in economic life is keenly demonstrated by the dramatic increase in the number of single and married women who have steadily entered the labor force in industry, business, personal services, the professions, and the diverse areas of governmental and public service and by the significant increase in the length of the average work life of women; and

WHEREAS, experience indicates that action taken to improve the general, legal, and social status of any minority group tends to facilitate its integration in economic life and thus improve the full and effective participation of such individuals in all aspects of their economic, political, and social development; and

WHEREAS, most people today would not challenge women's claim to the right of access to vocational, technical, and professional training at all levels; the right of access to economic life without discrimination and to advancement in work life on the basis of qualification and merit; or the right to equal treatment in employment, including equal pay; and

WHEREAS, a critical problem is how to make these economic rights fully effective and how to transform them into practical opportunities; and

WHEREAS, a study is needed of Georgia statutes and regulations as well as of the formal and informal practices of the agencies and institutions of state government to determine whether any distinction, exclusion, or preference is made on the basis of sex which has the effect of nullifying or impairing equality of opportunities or treatment in employment or occupation and to determine when, in keeping with sound social policy, such statutes, regulations, or practices should be resolved or terminated.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. There is hereby created the Georgia Commission on Women's Opportunities. The commission shall be composed of 21 members as follows:

- (1) Seven members of the Senate to be appointed by the President of the Senate;
- (2) Seven members of the House of Representatives to be appointed by the Speaker of the House of Representatives; and
- (3) Seven members appointed by the Governor. The Governor's appointees shall not be officers or employees of state government but shall be citizens representing diverse business, professional, and service fields within the private sector.

Section 2. The commission shall conduct a comprehensive study of Georgia statutes and regulations, including the formal and informal practices of agencies and institutions of state government, to determine whether any distinction, exclusion, or preference is made on the basis of sex which has the effect of nullifying or impairing equal opportunity or treatment in employment or occupation and to determine when, in keeping with sound social policy, such statutes, regulations, or practices should be resolved or terminated.

Section 3. The first meeting of the commission shall be called by the Governor for June 15, 1981. At this meeting the commission shall organize and elect a chairman and such other officers from among its membership as are deemed necessary.

Section 4. The commission may request and, upon such request, shall be afforded the assistance and cooperation of the various agencies and institutions of state government.

Section 5. All members of the commission shall receive the allowances authorized by law for legislative members of interim legislative committees. The allowances and all other funds necessary to carry out the provisions of this resolution shall come from funds appropriated to or otherwise available to the legislative branch of government.

Section 6. The commission shall make a comprehensive report of its findings, recommendations, and suggestions to the Governor and all members of the General Assembly prior to the 1983 session of the General Assembly and shall stand abolished on December 31, 1982.

Section 7. This resolution shall become effective upon its approval by the Governor or upon its becoming law without his approval. Appointments to the commission shall be made as provided in this resolution as soon as practicable after its approval or otherwise becoming law.

A RESOLUTION

Creating the Georgia Energy Regulatory Reform Commission; and for other purposes.

WHEREAS, runaway increases in the costs of fossil fuels, when coupled with the extraordinary rises in costs for all other commodities brought about by general inflation, have acutely focused the attention of all Georgians upon the availability of and prices charged for our energy sources; and

WHEREAS, this intensified awareness of the problems related to our energy sources has also brought into question the continued viability of our current system for regulation of public utilities, as well as the credibility not only of our state administrative structure, but also of many of the utilities upon which we rely from day to day; and

WHEREAS, it is vitally important to this state that our law provide for the regulation of public utilities in such a manner that the continued and reasonable viability of our public utilities is balanced with the needs of our state's citizens for reliable and reasonably priced energy sources; and

WHEREAS, the time has come for a complete in-depth review of all matters related to the regulation of public utilities, the operations of public utilities, and the problems of insuring reliable and reasonably priced energy sources; and

WHEREAS, on numerous occasions in the past, this state has been well served by the creation of a special study commission, composed of respected and knowledgeable citizens of this state, to study and recommend solutions to problems requiring thorough examination and innovative solutions; and

WHEREAS, the commission appointed during the interim lacked sufficient time to deal adequately with these complex problems; and

WHEREAS, more study is needed to determine more precisely the problems and appropriate solutions in this complicated and important area; and

WHEREAS, it is only fitting and proper that such a commission be created to review our state's regulatory framework for, and the operation of, public utilities so as to recommend needed reform and improvement.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. (a) There is hereby created the Georgia Energy Regulatory Reform Commission;

(b) The commission shall be composed of 15 members as follows:

- (1) Five members appointed by the Governor.
- (2) Five members of the Senate appointed by the President of the Senate.
- (3) Five members of the House appointed by the Speaker of the House of Representatives.
- (c) Each member appointed to the commission shall be a citizen of this state who is generally recognized to be knowledgeable in the fields of energy or utility regulation or in related fields.
- (d) Any vacancy on the commission shall be filled in the same manner as the original appointment.

Section 2. The commission shall elect a chairman and vice chairman from among its membership. The commission shall meet upon the call of the chairman. The commission shall conduct a comprehensive and exhaustive study of all laws of this state relating to the development and supply of energy sources and the regulation of public utilities and shall also study the operations of public utilities in this state. The study shall be made with a view toward improvements in Georgia law necessary for the continued reliability and availability of energy sources for residents of this state at a reasonable and affordable cost, while insuring the continued viability and efficiency of Georgia's public utilities.

Section 3. The commission is authorized to employ and compensate at least one staff person.

Section 4. The commission may request and, upon such request, shall be afforded the assistance and cooperation of the Georgia Public Service Commission, the Department of Law, the State University System of Georgia, and each other agency or institution of the state.

Section 5. All members of the commission shall receive the allowances authorized by law for legislative members of interim legislative committees. All funds necessary to carry out the provisions of this Resolution shall come from the funds appropriated to or otherwise available to the legislative branch of government.

Section 6. The commission shall make its findings and complete its work as expeditiously as possible and shall make a comprehensive report of its findings, recommendations, and suggestions for proposed legislation no later than the convening of the 1982 regular session of the General Assembly, at which time the commission shall stand abolished.

Section 7. This Resolution shall become effective upon its approval by the Governor or upon its becoming law without his approval. Appointments to the commission shall be made as provided in this Resolution as soon as practicable after its approval or otherwise becoming a law.

The report of the Committee, which was favorable to the adoption of the Resolution, was agreed to.

A RESOLUTION

Creating the Grady Memorial Hospital Study Committee; and for other purposes.

WHEREAS, the provision of charity care to the medically indigent places enormous financial burdens on public teaching hospitals, and, in order to recoup the cost of such charity care, public hospitals must exact higher fees from nonindigent patients and rely upon tax allocations from local city and county jurisdictions; and

WHEREAS, Fulton and DeKalb counties in 1981 allocated in excess of \$30 million in public funds to Grady Memorial Hospital, and these funds were used to provide charity care to indigent patients and to cover factors involved in the hospital's annual operating deficit; and

WHEREAS, the increasing annual operating deficit of the hospital is shared between Fulton and DeKalb counties on an inpatient usage formula basis, with the liability of these counties limited by local contract to revenue collected from a specified millage applied to taxable property in each county; and

WHEREAS, this annual requirement for increased financial support has caused these counties to pursue alternative means of financing the operating deficit at Grady Memorial Hospital, including financial assistance at the state level, in lieu of increasing local taxes; and

WHEREAS, because of Grady Memorial Hospital's affiliation with the Emory University School of Medicine, the hospital serves as a teaching facility, as well as a public hospital, and is called on to provide a wide range of hospital services; and

WHEREAS, there is a need to consider alternative approaches to financing the annual operating deficit at Grady Memorial Hospital in view of its roles as a teaching hospital and as a public hospital; and

WHEREAS, there is a need to consider the performance of internal hospital management of Grady Memorial Hospital with respect to administration of programs and services and utilization of resources, manpower, and staff.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA that there is hereby created the Grady Memorial Hospital Study Committee to be composed of nine members as follows: three members of the House of Representatives appointed by the Speaker of the House; three members of the Senate appointed by the President of the Senate; the Chairman of the Board of Commissioners of Fulton County; the Chairman of the Board of Commissioners of DeKalb County; and the Chairman of the Fulton-DeKalb Hospital Authority. The committee shall hold its organizational meeting by not later than June 1, 1981, on the joint call of the Speaker of the House of Representatives and the President of the Senate. At such organizational meeting, the committee shall elect from its membership a chairman, vice chairman, secretary, and such other officers as it deems necessary or appropriate. The committee shall adopt its own rules of procedure and may establish such subcommittees as it may deem necessary to carry out its duties as hereinafter provided.

BE IT FURTHER RESOLVED that it shall be the duty of the committee to make a thorough study of: (1) appropriate methods of financing Grady Memorial Hospital that address the hospital's problems and needs; (2) the contractual relationships between the hospital and the Emory University School of Medicine; (3) the contractual relationships between the hospital and Fulton and DeKalb counties; and (4) the responsibilities of the state in relation to the hospital. The committee shall be further authorized, as it deems appropriate, to examine the hospital's management, programs, services, facilities, and any other matters relative to such study.

BE IT FURTHER RESOLVED that each legislative member of the committee shall receive the expenses and allowances provided by law for members of legislative interim committees for attending meetings of the committee or meetings of subcommittees thereof. The remaining members of the committee shall be reimbursed for actual and necessary expenses incurred by them in attending meetings of the committee, as authorized by their respective local governing authorities, from the funds of such governing authorities. Except as otherwise provided herein, the funds necessary to carry out the provisions of this resolution shall come from funds appropriated or available to the legislative branch of government.

BE IT FURTHER RESOLVED that the members of the committee may meet such number of times and at such places as the committee shall deem necessary or appropriate to carry out its duties and responsibilities effectively under this resolution. The committee shall make its final report setting forth its findings, conclusions, and recommendations on or before December 31, 1981, on which date the committee shall stand abolished.

A RESOLUTION

Proposing an amendment to the Constitution so as to authorize the General Assembly to allocate a percentage of the proceeds of any local sales and use tax levied within Bulloch County to the Bulloch County school system and to include provisions relative to a reduction in the ad valorem millage rate for school purposes; to provide for the submission of this amendment for ratification or rejection; and for other purposes.

BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Article IX, Section IV, Paragraph III of the Constitution is hereby amended by adding a new paragraph at the end thereof to read as follows:

"The General Assembly, by local law, may allocate a percentage of the proceeds of any local sales and use tax levied within Bulloch County, regardless of by whom the tax is levied, to the Bulloch County school system. The ad valorem tax millage rate levied for the use of the Bulloch County school system shall be reduced for the taxable year beginning January 1, 1984, and each taxable year thereafter, by a millage rate, which, if levied against the nonexempt tangible property within the Bulloch County school district, would produce an amount of revenue equal to the percentage of the proceeds of the local sales and use tax received by the school system in the immediately preceding taxable year. In the event a local sales and use tax is not levied within Bulloch County at any time during calendar year 1983, the allocation to the school system shall not begin until the taxable year beginning on the first day of January after the year in which a local sales and use tax is levied in Bulloch County. The General Assembly in such local law may provide for conditions and limitations on the subject of this paragraph if not in conflict with the provisions of this paragraph."

Section 2. The above proposed amendment to the Constitution shall be published and submitted as provided in Article XII, Section I, Paragraph I of the Constitution.

The ballot submitting the above proposed amendment shall have written or printed thereon the following:

- "() YES Shall the Constitution be amended so as to authorize the General Assembly to allocate a percentage of the proceeds of any local sales and use tax levied within Bulloch County to the Bulloch County school system and to include provisions relative to a reduction in the ad valorem millage rate for school purposes?"
- () NO

A BILL

To amend Code Title 56, relating to insurance, as amended, so as to provide for the licensing and regulation of industrial insurance and all related matters; to provide effective dates; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Code Title 56, relating to insurance, as amended, is hereby amended by striking Code Chapter 56-29, relating to industrial life insurance, in its entirety and inserting in lieu thereof a new Code chapter to read as follows:

“CHAPTER 56-29 INDUSTRIAL LIFE INSURANCE

56-2901. Industrial life insurance defined; stacking prohibited. (a) Industrial life insurance is that form of insurance under which not more than two thousand (\$2,000) dollars on a single life, exclusive of additional benefits in the event of death from accidental means, is payable on any such policy for which the premiums are payable monthly or more frequently, and which bears the words ‘industrial policy’ or ‘weekly premium policy’ or words of similar import imprinted on the face of the policy as a part of the descriptive matter.

(b) No insurer shall knowingly issue an industrial life insurance policy insuring the life of a person if the issuance of such policy would cause the aggregate face amount of industrial life insurance payable on the life of such person under any and all such policies (issued by such insurer) to exceed the sum of two thousand (\$2,000) dollars, exclusive of additional benefits in the event of death from accidental means.

56-2902. Industrial insurance policies; standard provisions required. (a) No policy of industrial life insurance shall be delivered or issued for delivery in this state unless it contains in substance the following provisions or contains provisions which in the opinion of the Commissioner are more favorable to policyholders:

(1) Grace period. A provision that the insured is entitled to a grace period of not less than 30 days within which the payment of any premium after the first may be made, during which period of grace the policy shall continue in force; but, if a claim arises under the policy during such period of grace, the amount of any premium due or overdue may be deducted from any amount payable under the policy in settlement;

(2) Incontestability. A provision that the policy (exclusive of provisions relating to disability benefits or to additional benefits in the event of death by accident or accidental means) shall be incontestable, except for nonpayment of premiums, after it has been in force during the lifetime of the insured for a period of two years from its date of issue;

(3) Alteration of contract. A provision that no agent shall have the power or authority to waive, change, or alter any of the terms or conditions of any policy, except that at the option of the insurer, prior to the issuance of a policy, the terms or conditions may be changed by an endorsement or rider which is signed by a duly authorized officer of the insurer and receipt of which is acknowledged by the applicant in writing;

(4) Misstatement of age. A provision that, if the age of the person insured or of any other person whose age is considered in determining the premium or benefit has been misstated, any amount payable or benefit accruing under the policy shall be such as the premium would have purchased at the correct age or ages.

(5) Dividends. A provision in participating policies that beginning not later than the end of the third policy year, the insurer shall annually ascertain and apportion the divisible surplus, if any, that will accrue on the policy anniversary or other dividend date specified in the policy. Except as hereinafter provided, any dividend becoming payable shall at the option of the party entitled to elect such option be either:

(A) Payable in cash; or

(B) Applied to any one of such other dividend options as may be provided by the policy. If any such other dividend options are provided, the policy shall further state which option shall be automatically effective if such party shall not have elected some other option. If a policy specifies a period within which such other option may be elected, such period shall be not less than 30 days following the date on which such dividend is due and payable. The annually apportioned dividend shall be deemed to be payable in cash within the meaning of subparagraph (A) above even though the policy provides that payment of such dividend is to be deferred for a specified period, provided such period does not exceed six years from the date of apportionment and that interest will be added to such dividend at a specified rate. If a participating policy provides that the benefit under any paid-up nonforfeiture provision is to be participating, it may provide that any divisible surplus becoming payable or apportioned while the insurance is in force under such nonforfeiture provision shall be applied in the manner set forth in the policy;

(6) Policy loan. A provision that after three full years' premiums have been paid and after the policy has a cash surrender value and while no premium is in default beyond the grace period for payment, the insurer will loan on the execution of a proper note or loan agreement by the owner of the policy, and on proper assignment of the policy and on the sole security thereof, at a specified rate of interest, a sum equal to or, at the option of the owner of the policy, less than the cash value of the policy at the end of the current policy year and of any dividend additions thereto; and that the company may deduct from such loan value or from the proceeds of the loan any existing indebtedness on or secured by the policy not already deducted in determining such cash value including interest due or accrued and any unpaid balance of the premium for the current policy year, and may collect interest in advance of the loan to the end of the current policy year. The policy shall reserve to the insurer the right to defer the granting of a loan, other than for the payment of any premium to the insurer, for six months after the application therefor. The policy may also provide that if interest on any indebtedness is not paid when due it shall then be added to the existing indebtedness and shall bear interest at the same rate. The policy may provide that if and when the total indebtedness on the policy, including interest due or accrued, equals or exceeds the amount of the loan value thereof, then the policy shall terminate and become void, but not until at least 30 days' notice shall have been mailed by the insurer to the last known address of the insured or policy owner and of any assignee of record at the home office of the insurer. The policy, at the insurer's option, may provide for an automatic premium loan, subject to an election of the party entitled to elect. No condition other than as herein provided shall be exacted as a prerequisite to any such loan. This paragraph shall not apply to term insurance or to term insurance benefits provided by rider or supplemental policy provisions or to any policy with a loan value of less than \$25.00;

(7) Tables of options and values. A statement of the mortality table and interest rate used in calculating the cash surrender values and the paid-up nonforfeiture benefits available under the policy, together with a table showing the cash surrender value, if any, reduced paid-up value if any, and the extended term value, if any, available under the policy on each policy anniversary, either during the first 20 policy years or during the term of the policy, whichever is shorter. Upon written request, the company will furnish an extension of such table beyond the year shown in the policy. Such values and benefits shall be calculated upon the assumption that there are no dividends or paid-up additions credited to the policy and that there is no indebtedness to the insurer on the policy;

(8) Reinstatement. A provision that unless the policy has been surrendered for its cash surrender value or its cash surrender value has been exhausted, or unless the paid-up term insurance, if any, has expired, the policy will be reinstated at any time within three years from the date of premium default upon written application therefor, the production of evidence of insurability satisfactory to the insurer, the payment of all premiums in arrears, and the payment or reinstatement of any other indebtedness to the insurer upon the policy. All such sums may bear interest not exceeding 6 percent per annum compounded annually; provided, however, acceptance of all or any part of a premium more than 30 days in arrears by the agent or company without requiring reinstatement application shall continue the policy in force without showing any lapse of time;

(9) Title. On each such policy there shall be placed a title which shall briefly and accurately describe the nature and form of the policy;

(10) Payment of premiums.

(A) A provision that all premiums shall be payable in advance either at the home or district office or to any agent of the company upon delivery of a receipt signed by said agent. Such receipt shall bear the agent's license number and signature of one or more of the officers who shall be named in the policy.

(B) In the case of weekly premium policies, there shall be a provision that upon proper notice to the insurer, while premiums on the policy are not in default beyond the grace period, of the intention to pay future premiums directly to the insurer at its home office or any office designated by the insurer for the purpose, the insurer will, at the end of a period of 26 weeks from the due date of the first premium so paid and for any additional weekly premium payment thereafter, for which period such premiums are so paid continuously without default beyond the grace period, refund a stated percentage of the premiums in an amount which fairly represents the savings in collection expense.

(11) Payment of claims. A provision that, when a policy shall become a claim by the death of the insured, settlement shall be made upon receipt of due proof of death and, at the insurer's option, surrender of the policy or proof of the interest of the claimant or both. If an insurer shall specify a particular period prior to the expiration of which settlement shall be made, such period shall not exceed two months from the receipt of such proofs;

(12) Entire contract. A provision that, if any reference is made to the application for insurance or to the constitution, bylaws, or rules of the insurer as forming part of or affecting the policy between the parties, then there shall be included in or attached to said policy when issued a correct copy of the application signed by the applicant and the constitution, bylaws, and rules referred to. All statements made by the applicant in the application shall be deemed to be representations and not warranties. No statement in the application shall be used to void the policy or deny payment of a claim unless a copy of such application has been attached to and made a part of such policy when issued;

(13) Conversion privilege. A provision that upon written request and without evidence of insurability (except for any additional amount of insurance) an industrial life policyholder is guaranteed the privilege of converting any industrial insurance policy to any form of ordinary life insurance with less frequent premium payments regularly issued by the insurer and the privilege of converting small industrial policies with the same insurer into one larger policy with combined benefits;

- (14) Space for name of designated beneficiary. There shall be a space on the front or back page of the policy for the name of the designated beneficiary.
- (b) An exact copy of the application shall be given to the applicant at the time of the sale which discloses and contains the following information and language:
- (1) An itemized list of all policies presently in force with all insurers, showing company name(s), premiums charged, amounts of insurance, total premiums, and total amounts of insurance provided;
 - (2) The premium cost of the insurance policy purchased;
 - (3) The premium cost for each optional additional benefit, if any, shall be shown separately and conspicuously apart from the premium charge for the basic natural death benefit;
 - (4) The following statements shall appear on the applicant's copy in not less than ten point type:
 - (A) 'You may wish to compare the total cost of this insurance policy with your net income.'
 - (B) 'I hereby certify, as signed below, that I was given an exact copy of this application at the time this application was made to the agent of record whose signature appears below.'

Applicant's Signature

(C) 'I, as the agent of record, hereby certify as signed below, that I gave the applicant, whose signature appears above, an exact copy of this application at the time this application was taken. I further certify that I have inquired of the applicant as to all policies in force and that I have listed all such policies on said application.'

Agent's Signature

Agent's License Number

(c) Any of such required provisions or portions thereof not applicable to single premium or term policies or to provisions relating to disability benefits or to additional benefits in the event of death or dismemberment by accidental means shall to that extent not be incorporated therein.

56-2903. Prohibited provisions. No policy of industrial life insurance shall contain any of the following provisions:

(1) A provision by which the insurer may deny liability under the policy for the reason that the insured has previously obtained other insurance from the same insurer.

(2) A provision giving the insurer the right to declare the policy void because the insured has had any disease or ailment, whether specified or not, or because the insured has received institutional, hospital, medical, or surgical treatment or attention. However, a policy may contain a provision which gives the insurer the right to declare the policy void if the insured has, within two years prior to the issuance of the policy, received institutional, hospital, medical, or surgical treatment or attention and the insured or claimant under the policy fails to show that the condition occasioning such treatment or attention was not of a serious nature or was not material to the risk. The policy may also contain a provision that the policy shall not become effective if on the date of the application for the policy the insured had knowledge that he was afflicted with any serious disease tending to shorten life, which fact was not shown on the application for the policy.

(3) A provision giving the insurer the right to declare the policy void because the insured has been rejected for insurance, unless such right be conditioned upon a showing by the insurer that knowledge of such rejection would have led to a refusal by the insurer to make such contract.

56-2904. Provisions of life insurance chapter applicable. In addition to the requirements specifically set forth in this Code chapter, no policy of industrial life insurance shall be delivered or issued for delivery in this state unless it complies with Code Sections 56-2503.1, 56-2504, 56-2507, 56-2508, 56-2509, and 56-2510.

56-2905. Optional additional benefits. Any policy of industrial life insurance may provide a weekly benefit for disability, caused by sickness or accident, not greater than \$40.00 per week.

56-2906. Exemption of industrial life insurance proceeds from creditors. The proceeds and avails of any industrial life insurance policy shall be free from the claims of creditors and representatives of the insured and of persons effecting the same to the same extent and under the same conditions as provided for in the case of other life insurance policies under Code Section 56-2505.

56-2907. Refund upon examination. Every industrial life policy or contract, issued for delivery in this state shall have printed thereon or attached thereto a notice stating in substance that the person to whom the policy or contract is issued shall be permitted to return the policy or contract within ten days after receipt thereof and to have the premium paid refunded if, after examination of the policy or contract, the purchaser is not satisfied with it for any reason. If the purchaser, pursuant to such notice, returns the policy or contract to the insurer at its home or branch office or to the agent through whom it was purchased, it shall be void from the beginning and the parties shall be in the same position as if no policy or contract had been issued. Without limiting any other method of returning a policy or contract under this Code section, it shall be prima-facie evidence of the fact and date of return of a policy or contract if the policy or contract is dispatched by at least first class mail to the insurer or agent, as provided above, and a receipt provided by the United States Postal Service is obtained."

Section 2. Code Section 56-2502, relating to insurance policies containing the entire contract, is hereby amended by striking the words:

"and industrial life insurance policies",

so that when so amended said Code section shall read as follows:

"56-2502. Policies to contain the entire contract.—Except for group life insurance policies ~~and industrial life insurance policies~~, all life insurance policies which contain any reference to the application for insurance, or to the constitution, bylaws, or other rules of the insurer as forming part of or as affecting the contract between the parties shall include or have attached to said policy a correct copy of the application signed by the applicant and of the constitution, bylaws, and rules referred to. Unless included in or attached to the policy, no such application, constitution, bylaws or rules shall be considered a part of the contract or as an independent contract, nor shall it be received in evidence either as part of or as affecting the contract or as an independent contract in any controversy between the parties to or interested in the policy. This section shall not apply to applications for reinstatement."

Section 3. Code Section 56-2504, relating to life insurance nonforfeiture provisions, as amended, is hereby amended by striking from paragraph (b) of subsection (1) the words "in the case of ordinary insurance or five full years in the case of industrial insurance", so that when so amended said paragraph (b) of subsection (1) shall read as follows:

"(b) That, upon surrender of the policy within sixty (60) days after the due date of any premium payment in default after premiums have been paid for at least three full years ~~in the case of ordinary insurance or five full years in the case of industrial insurance~~, the insurer will pay, in lieu of any paid-up nonforfeiture benefit, a cash surrender value of such amount as may be hereinafter specified;".

Section 4. Said Code Section 56-2504 is further amended by striking from paragraph (d) of subsection (1) the words "in the case of ordinary insurance or the fifth policy anniversary in the case of industrial insurance", so that when so amended said paragraph (d) of subsection (1) shall read as follows:

"(d) That, if the policy shall have become paid-up by completion of all premium payments or if it is continued under any paid-up nonforfeiture benefit which became

effective on or after the third policy anniversary in the case of ordinary insurance or the fifth policy anniversary in the case of industrial insurance, the insurer will pay, upon surrender of the policy within thirty (30) days after any policy anniversary, a cash surrender value of such amount as may be hereinafter specified;”.

Section 5. This Act shall become effective January 1, 1982, and shall apply to all policies and contracts of industrial life insurance issued or entered into on and after January 1, 1982; except that the Insurance Commissioner may adopt rules and regulations and take other administrative actions necessary or proper for the implementation of this Act at any time after it is approved by the Governor or otherwise becomes law without his approval.

Section 6. All laws and parts of laws in conflict with this Act are hereby repealed.

If the board determines that uniformity is not present, the board may order the county board of tax assessors to take such action as is necessary to obtain uniformity except that, when a question of countywide uniformity is considered by the board, the board may order a partial or total countywide revaluation only upon a

determination of a majority of all the members of the board that the clear and convincing weight of the evidence requires such action. The board of equalization may act pursuant to this paragraph whether or not the appellant has raised the issue of uniformity.

(B) The Commissioner, by regulation, may adopt uniform procedures and standards which, when approved by the State Board of Equalization, shall be followed by county boards of equalization in determining an appeal.

(6) (A) Within 15 days of the receipt of the notice of appeal, the county board of equalization shall set a date for hearing on the questions presented and shall so notify the taxpayer and the county board of tax assessors in writing. A taxpayer may appear before the board concerning any appeal in person, by his authorized agent or representative, or both. The taxpayer shall specify in writing to the board the name of any such agent or representative prior to any appearance by the agent or representative before the board.

(C) The decision of the county board of equalization shall be in writing, shall be signed by each member of the board, shall specifically decide each question presented by the appeal, shall state that with respect to the appeal no member of the board is disqualified from acting by virtue of the provisions of subsection (h), and shall certify the date on which notice of the decision is given to the parties. Notice of the decision shall be given to each party by sending a copy of the decision by registered or certified mail to the appellant and by filing the original copy of the decision with the county board of tax assessors. Each of the three members of the county board of equalization must be present and must participate in the deliberations on any appeal. A majority vote shall be required in any matter. All three members of the board must sign the decision indicating their vote.

(7) The county ~~board of tax assessors~~ governing authority shall furnish the county board of equalization with necessary facilities and secretarial and clerical help. A county board of tax assessors may not appeal a decision of the county board of equalization changing an assessment by 15 percent or less unless the board of tax assessors gives the county governing authority a written notice of its intention to appeal and, within 10 days of receipt of the notice, the county governing authority by majority vote does not prohibit the appeal. In the case of a joint city-county board of tax assessors such notice shall be given to the city and county governing authorities, either of which may prohibit the appeal within the allowed period of time.

(2) An appeal by the taxpayer as provided in paragraph (1) shall be effected by filing a written notice of appeal with the county board of tax assessors. An appeal by the county board of tax assessors shall be effected by giving notice to the taxpayer. The notice to the taxpayer shall be dated and contain the name and the last known address of the taxpayer. The notice of appeal shall specifically state the grounds for appeal. The notice in either case shall be filed within 30 days from the date on which the decision of the county board of equalization is mailed pursuant to subsection (e)(6)(B). The county board of tax assessors shall certify to the clerk of the superior court the notice of appeal and any other papers specified by the person appealing including, but not limited to, the staff information from the file used by either the county board of tax assessors or the county board of equalization. All papers and information certified to the clerk shall become a part of the record on appeal to the superior court.

(3) The appeal shall constitute a de novo action.

(4) (A) The appeal shall be heard before a jury at the first term following the filing of the appeal. If only questions of law are presented in the appeal, the appeal shall be heard before the court sitting without a jury as soon as practicable. Each hearing before the court sitting without a jury shall be held within 40 days following the date on which the appeal is filed with the clerk of the superior court.

(B) The county board of tax assessors shall use the valuation of the county board of equalization in compiling the tax digest for the county. If the final determination of value by appeal is less than the valuation set by the county board of equalization, the taxpayer shall receive a deduction in his taxes for the year in question. If the final determination of value on appeal is greater than the valuation set by the county board of equalization, the taxpayer shall be liable for the increase in taxes for the year in question due to the increased valuation fixed on appeal.

(g) Alternate members. Alternate members of the county board of equalization, in the order in which selected, shall serve:

(1) As members of the county board of equalization in the event there is a permanent vacancy on the board created by the death, ineligibility, removal from the county, or incapacitating illness of a member or any other circumstances. An alternate member who fills a permanent vacancy shall be considered a member of the board for the remainder of the unfulfilled term.

(2) In any appeal with respect to which a member of the board is disqualified, and be considered as a member of the board.

(3) In any appeal at a regularly scheduled or called meeting in the absence of member, and be considered as a member of the board.

(h) Disqualification.

(1) No member of the county board of equalization shall serve with respect to an appeal concerning which he would be subject to a challenge for cause if he were member of a panel of jurors in a civil case involving the same subject matter.

(2) The parties to an appeal to the county board of equalization shall file in writing with the appeal, in the case of the person appealing, or, in the case of the county board of tax assessors with the certificate transmitting the appeal, questions relating to the disqualification of members of the county board of equalization. Each such question shall be phrased so that it can be answered by an affirmative or negative response. The members of the county board of equalization shall answer such questions, and any question which may be adopted pursuant to subsection (e)(5)(B), in writing under oath within two days of their receipt of the appeal. Answers of the county board of equalization shall be part of the decision of the board and shall be served on each party by first class mail. Determination of disqualification shall be made by the judge of the superior court on the request of any party when the request is made within two days of the response of the board to such questions. The time prescribed under subsection (e)(6)(A) shall be tolled pending the determination of the judge of the superior court.

(i) Compensation. Each member of the county board of equalization shall be compensated by the county per diem for time expended in considering appeals. The compensation shall be paid at a rate of not less than ~~\$10~~ \$25 per day and shall be determined by the governing authority of the county. The attendance at required approved appraisal courses shall be part of the official duties of a member of the board and he shall be paid for each day in attendance in such courses and shall be allowed reasonable expenses necessarily incurred in connection with such courses. Compensation pursuant to this subsection shall be paid from the county treasury upon certification by the member of the days expended in consideration of appeals."

Section 6. This Act shall become effective January 1, 1982.

Section 7. All laws and parts of laws in conflict with this Act are hereby repealed.

The following Committee substitute was read and adopted:

A BILL

To amend an Act known as the "Georgia Boat Safety Act," approved April 19, 1973 (Ga. Laws 1973, p. 1427), as amended, so as to provide for the bonding of regattas, boat races, marine parades, tournaments, or exhibitions; to authorize the expending by the Department of forfeited bond; to authorize the Board to adopt regulations relating to indemnity and forfeiture bonds; to provide for a permit denial; to provide authority for law enforcement; to provide for severability; to provide an effective date; to repeal a specific Act; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. An Act known as the "Georgia Boat Safety Act," approved April 19, 1973 (Ga. Laws 1973, p. 1427), as amended, is hereby amended by adding to the end of Section 6 new subsections (c), (d) and (e) to read as follows:

"(c) Bonds.

(1) Any person sponsoring an event requiring a permit under this Act and which is anticipated to attract 10,000 or more participants shall provide to the Department an indemnity bond issued by a surety company authorized to transact business in this State, in the amount of \$50,000 or such lesser amount as determined appropriate by the Commissioner in his discretion under criteria set forth in regulations adopted by the Board. Such bond shall be payable to the Department and conditioned upon the faithful performance of the requirements set forth in this Act, the regulations promulgated pursuant thereto and the conditions of the permit issued thereunder.

(2) Upon the failure or refusal of the sponsor to comply with any requirement of this Act, the regulations promulgated pursuant thereto, or the conditions of a permit issued thereunder, which failure results in damage to the Department or to the State of Georgia, the Commissioner may make demand upon the sponsor and the surety for such portion of the face amount of the bond as he determines is necessary to compensate the Department or the State for all damages suffered. Upon refusal or failure of the sponsor or surety to pay over the said sum, he shall initiate an action at law to recover the said sum.

(3) Upon recovery of such sum, the Department is authorized to reimburse itself for any expenses incurred in connection with the clean-up and minimization of damage to natural resources, or to expend such sum to clean up and minimize the said damage, or both.

(4) Any person sponsoring an event requiring a permit under this Act and which is anticipated to attract 10,000 or more participants and spectators shall also provide

a forfeiture bond, issued by a surety company authorized to transact business in this State, in the amount of \$50,000 or such lesser amount as determined appropriate by the Commissioner in his discretion under criteria set forth in regulations by the Board. Such bond shall be payable to the Department and conditioned upon the faithful performance of the requirements set forth in this Act, the regulations promulgated pursuant thereto and the conditions of the permit issued thereunder.

(5) Upon the failure or refusal of the sponsor to comply with any requirement of this Act, the regulations promulgated pursuant thereto, or the conditions of a permit issued thereunder, the Commissioner may make demand upon the sponsor and the surety for the face amount of the bond; provided, however, that the Commissioner may, in his discretion and in accordance with regulations adopted by the Board, make demand for an amount less than the said face amount. In exercising such discretion, he may consider the seriousness and degree of the noncompliance. Upon refusal or failure of the sponsor or surety to pay over the said sum, he shall initiate an action at law to recover the said sum.

(6) Upon recovery of such sum, it shall be paid into the treasury of the State of Georgia.

(d) Denial of permits. The Commissioner may, in the exercise of his discretion, deny an application for a permit for a proposed marine event when, having considered the number of participants and spectators likely to be attracted to the event, the nature and purpose of the event, and the area in which it would be held, he determines:

(1) That the ability of the sponsor to enlist a sufficient number of authorized peace officers to enforce, during the course of the marine event, the applicable State Laws and the conditions of the marine event permit issued therefor and to control properly the number of participants is inadequate under the circumstances; or

(2) That the conduct of the proposed event will subject the waters upon which the event will be held or the adjoining upland resource to such extraordinary stress from pollution or damage due to overuse or create such extraordinary hazards to the safety or lives of participants or spectators that such pollution or damage or such safety hazards cannot be successfully prevented or mitigated by permit conditions; or

(3) That the financial and manpower costs incurred by public agencies in the regulation of a marine event are greater than the recreational benefits likely to accrue to the general public from the conduct of the proposed event.

(e) Authority of peace officers. Any peace officer, including law enforcement personnel of the Department assigned to duty assisting in the supervision of any event permitted under this Act, may enforce any of the criminal laws of this State, in connection with such assignment."

Section 2. Said Act is further amended by adding, immediately preceding the period appearing at the end of Section 21 the following:

"including, but not limited to, regulations setting forth the criteria for determining when an indemnity bond shall be required and the appropriate amount thereof, and when a forfeiture bond shall be required, the appropriate amount thereof, and the conditions for default thereunder. In adopting the indemnity bond regulations, the Board shall include, without limitation, criteria relating to the expense of restoring the water body and its surrounding area to the state of cleanliness existing before the event. In adopting the forfeiture bond regulations, the Board shall include, without limitation, criteria relating to the magnitude of the event, the water body and surrounding area upon which it will be held, and the potential public safety hazard inherent in the event. The Board may, by regulation, establish bond forfeiture conditions for categories of non-compliance, including, but not limited to, failure or refusal to comply with requirements to provide facilities for the convenience of participants and spectators, requirements relating to public safety, and requirements relating to damage to the water body and surrounding area upon which the event was held."

Section 3. In the event any section, subsection, sentence, clause, or phrase of this Act shall be declared or adjudged invalid or unconstitutional, such adjudication shall in no manner affect the other sections, subsections, sentences, clauses, or phrases of this Act,

which shall remain of full force and effect as if the section, subsection, sentence, clause, or phrase so declared or adjudged invalid or unconstitutional were not originally a part hereof. The General Assembly hereby declares that it would have passed the remaining parts of this Act if it had known that such part or parts hereof would be declared or adjudged invalid or unconstitutional.

Section 4. This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Section 5. An Act known as the "Water Recreation Act of 1973," approved April 19, 1973 (Ga. Laws 1973, p. 1449) is hereby repealed, but in no case shall any prior Acts previously repealed by hereby reestablished, revived or otherwise reenacted.

SB 316. By: Senator Barnes of the 33rd: A BILL to amend an Act known as "The Municipal Home Rule Act of 1965," so as to authorize municipalities to reapportion council or commission districts of a municipality under specified conditions; and for other purposes.

The following Committee substitute was read and adopted:

A BILL

To amend an Act known as "The Municipal Home Rule Act of 1965," approved March 26, 1965 (Ga. Laws 1965, p. 298), as amended, so as to authorize the governing authorities of municipalities to reapportion council or commission districts of such municipalities under specified conditions and limitations; to retain the authority of the General Assembly to enact certain local laws; to provide for other matters relative to the foregoing; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. An Act known as "The Municipal Home Rule Act of 1965," approved March 26, 1965 (Ga. Laws 1965, p. 298), as amended, is hereby amended by adding at the end of subparagraph 1. of subsection (a) of Section 4, immediately following the word "amended", the following:

" , or as provided in Section 5A of this Act",

so that when so amended subparagraph 1. of subsection (a) of Section 4 of said Act shall read as follows:

"1. Action affecting the composition, form, procedure for election or appointment, continuance in office and limitation thereof for the members of the Municipal Governing Authority, except as authorized in Title 34A of the Code of Georgia, as amended, or as it may hereafter be amended, or as provided in Section 5A of this Act."

Section 2. Said Act is further amended by adding between Sections 5 and 6 a new Section 5A to read as follows:

"Section 5A. (a) Subject to the limitations provided by this Section, the governing authority of any municipal corporation is hereby authorized to reapportion the election districts from which members of the municipal governing authority are elected following publication of the 1980 United States decennial census or any future such census. Such reapportionment of districts shall be effective for the election of members to the municipal governing authority at the next regular general municipal election following the publication of the decennial census.

(b) The municipal governing authority shall by ordinance amend its charter pursuant to paragraph (1) of subsection (b) of Section 3 of this Act to reapportion the districts in accordance with the following specifications:

(1) Each reapportioned district shall be formed of contiguous territory, and the boundary lines of said district shall be the center lines of streets or other well-defined boundaries;

(2) Variation in population between such districts shall comply with the one person-one vote requirements of the United States Constitution; and

(3) The reapportionment shall be limited to adjusting the boundary lines of the existing districts only to the extent reasonably necessary to comply with the requirements of paragraph (2) above, and the number of members of the municipal governing body and the manner of electing such members, except for the adjustment of district boundary lines, shall not be changed by the municipal governing authority.

(c) In addition to reapportionment following publication of the decennial census, a municipal governing authority shall reapportion districts pursuant to this Section if the annexation of additional territory to the corporate boundaries of the municipality has the effect of denying electors residing within the newly annexed territory the right to vote for the election of members of the municipal governing authority on substantially the same basis that the other electors of the municipality vote for members of the municipal governing authority. The reapportionment provided for herein shall meet the criteria specified in subsection (b) of this Section and shall be further limited to making only those adjustments in district boundary lines as may be reasonably necessary to include the newly annexed territory within such districts. Reapportionment under this subsection shall be effective for the next regular general municipal election following the annexation.

(d) This Section shall not prohibit the General Assembly from enacting a local law at any time to amend the charter of a municipality to reapportion or otherwise change election districts from which members of the municipal governing authority are elected. If such action is taken by the General Assembly following publication of a decennial census, but before the first regular general municipal election following the publication of such census, the local Act of the General Assembly shall nullify the power given to the municipal governing authority by subsections (a) and (b) of this Section to reapportion districts following publication of that decennial census. If such action is taken by the General Assembly in conjunction with the annexation, by local Act of the General Assembly, of additional territory to the corporate boundaries of the municipality, the local Act of the General Assembly shall nullify the power and duty given to the municipal governing authority by subsection (c) of this Section to reapportion districts as a result of that annexation."

Section 3. This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

Section 4. All laws and parts of laws in conflict with this Act are hereby repealed.

SR 7. By: Senators Greene of the 26th and Eldridge of the 7th:

A RESOLUTION

Creating the Services for the Aged Study Committee; and for other purposes.

WHEREAS, House Resolution 494-1306 of the regular 1980 session of the Georgia General Assembly created a Services for the Aged Study Committee to function during 1980; and

WHEREAS, the Services for the Aged Study Committee during 1980 engaged in a number of activities to assess the needs of the elderly and the adequacy of existing programs to meet these needs and prepared a comprehensive report with recommendations for needed action by the state; and

WHEREAS, members of the Services for the Aged Study Committee recognized that the committee work during 1980 was only a small beginning toward developing a comprehensive program of services for the aged in Georgia; and

WHEREAS, based on the work performed by the Services for the Aged Study Committee during 1980, the General Assembly recognizes the need for continued study of services for the aged, especially in the areas of: taxation, transportation, home care and social services, mandatory retirement laws, nursing homes, health care, crimes against the elderly laws, housing and energy, employment, recreation, education, gerontological and geriatric training, protective services, and clarification of federal and state rules and regulations; and

WHEREAS, continued examination of aging service programs in both the public and private sectors is needed so as to make meaningful recommendations for improving and expanding services and legislation in the above areas; and

WHEREAS, meeting the needs of Georgia's elderly citizens is of utmost importance, requiring optimum legislative input and study; and

WHEREAS, the Services for the Aged Study Committee serves as an important link between Georgia's elderly citizens and members of the General Assembly, thus providing a mechanism whereby those elderly citizens may air their concerns and grievances and propose constructive suggestions for meeting the needs of the increasing numbers of elderly in the state; and

WHEREAS, plans submitted to the committee dealing with coordinated transportation services for the elderly and with a comprehensive state plan for the elderly provide a needed data base upon which can be established a more adequate program for the aged of the state; but implementation of such a program requires continued oversight by the committee; and

WHEREAS, continuity of membership on the Services for the Aged Study Committee is necessary to avoid unnecessary reconsideration of problems already dealt with by the committee and to provide a demonstrated familiarity and concern with the problems of the aged.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA that there is hereby created the Services for the Aged Study Committee to be composed of seven members of the Senate to be appointed by the President of the Senate and seven members of the House to be appointed by the Speaker of the House. The President of the Senate shall appoint the chairman of the committee, and the Speaker of the House of Representatives shall appoint the vice chairman of the committee. The committee shall meet upon the call of the chairman.

Under the general order of business, established by the Committee on Rules the following Bills of the Senate were taken up for consideration and read the third time:

SB 198. By: Senator Scott of the 43rd: A BILL to be entitled an Act to prohibit certain computer related crimes; to prohibit computer fraud; to prohibit certain accessing, altering, damaging, or destroying of computers, computer systems, or computer networks; and for other purposes.

The following Committee substitute was read and adopted:

A BILL

To prohibit certain computer related crimes; to provide for a short title; to provide for legislative intent; to provide for definitions; to prohibit computer fraud; to prohibit certain accessing, altering, damaging, or destroying of computers, computer systems, or computer networks and to prohibit certain attempts relating thereto; to provide for penalties; to provide for venue of trials; to require reports of violations and provide immunity from liability for such reports; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Short title. This Act may be cited as the "Georgia Computer Systems Protection Act."

Section 2. Legislative intent. The General Assembly finds that:

(1) Computer related crime is a growing problem in the government and in the private sector;

(2) Such crime occurs at great cost to the public since losses for each incident of computer crime tend to be far greater than the losses associated with each incident of other white collar crime;

(3) The opportunities for computer related crimes in state programs and in other entities which operate within the state through the introduction of fraudulent records into a computer system, unauthorized use of computer facilities, alteration or destruction of computerized information files, and stealing of financial instruments, data, or other assets are great;

(4) Computer related crime operations have a direct effect on state commerce; and

(5) The prosecution of persons engaged in computer related crime is difficult under current Georgia criminal statutes.

Section 3. Definitions. For purposes of this section, unless the context clearly indicates otherwise:

(1) "Computer" means an internally programmed, general-purpose, digital device that automatically processes substantial data.

(2) "Computer system" means a set of connected devices including a computer and possibly other devices such as data input, output, or storage devices, data communication circuits, and operating system computer programs that make the system capable of performing special-purpose data processing tasks for which it is specified.

(3) "Computer network" means a set of two or more computer systems that automatically transmit data over communication circuits connecting them.

(4) "Computer program" means an ordered set of data that are coded instructions or statements that when executed by a computer cause the computer to process data.

(5) "Property" includes, but is not limited to, financial instruments, data, computer programs, documentation associated with data and computer systems and programs, all in machine-readable or human-readable form, and any other tangible or intangible item of value.

(6) "Services" includes, but is not limited to, providing a computer system to perform tasks.

(7) "Financial instruments" means any check, draft, money order, certificate of deposit, letter of credit, bill of exchange, credit card, or marketable security, or any computer system representation thereof.

(8) "Access" means to approach, instruct, communicate with, store data in, retrieve data from, or otherwise make use of any resources of, a computer, computer system, or computer network.

(9) "Computer software" means a set of computer programs, procedures, and associated documentation concerned with the operation of a computer system.

A BILL

To provide a short title; to provide definitions; to state findings and a declaration of purpose; to provide for the creation and operation of city business improvement districts within municipalities having a population of more than 400,000 according to the United States decennial census of 1980, or any future such census; to provide for the adoption of district plans; to provide for the financing of such districts; to provide for mandatory design and rehabilitation standards; to provide for termination of any district created pursuant to this act; to provide for severability; to provide for an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Short Title. This Act shall be known as and may be cited as the "City Business Improvement District Act".

Section 2. Definitions. As used in this Act:

(a) "District" means a City Business Improvement District established pursuant to this Act.

(b) "District plan(s)" or "plan" means a proposal adopted by ordinance which includes all of the following:

(1) A map of the district.

(2) A description of the boundaries of the district proposed for creation or extension in a manner sufficient to identify the lands included, the present and proposed uses of these lands, the supplemental services to be provided within the district, the maximum millage to be levied for providing supplemental services, the proposed time for implementation and completion of the plan, any design and rehabilitation standards which may be mandated for buildings located within each district, and any rules and regulations applicable to the district. Boundaries of any such district shall not include land on which is located telephone central office and switching facilities serving an area exceeding the boundaries of said City Business Improvement District.

(3) Any other item required to be incorporated therein by the governing authority.

(c) "Municipality" means those municipal corporations located wholly within the State of Georgia and having a population of more than 400,000 according to the United States decennial census of 1980, or any future such census.

(d) "Supplemental Services" means those services provided for the improvement and promotion of the district, including but not limited to, advertising, promotion, sanitation, security, business recruitment and development.

(e) "Taxpayer" means any entity or person paying ad valorem taxes on real or personal property, whether on one or more businesses, or one or more parcels of property within a district.

Section 3. Findings and purpose. The General Assembly finds that many business districts within large cities in this State are in an economically depressed condition, and that this condition adversely affects the economic and general well-being of the people of such large cities of the State. It is further found and declared that the establishment of City Business Improvement Districts is an effective means for restoring and promoting commercial and other business activity within such business districts.

Section 4. Powers of Municipalities. Upon the establishment of any City Business Improvement District pursuant to the provisions of this Act, the governing authority of any municipality to which the provisions of this Act are applicable shall have authority to exercise the following powers with respect to each such district, subject to the provisions of this Act:

(a) To adopt a district plan for the provision of supplemental services to said district, and to adopt budgets for the implementation of such supplemental services;

(b) To fix and levy annually a millage upon real and personal property within said district, to make such assessments liens upon the properties, and to enforce such liens in the same manner as other City taxes;

(c) To provide supplemental services or to contract with non-profit corporations for all or part of the supplemental services required to implement such district plan; and

(d) To mandate design and rehabilitation standards for buildings located within such district.

Section 5. Adoption of District Plans. The governing authority of any municipality to which the provisions of this Act are applicable may create City Business Improvement Districts by the adoption of district plans, as follows:

(2) municipal taxpayers owning at least seventy percent (by assessed values as shown by the most recent assessment rolls of the municipality) of the taxable property subject to ad valorem real and personal property taxation in the district.

(b) Such petition must be accompanied by a proposed district plan, to include a budget, a formula for imposing assessments on the taxpayers within said district, and design and rehabilitation standards, if desired.

(c) Said petition shall be presented to the governing authority of the municipality, which shall refer it to the appropriate municipal departments for review of its sufficiency, reasonableness of assessments, and financial feasibility of the plan. Said departments shall submit reports which shall approve, disapprove, or give qualified approval with modifications, of the district plan, with reasons therefor, to the governing authority. The governing authority shall hold a public hearing on the issue of whether such district should be created provided that notice of the hearing shall be placed in a newspaper of general circulation in the community at least ten (10) days prior to the date of the hearing. The governing authority may approve, approve with modifications, or disapprove the plan.

(d) Any district plan thus adopted may be amended from time to time, rescinded, or its budget revised by ordinance.

Section 6. Financing of District. (a) The expense incurred in the provision of supplemental services within the district(s) shall be financed in accordance with the district plan upon which the establishment or extension of the district was based. However, the cost of supplemental services shall not include the cost to the district of services performed by the municipality on a city-wide basis.

(b) The charge shall be levied and collected in the same manner, at the same time and by the same officers, as other City taxes and assessments.

Section 7. Segregation of Funds. No charges assessed and collected by a municipality pursuant to this Act shall be spent for any purpose not authorized by the district plan of the district where such charges were assessed and collected, except for such costs as may be attributed to the billing and collection of said charges.

Section 8. Design and Rehabilitation Standards. Upon the establishment of any City Business Improvement District pursuant to the provisions of this Act, the governing authority of any municipality to which the provisions of this Act are applicable may mandate design and rehabilitation standards for buildings within City Business Improvement Districts, where said governing authority finds that such standards are necessary to prevent or eliminate blight, to establish and improve property values and to foster economic development within the districts. Said governing authority may establish deadlines for compliance with said standards, and may provide for the enforcement of said design and rehabilitation standards.

Section 9. Sunset Provision. Any City Business Improvement District which is created pursuant to Section 5 hereof shall terminate and cease to exist exactly five (5) years from the date of its creation by ordinance, unless said district is renewed in the manner set forth in Section 5 hereof for its creation.

Section 10. Severability. In the event any section, subsection, sentence, clause or phrase of this act shall be declared or adjudged invalid or unconstitutional, such adjudication shall in no manner affect the other sections, subsections, sentences, clauses, or phrases of this Act, which shall remain of full force and effect as if the section, subsection, sentence, clause, or phrase so declared or adjudged invalid or unconstitutional were not originally a part hereof. The General Assembly hereby declares that it would have passed the remaining parts of this Act if it had known that such part or parts hereof would be declared or adjudged invalid or unconstitutional.

Section 11. This Act shall become effective upon its approval by the Governor or upon its becoming law without his approval.

A RESOLUTION

Proposing an amendment to the Constitution so as to provide a homestead exemption of \$8,000.00 from all Palmetto ad valorem taxes for each resident of the City of Palmetto who is 65 years of age or older having an adjusted gross income, with certain exclusions, together with the adjusted gross income of his spouse who also occupies and resides at such homestead, which does not exceed \$8,000.00 for the immediately preceding taxable year for income tax purposes; to provide for the submission of this amendment for ratification or rejection; and for other purposes.

BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Article VII, Section I, Paragraph IV of the Constitution is hereby amended by striking therefrom the following:

"Any other provisions of this Constitution to the contrary notwithstanding, each resident of the City of Palmetto who is sixty-five years of age or over and who does not have an income from all sources, including the income of his spouse who is living in the

home of said resident, exceeding \$4,000.00 for the immediately preceding taxable year for State of Georgia income tax purposes, is hereby granted an exemption of \$4,000.00 on his homestead from all ad valorem taxation by the City of Palmetto as long as any such resident of the City of Palmetto actually occupies said homestead as his residence. The value of the homestead in excess of the above exempted amount shall remain subject to ad valorem taxation by the City of Palmetto. Any such resident shall not receive the benefits of such homestead exemption unless he files an affidavit with the governing authority of the City of Palmetto, or with a person designated by the governing authority of the City of Palmetto, giving his age and the amount of income which he receives and the income which his spouse receives and such additional information relative to receiving the benefits of such exemption as will enable the governing authority of the City of Palmetto, or the person designated by the governing authority of the City of Palmetto, to make a determination as to whether such owner is entitled to such exemption. The governing authority of the City of Palmetto, or the person designated by the said governing authority, shall provide affidavit forms for this purpose. The exemption provided for herein shall apply to all taxable years beginning after December 31, 1974.", and inserting in lieu thereof the following:

"Any other provision of this Constitution to the contrary notwithstanding, each resident of the City of Palmetto who is 65 years of age or older is hereby granted an exemption from all City of Palmetto ad valorem taxes, except those to pay interest on and retire bonded indebtedness, in the amount of \$8,000.00 on a homestead owned and occupied by him as a residence, if his adjusted gross income, together with the adjusted gross income of his spouse who also occupies and resides at such homestead, does not exceed \$8,000.00 for the immediately preceding taxable year for income tax purposes. For the purposes of this paragraph, adjusted gross income shall be as defined by the Internal Revenue Code of 1954, as now or hereafter amended, but shall not include income or benefits which are received as retirement, survivor, or disability benefits under the Federal Social Security Act, or under any other public or private retirement, disability or pension system, except such income or benefits which are in excess of the maximum amount authorized to be paid to an individual and his spouse under the Federal Social Security Act, and income from such sources in excess of such maximum amount shall be included as adjusted gross income for the purposes of this paragraph. The value of the residence in excess of the above-exempted amount shall remain subject to taxation. In order to qualify for the exemption provided for herein, the taxpayer or his agent must file an affidavit with the city clerk of Palmetto giving his age and the amount of adjusted gross income which he and his spouse received during the last taxable year for federal income tax purposes and such additional information relative to receiving the benefits of such exemption as will enable the city clerk to make a determination as to whether such owner is entitled to such tax exemption. The city clerk shall provide affidavit forms for this purpose. Such application shall be processed in the same manner as other applications for homestead exemption; and the provisions of law applicable to the processing of homestead exemptions, as the same now exists or may hereafter be amended, shall apply thereto. It shall be necessary that a homeowner make application and file said affidavits each year thereafter before said exemption shall be continued. It shall be the duty of any such person to notify the city clerk in the event he becomes ineligible for any reason for the exemption provided in this paragraph. The General Assembly may provide by law for the proper administration of this exemption, including penalties necessary therefor. The increased exemption provided for herein shall apply to all taxable years beginning after December 31, 1982."

If the results of operations in the Authority’s fiscal year commencing July 1, 1980 or in any subsequent fiscal year reflect that the proceeds of the tax were not used to subsidize operations to the maximum extent herein provided, the Board may, in its sole discretion, reserve any amounts that could have been used to subsidize operations in that fiscal year and later use said reserved amounts and any interest earned on said reserved amounts to provide an additional subsidy for operations in any future fiscal year or years. The following Committee substitute was read:

A BILL

To amend an Act known as the "Motor Vehicle Certificate of Title Act," approved March 3, 1961 (Ga. Laws 1961, p. 68), as amended, particularly by an Act approved February 16, 1962 (Ga. Laws 1962, p. 79) and an Act approved March 11, 1964 (Ga. Laws 1964, p. 436), so as to require the delivery of certificates of title from the transferor to the transferee within a specified time; to provide for postmarks as proof of timely submission of documents; to require submission of certificate of title applications to be made so as to have the state revenue commissioner or his duly authorized county tag agents receive same within a specified time; to provide for a penalty for certificate of title applications delivered or received on an untimely basis; to provide for a time period within which rejected documents must be resubmitted and to provide for a penalty for failure to resubmit in a timely manner; to change the number of days within which notice of a security interest must be delivered to the commissioner in order to perfect such interest as of the date of the security agreement; to provide for other matters relative to the foregoing; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. An Act known as the "Motor Vehicle Certificate of Title Act," approved March 3, 1961 (Ga. Laws 1961, p. 68), as amended, particularly by an Act approved February 16, 1962 (Ga. Laws 1962, p. 79) and an Act approved March 11, 1964 (Ga. Laws 1964, p. 436), is hereby amended by adding the following sentences between the first and second sentences of subsection (a) of Section 8:

"Except as provided in subsection (b) of this section, the application must be submitted to the commissioner or his appropriate authorized county tag agent by the owner of the vehicle within 90 days from the date of purchase of the vehicle or from the date the owner is otherwise required by law to register the vehicle in this state or the owner of the vehicle shall be required to pay a penalty of \$15.00 in addition to the ordinary title fee as provided by this Act. If the documents submitted in support of the title application are rejected, the party submitting the documents shall have 60 days from the date of rejection to resubmit the documents required by the commissioner for the issuance of a certificate of title. Should the documents not be properly resubmitted within the 60 day period, there shall be an additional \$15.00 penalty assessed and the owner of the vehicle shall be required to remove immediately the license plate of the vehicle and return same to the commissioner. The license plate shall be deemed to have expired at midnight of the sixtieth day following the initial rejection of the documents submitted if the documents have not been resubmitted as required above.",

so that when so amended subsection (a) of Section 8 shall read as follows:

“(a) The application for the first certificate of title of a vehicle in this state shall be made by the owner to the commissioner on the form he prescribes. Except as provided in subsection (b) of this section, the application must be submitted to the commissioner or his appropriate authorized county tag agent by the owner of the vehicle within 90 days from the date of purchase of the vehicle or from the date the owner is otherwise required by law to register the vehicle in this state or the owner of the vehicle shall be required to pay a penalty of \$15.00 in addition to the ordinary title fee as provided by this Act. If the documents submitted in support of the title application are rejected, the party submitting the documents shall have 60 days from the date of rejection to resubmit the documents required by the commissioner for the issuance of a certificate of title. Should the documents not be properly resubmitted within the 60 day period, there shall be an additional \$15.00 penalty assessed and the owner of the vehicle shall be required to remove immediately the license plate of the vehicle and return same to the commissioner. The license plate shall be deemed to have expired at midnight of the sixtieth day following the initial rejection of the documents submitted if the documents have not been resubmitted as required above. Said application shall contain:

- (1) The name, residence, and mailing address of the owner;
- (2) A description of the vehicle including, so far as the following data exists: its make, model, identifying number, type of body, the number of cylinders, and whether new or used;
- (3) The date of purchase by applicant, the name and address of the person from whom the vehicle was acquired, and the names and addresses of the holders of all security interests and liens in order of their priority and the date thereof; and
- (4) Any further information the commissioner reasonably requires to identify the vehicle and to enable him to determine whether the owner is entitled to a certificate of title and the existence or nonexistence of security interests in the vehicle and liens on the vehicle.”

Section 2. Said Act is further amended by adding at the end of subsection (b) of Section 8 immediately following the word “commissioner” the following:

“or his appropriate authorized county tag agent so as to have the application submitted to the commissioner or his appropriate authorized county tag agent within 90 days from the date of the sale of the vehicle or the dealer, or in nondealer sales the transferee, shall be required to pay a penalty of \$15.00 in addition to the ordinary title fee paid by the transferee as provided in this Act. If the documents submitted in support of the title application are rejected, the dealer submitting the documents shall have 60 days from the date of initial rejection to resubmit the documents required by the commissioner for the issuance of a certificate of title. Should the documents not be properly resubmitted within 60 days, there shall be an additional penalty of \$15.00 assessed against the dealer. The willful failure of a dealer to obtain a certificate of title for a purchaser shall be grounds for suspension or revocation of the dealer’s state issued license and registration for the sale of motor vehicles. Should the title application be submitted through a county, the county shall be entitled to retain 50 percent of any late title application penalty fee provided for in the ‘Motor Vehicle Certificate of Title Act.’”, so that when so amended subsection (b) of Section 8 shall read as follows:

“(b) If the application refers to a vehicle purchased from a dealer, it shall contain the name and address of the holder of any security interest created or reserved at the time of the sale by the dealer and the date of his security agreement and be signed by the dealer as well as the owner; and the dealer shall promptly mail or deliver the application to the commissioner or his appropriate authorized county tag agent so as to have the application submitted to the commissioner or his appropriate authorized county tag agent within 90 days from the date of the sale of the vehicle or the dealer, or in nondealer sales the transferee, shall be required to pay a penalty of \$15.00 in addition to the ordinary title fee paid by the transferee as provided in this Act. If the documents submitted in support of the title application are rejected, the dealer submitting the documents shall have 60 days from the date of initial rejection to resubmit the documents required by the commissioner for the issuance of a certificate of title. Should the documents not be properly resubmitted within 60 days, there shall be an additional penalty

of \$15.00 assessed against the dealer. The willful failure of a dealer to obtain a certificate of title for a purchaser shall be grounds for suspension or revocation of the dealer's state issued license and registration for the sale of motor vehicles. Should the title application be submitted through a county, the county shall be entitled to retain 50 percent of any late title application penalty fee provided for in the 'Motor Vehicle Certificate of Title Act.'"

Section 3. Said Act is further amended by adding immediately following Section 8 a new section, to be designated Section 8A, to read as follows:

"Section 8A. United States Post Office postmark as proof of timely submission of documents. In instances when an application for title is required to be submitted within a certain time period, proof of mailing within the designated period allowed for submission of the documents, as evidenced by a United States Post Office postmark, shall be prima facie proof that the application was timely submitted."

Section 4. Said Act is further amended by striking subsections (a) and (b) of Section 15 in their entirety and inserting in lieu thereof new subsections (a) and (b) to read as follows:

"(a) If an owner transfers his interest in a vehicle other than by the creation of a security interest, he shall at the time of delivery of the vehicle execute an assignment and warranty of title, which must be subscribed and sworn to before an officer authorized to administer oaths in the state, to the transferee in the space provided therefor on the certificate of title or as the commissioner prescribes, and cause the certificate and assignment to be delivered to the transferee. If the transferor willfully fails to deliver the properly assigned certificate of title to the transferee, the transferor shall be guilty of a misdemeanor. In addition, the transferor shall be civilly liable to the transferee for all damages, including reasonable attorney's fees, occasioned by the transferor's failure to obey this section.

(b) Except as provided in Section 16, the transferee shall, promptly after delivery to him of the vehicle and certificate of title, execute the application for a new certificate of title in the space provided therefor on the certificate or as the Commissioner prescribes, and cause the certificate and application on the form the commissioner prescribes and cause the application and the certificate of title to be mailed or delivered to the commissioner or his appropriate authorized county tag agent with the application for change of registration for the vehicle so that the title application shall be received within 90 days from the date of the transfer of the vehicle, or the owner shall be required to pay a penalty of \$15.00 in addition to the ordinary title fee as provided by this Act. If the documents submitted in support of the title application are rejected, the party submitting the documents shall have 60 days from the date of initial rejection to resubmit the documents required by the commissioner for the issuance of title. Should the documents not be properly resubmitted within 60 days, there shall be an additional \$15.00 penalty assessed and the owner of the vehicle shall be required to remove immediately the license plate of the vehicle and return same to the commissioner. The license plate shall be deemed to have expired at midnight of the sixtieth day following the initial rejection of the documents if the documents have not been resubmitted as required above. If the title application is submitted through a county, the county shall be entitled to retain 50 percent of any late title application fee as provided for in this Act."

Section 5. Said Act is further amended by striking subsection (a) of Section 16 in its entirety and inserting in lieu thereof a new subsection (a) to read as follows:

"(a) A dealer who buys a vehicle and holds it for resale need not apply to the commissioner for a new certificate of title but may retain the certificate delivered to him and, upon transferring the vehicle to another person other than by the creation of a security interest, shall promptly execute the assignment and warranty of title by a dealer, which must be subscribed and sworn to before an officer authorized to administer oaths in this state, and show the names and addresses of the transferee and any holder of a security interest created or reserved at the time of the resale and the date of his

security agreement in the spaces provided therefor on the certificate or as the commissioner prescribes. Except as otherwise provided in subsection (c) of Section 15, the dealer shall submit a properly completed certificate of title application and proper supporting documents to the commissioner or to the appropriate authorized county tag agent so that the application and supporting documents shall be submitted to the commissioner or the appropriate authorized county tag agent within 90 days from the date of the transfer of the vehicle, or the dealer shall be required to pay a penalty of \$15.00 in addition to the ordinary title fee as provided by this Act. If the documents submitted in support of the title application are rejected, the dealer submitting the documents shall have 60 days from the date of initial rejection to resubmit the documents required by the commissioner for the issuance of title. Should the documents not be properly resubmitted within 60 days, there shall be an additional penalty of \$15.00 assessed against the dealer. The willful failure of a dealer to obtain a certificate of title for a purchaser from that dealer shall be grounds for suspension or revocation of dealer's state issued license and registration for the sale of motor vehicles. If the title application is submitted through a county, the county shall be entitled to retain 50 percent of any late title application penalty fee as provided for in this Act. Transfers of vehicles under this section shall otherwise conform with the provisions of Section 15. Any person selling a previously registered vehicle as defined in Section 38 which is exempt from the provisions of this Act during this Act's implementation period need not have a certificate of title. A dealer selling a previously registered vehicle which under the provisions of this Act need not have a certificate of title need not furnish a purchaser of such a vehicle a certificate of title. At such time as previously registered vehicles are brought under the terms of this Act, from that time on a dealer when selling such a vehicle shall conform to all provisions of this Act."

Section 6. Said Act is further amended by striking in their entirety subsections (a) and (b) of Section 17 and inserting in lieu thereof new subsections (a) and (b) to read as follows:

"(a) If the interest of an owner in a vehicle passes to another other than by voluntary transfer, the transferee shall, except as provided in subsection (b), ~~promptly~~ mail or deliver to the commissioner or his appropriate authorized county tag agent the last certificate of title if available, proof of the transfer, and his application for a new certificate in the form the commissioner prescribes with the application for change of registration for the vehicle so that the title application and other documents shall be received by the commissioner or his appropriate authorized county tag agent no later than 90 days from the date that the transferee acquired the interest in the vehicle, or the transferee shall be required to pay a penalty of \$15.00 in addition to the ordinary title fee as provided by this Act. If the documents submitted in support of the title application are rejected, the party submitting the documents shall have 60 days from the date of initial rejection to resubmit the documents required by the commissioner for the issuance of title. Should the documents not be properly resubmitted within the 60 day period, there shall be an additional \$15.00 penalty assessed and the owner of the vehicle shall be required to remove immediately the license plate of the vehicle and return same to the commissioner. The license plate shall be deemed to have expired at midnight of the sixtieth day following the initial rejection of the documents if the documents have not been resubmitted as required above. If the title application is submitted through the county, the county shall be entitled to retain 50 percent of any late title application penalty fee as provided for in this Act. (2) 'Accident and sickness insurance benefit plan, policy, or contract' means:

(A) An individual accident and sickness insurance policy or contract as defined in Code Chapter 56-30, relating to individual accident and sickness insurance;

(B) A group and blanket accident and sickness insurance policy or contract as defined in Code Chapter 56-31, relating to group and blanket accident and sickness insurance;

Such an optional endorsement shall also provide that the coverage required to be made available herein shall also cover the spouse and the dependents of the insured if the insured's spouse and dependents are covered under said benefit plan, policy, or contract; provided that in no event shall such an insurer be required to cover outpatient treatment for more than a maximum of 30 visits per policy year.

(c) The optional endorsement required to be made available under subsection (b) of this Code section shall not contain any exclusions, reductions, or other limitations as to coverages, deductibles, or coinsurance provisions which apply to the treatment of mental disorders unless such provisions apply generally to all benefits provided or paid for under the accident and sickness insurance benefit plan, policy, or contract.

(d) Nothing in this Code section shall be construed to prohibit an insurer, nonprofit corporation, health care plan, health maintenance organization, or other person issuing any similar accident and sickness insurance benefit plan, policy, or contract from issuing or continuing to issue an accident and sickness insurance benefit plan, policy, or contract which provides benefits greater than the minimum benefits required to be made available under this Code section or from issuing any such plans, policies, or contracts which provide benefits which are generally more favorable to the insured than those required to be made available under this Code section.

(e) The requirements of this Code section with respect to a group or blanket accident and sickness insurance benefit plan, policy, or contract shall be satisfied if the coverage specified in subsections (b) and (c) of this Code section is made available to the master policyholder of such plan, policy, or contract. Nothing in this Code section shall be construed to require the group insurer, nonprofit corporation, health care plan, health maintenance organization, or master policyholder to provide or to make available such coverage to any insured under such group or blanket plan, policy, or contract.

(f) Nothing in this Code section shall be construed to prohibit the inclusion of coverage for the treatment of mental disorders that differs from the coverage provided in the same insurance plan, policy, or contract for physical illnesses if the policyholder does not purchase the optional coverage made available pursuant to this Code section."

SR 63. By: Senators Wessels of the 2nd, Bryant of the 3rd, Kennedy of the 4th and Coleman of the 1st:

A RESOLUTION

Creating the Georgia Semiquincentenary Commission; and for other purposes.

WHEREAS, the State of Georgia was founded by General James Edward Oglethorpe in 1733 and was one of the original thirteen colonies of the United States of America; and

WHEREAS, Georgia was the only one of the original colonies chartered after the English Revolution and the completion of the English Bill of Rights, and all the benefits of those great principles were expressly conferred upon her citizens; and

WHEREAS, although the period of Georgia's colonial life was too short to mature political institutions, the character, ambitions, and ideals of her people during the period preceding the Revolutionary War dramatically influenced the establishment, evolution, and meaning of the state's organic law, codes, and session laws which have followed; and

WHEREAS, the record of Georgia is rich in patriotism, intellectual force, civil and military achievement, heroism, and honorable and sagacious statesmanship contributing significantly to the formation and history of our government; and

WHEREAS, Georgians have demonstrated much genius in administration, in jurisprudence, and in legislation substantially shaping the form and spirit of our general political and economic system and the underlying principles of each, and it is only fitting and proper that the 250th anniversary of the founding of the State of Georgia be appropriately celebrated by the citizens of this grand and glorious State.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA that there is hereby created the Georgia Semiquincentenary Commission to be composed of 25 members. Five of the members of the commission shall be appointed by the Governor, one member of the commission shall be appointed by the President of the Senate from each congressional district, and one member of the commission shall be appointed by the Speaker of the House of Representatives from each congressional district.

The commission shall be responsible for planning the semiquincentenary celebration for the State of Georgia and for implementing the plan in February of 1983. The commission is authorized to accept appropriations from the state and local governments, gift from persons, firms, and corporations and to expend such funds to accomplish its objectives. The commission may conduct such meetings at such places and at such times as it may deem necessary or convenient to enable it to exercise fully and effectively its powers, perform its duties, and effectuate the purposes of this resolution. Any member of the commission who is a public officer or employee shall receive no compensation for their service but shall be reimbursed for all expenses incurred in carrying out their duties. All such members shall be reimbursed from the same funds from which they are otherwise compensated. Members of the General Assembly on the commission and all other members of the commission shall receive the allowances authorized for legislative members of interim legislative committees. Except as otherwise provided, the funds necessary to carry out the provisions of this resolution shall come from the funds appropriated to or available to the legislative branch of government. The commission shall stand abolished on January 1, 1984.

The following Committee substitute was read and adopted:

A RESOLUTION

Creating the Georgia Semiquincentenary Commission; and for other purposes.

WHEREAS, General James Edward Oglethorpe founded Georgia as a British Colony in 1733; and

WHEREAS, the first group of 100 settlers, led by Oglethorpe, arrived in February 1733, and established a settlement called Savannah about 18 miles upstream on the Savannah River; and

WHEREAS, Georgia was the youngest of the 13 original colonies when the American Revolution began; and

WHEREAS, Georgians were among the leaders in the drive for national independence and Georgia, in 1788, was the fourth state to ratify the Constitution of the United States; and

WHEREAS, Georgia's population has grown from 82,548 in 1790 to over 5 million in 1981; and

WHEREAS, it is only fitting and proper that we celebrate the two hundred and fiftieth anniversary of the founding of Georgia.

NOW, THEREFORE, BE IT RESOLVED BY THE GENERAL ASSEMBLY OF GEORGIA that there is hereby created the Georgia Semiquincentenary Commission to be composed of 15 members. Five members shall be appointed by the Governor, five members shall be appointed by the Speaker of the House, and five members shall be appointed by the President of the Senate. At its initial meeting, the commission shall elect from among its membership a chairman, a vice-chairman, and a secretary. Vacancies on the commission shall be filled in the same manner in which the original appointments were made. It shall be the duty of the commission to cooperate with local groups to prepare an overall program for commemorating the two hundred and fiftieth anniversary of the founding of Georgia and to plan, encourage, develop, and coordinate observances and activities commemorating the historic events associated with such momentous occasion. The commission shall promote and assist in the publicizing of the historical events surrounding the founding of Georgia and may prepare and furnish historical material to individuals, organizations, or agencies charged with such publicity. The commission is hereby authorized and empowered to accept grants or gifts from the federal government; the state government; any county, municipal, or local government; any board, bureau, other commission, agency,

authority, or establishment of any such government; or from any individual, group of individuals, or any other organization, public or private; and shall have the authority to hold, invest, reinvest, and disburse such grants and gifts and the income derived from such grants and gifts in carrying out the objectives and purposes of the commission and shall not be required to pay such grants and gifts or the income derived therefrom into the general fund of the state treasury. The commission shall be authorized and empowered to make such rules and regulations and perform such other activities as shall be necessary or appropriate in carrying out the purposes and duties of the commission. In its planning, the commission shall give special emphasis to the Georgians who played important parts in the development and growth of our state and special emphasis on Savannah, the site of the first settlement. The commission may make a report of its activities to the Governor and the General Assembly with any recommendations it may wish to make from time to time. The commission may conduct such meetings at such places and at such times as it may deem necessary or convenient to enable it to exercise fully and effectively its powers, to perform its duties, and to effectuate the purposes of this resolution. The members of the commission shall receive no compensation for their service; however, in adopting an operating budget, they may provide for reimbursement of actual expenses incurred during such service said expenses not to exceed the allowance allowed members of the Georgia General Assembly. The funds necessary to carry out the provisions of this resolution shall be raised from the private sector or from such appropriations as may be made by the legislative branch of government. The commission shall stand abolished on January 1, 1984.

The report of the Committee, which was favorable to the adoption of the Resolution, by substitute, was agreed to.

A BILL

To amend an Act providing minimum salaries for judges of the probate courts of the various counties of Georgia, approved April 5, 1978 (Ga. Laws 1978, p. 1953), as amended, so as to increase the minimum salaries of said probate judges; to change the provisions relating to additional compensation; to provide an effective date; to repeal conflicting laws; and for other purposes.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. An Act providing minimum salaries for judges of the probate courts of the various counties of Georgia, approved April 5, 1978 (Ga. Laws 1978, p. 1953), as amended, is hereby amended by striking Section 1 in its entirety and inserting in lieu thereof a new Section 1 to read as follows:

"Section 1. Any other provisions of law to the contrary notwithstanding, the minimum annual salary of each judge of the probate court in the State of Georgia shall be fixed according to the population of the county in which he serves as determined by the United States Decennial Census of 1970 or any future such census; provided, however, that, in the event the population of a county according to the United States Decennial Census of 1980 or any future such census is less than its population according to the United States Decennial Census of 1970, the population bracket under which any such county falls for the purposes of this Section shall be determined according to the United States Decennial Census of 1970. Each such judge of the probate court shall receive an annual salary, payable in equal monthly installments from the funds of his county, of not less than the amount fixed in the following schedule:

Population

The amount of minimum salary provided herein for the judge of the probate court of any county presently on a salary who also holds and conducts elections or is responsible for conducting elections for members of the General Assembly under the provisions of any applicable general or local law of this state shall be increased by \$100.00 per month. The amount of the minimum salary provided herein for the judge of the probate court of any county presently on a salary who is responsible for traffic cases under the provisions of any general or local law of this state shall also be increased by \$150.00 per month."

Section 2. Said Act is further amended by striking in its entirety Section 2, which reads as follows:

"Section 2. The amount of the minimum salary provided in Section 1 for the judges of the probate courts of any county presently on a salary who is responsible for traffic cases under the provisions of any general or local law of this State shall also be increased by \$100.00 per month."

Section 3. Said Act is further amended by renumbering Section 3 as Section 2 and by striking from the first line thereof the following:

"Sections 1 and 2",

and inserting in lieu thereof the following:

"Section 1",

so that when so amended the new Section 2 shall read as follows:

~~"Section 3~~ Section 2. The amounts provided in ~~Sections 1 and 2~~ Section 1 of this Act shall be increased by five percent (5%) per each four-year term of office served by any judge of a probate court, figured at the end of each such period of service. The provisions of this Section shall not be construed to affect any provisions of local legislation except where such local legislation provides for a salary lower than the salary provided in this Act, in which event the provisions of this Act shall prevail. Such increase shall not have retroactive effect, except that the current term of judges of probate courts presently in office shall be counted for determining the appropriate salary under this Section. This Act shall not be construed to reduce the salary of any judge of a probate court presently in office. The minimum salaries provided for in this Act shall be considered as salary only. Expenses for deputy clerks, equipment, supplies, copying equipment and other necessary and reasonable expenses for the operation of a probate court shall come from funds other than the funds specified as salary in this Act."

Section 4. Said Act is further amended by renumbering Sections 4 through 6 as Sections 3 through 5, respectively.

BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

Section 1. Legislative intent. (a) The General Assembly intends by the passage of this Act to continue the reorganization and revision of the Georgia Public Revenue Code begun by the enactment of Code Title 91A by the 1978 regular session of the General Assembly and continued by the enactment of Act No. 2 by the 1979 regular session of the General Assembly and Act No. 682 of the 1980 regular session of the General Assembly. It is recognized that, with any recodification encompassing the scope of Title 91A, a thorough review must be undertaken to insure the integrity of the new law, to correct errors and omissions, and to continue to streamline, modernize, and make more efficient the administrative provisions applicable to the enforcement of our public revenue laws. This Act is the culmination of such a review by the General Assembly.

(b) It is the further intent of the General Assembly, in the event Acts other than this Act are enacted to amend Code Title 91A during the 1981 regular session of the General Assembly, that such Acts and this Act be construed whenever possible to be without conflict. In the event such a construction is not possible, it is the intent of the General Assembly that the Act last approved by the Governor shall prevail to the extent of the conflict.

Section 2. Code Title 91A, known as the Georgia Public Revenue Code, is hereby amended by striking from subsection (o) of Code Section 91A-102, relating to the definition of the term "Internal Revenue Code" for purposes of the Public Revenue Code, wherever the same shall appear, the following:

"1980",

and substituting in lieu thereof the following:

"1981",

so that when so amended subsection (o) of Code Section 91A-102 shall read as follows:

"(o) 'Internal Revenue Code' or 'Internal Revenue Code of 1954' means the United States Internal Revenue Code of 1954 as it existed on January 1, ~~1980~~ 1981. In the event a reference is made in this Title to the Internal Revenue Code as it existed on a specific date prior to January 1, ~~1980~~ 1981, the term shall mean the Internal Revenue Code as it existed on such prior date. Unless otherwise provided in this Title, any term used in this Title shall have the same meaning as when used in a comparable provision or context in the Internal Revenue Code of 1954 in force and effect on January 1, ~~1980~~ 1981."

Section 3. Said Code Title is further amended by striking in its entirety subsection (a) of Code Section 91A-203, relating to eligibility for office of State Revenue Commissioner, which reads as follows:

“(a) Only a person who is, at the time of his appointment, and has been for the immediately preceding 10 years, a bona fide resident of this State shall be eligible for appointment to the office of Commissioner.”

Section 4. Said Code Title is further amended by inserting in paragraph (5) of subsection (b) of Code Section 91A-212, relating to confidentiality requirements, after the word “distributor” and before the symbol “.”, the following:

“or under Code Chapter 91A-51, relating to road tax on motor carriers”,
so that when so amended subsection (b) of Code Section 91A-212 shall read as follows:

“(b) The provisions of this Section shall not:

(1) Be construed to prevent the use of confidential information as evidence before any State or federal court in the event of litigation involving tax liability of any taxpayer.

(2) Be deemed to prevent the publication of statistics so arranged as not to reveal information respecting an individual taxpayer.

(3) Apply in any sense whatsoever to any official finding of the Commissioner with respect to any assessment or any information properly entered upon an assessment roll or other public record.

(4) Affect any information which in the regular course of business is by law made the subject matter of a public document in any federal or State office or in any local office in Georgia.

(5) Apply to information, records, and reports required and obtained under Chapter 91A-50, which requires distributors in motor fuels to make reports of the amount of motor fuel sold and used in each county by the distributor or under Code Chapter 91A-51, relating to road tax on motor carriers.”

Section 5. Said Code Title is further amended by striking in its entirety Code Section 91A-239.1, relating to penalty and interest, and substituting in lieu thereof a new Code Section 91A-239.1 to read as follows:

“91A-239.1. Penalty and interest on failure to file return, pay tax, or pay revenue held in trust for the State. (a) In any instance in which any person willfully fails to file a report, return, or other information required by law, or to pay the Commissioner any revenue held in trust for the State, he shall pay, in the absence of a specific statutory civil penalty for the failure, a penalty of 10 percent of the amount of revenue held in trust and not paid on or before the time prescribed by law, together with interest on the principal amount at the rate specified in Section 91A-239.2 from the date the return or the revenue held in trust should have been remitted until it is paid.

(b) In any instance in which any person willfully fails on or after July 1, 1981, to pay within 90 days of the date when due any ad valorem tax in excess of the sum of \$1,500 owed the State or any local government, he shall pay, in the absence of a specific statutory civil penalty for the failure, a penalty of 10 percent of the amount of tax due and not paid on or before the time prescribed by law, together with interest as specified by law. Any city or county under a statute or constitutional amendment now receiving greater than 10% is authorized to continue to receive that amount.”

Section 6. Said Code Title is further amended by striking from paragraph (2) of subsection (b) of Code Section 91A-240, relating to notice of tax assessments, the following:

“\$250”,

and substituting in lieu thereof the following:

“\$600”,

so that when so amended paragraph (2) of subsection (b) of Code Section 91A-240 shall read as follows:

“(2) If the total amount of the assessment does not exceed ~~\$250~~ \$600, the notice shall be sufficiently served upon the person assessed if it is mailed by first class mail to such person at his address as shown on the records of the Department. Each such

notice shall be mailed in an envelope instructing return thereof in 10 days if not delivered and shall be sufficiently served if it is not returned within the 10 day period."

Section 7. Said Code Title is further amended by inserting in Code Section 91A-241, relating to protests of assessments, between the second and third sentences thereof, the following:

"The filing of a petition for redetermination of a deficiency under this Section or a written request by the taxpayer for additional time for filing of such a petition shall toll the period of limitations for making an assessment until the petition is denied by the Commissioner or the request is withdrawn in writing by the taxpayer.",
so that when so amended Code Section 91A-241 shall read as follows:

"91A-241. Protests; requisites; procedure. Any taxpayer may contest any assessment or license made or determined by the Commissioner by filing with the Commissioner a written protest at any time within 30 days from the date of notice of the assessment or license. All protests shall be prepared in the form and contain such information as the Commissioner shall reasonably require and shall include in any case a summary statement of the grounds upon which the taxpayer relies and his reasons for disputing the finding of the Commissioner. The filing of a written protest, a petition for redetermination of a deficiency, or a written request by the taxpayer for additional time for filing of such a petition shall toll the period of limitations for making an assessment until the petition is denied by the Commissioner or the request is withdrawn in writing by the taxpayer. In the event the taxpayer desires a conference or hearing, the fact of such desire must be set out in the protest. The Commissioner shall grant such a conference before his officers or agents as he may designate, at a time he shall specify, and shall make such reasonable rules governing the conduct of conferences as he may deem proper. The discretion given in this Section to the Commissioner shall be reasonably exercised on all occasions."

Section 8. Said Code Title is further amended by inserting at the end of subsection (c) of Code Section 91A-250, relating to taxes as a personal debt, the following:

"As used in this subsection, the term 'property and rights to property' includes, but is not limited to, any account in or with a financial institution.",
so that when so amended subsection (c) of Code Section 91A-250 shall read as follows:

"(c) In case of neglect or refusal by a taxpayer to pay any taxes due the State, the Commissioner or his authorized representative may levy upon all property and rights to property belonging to the taxpayer, except such as are exempt by law, for the payment of the amount due, together with interest on the sum due, any penalty for nonpayment, and such further amount as shall be sufficient for the fees, costs, and expenses of the levy. As used in this subsection, the term 'property and rights to property' includes, but is not limited to, any account in or with a financial institution."

Section 9. Said Code Title is further amended by striking from subsection (c) of Code Section 91A-420, relating to purchase by counties of property sold under tax executions, the following:

"time the governing authority draws its warrants on the county treasurer to pay to the levying officers the cost due on the tax executions and accruing costs in effecting",
and substituting in lieu thereof the following:
"date of",

so that when so amended subsection (c) of Code Section 91A-420 shall read as follows:

"(c) The 12 months' redemption period allowed under the provisions of this Chapter for the redemption of realty sold under tax executions shall begin to run from the time ~~the governing authority draws its warrants on the county treasurer to pay to the levying officers the cost due on the tax executions and accruing costs in effecting~~ date of the sale."

Section 10. Said Code Title is further amended by inserting a new subsection immediately following subsection (f) of Code Section 91A-1013, relating to time for making tax returns, to be designated subsection (g) to read as follows:

“(g) In all counties having a population of not less than 13,650 nor more than 14,750, according to the census, the local tax officials shall close their books for the return of taxes on March 1 of each year.”

Provided, that none of the State funds appropriated above may be expended to initiate or commence any new program or project which would create a continuing obligation on the current funds of the State, unless such program or project has been authorized by the General Assembly.

Provided, that where teaching personnel are paid in whole or in part from funds other than State-local funds, the fund source from which such salary is paid shall be the pro rata part of the cost of employer contributions to the Teachers' Retirement System and Teachers' Health Insurance applicable to such salary.

Provided, further, that for kindergarten programs, each system shall be allotted instructional units on the basis of one teacher and one aide for each 40 students or major fraction thereof in average daily attendance, except in the case of mentally, physically or emotionally handicapped children, the ratio shall be one teacher and one aide for 24 students or major fraction thereof in average daily membership.

Provided, that of the above appropriation relative to Kindergarten Transportation, funds shall initially be allotted to local school systems on the basis of one transportation unit (\$10,513) for each 40 students. However, allotments shall not exceed actual cost of midday transportation by the local system.

Provided, however, in order to extend the half-day program to a full-day service in lieu of midday transportation services, local systems may elect to use transportation allotments to employ aides or certificated instructional personnel on a reimbursable basis to the extent that the \$10,513 per unit will allow. Where the transportation allotment is used to employ additional personnel, reimbursable costs shall include salary, retirement and health insurance where eligible.

Provided, that of any State Funds appropriated to local systems for classroom teacher salaries on the basis of Average Daily Attendance in grades 1 through 7, such teachers shall be used in the school where earned and shall be used only for the purpose of funding regular (general education) classroom teachers in grades where earned.

Provided, that of the above appropriation, relative to special education \$30,000 is designated and committed for payment to the Houston County Board of Education for payment to Houston County Speech and Hearing School, and \$30,000 is designated and committed for payment to the Houston County Board of Education for payment to Houston County Happy Hour School.

Provided, further, funds appropriated for Maintenance and Operation, Sick and Personal Leave and Instructional Media, for all Special Education Teachers, payments shall not be made until the allotted teaching unit has been filled.

Furthermore, the Section 5 teaching units so allocated to an eligible local unit shall remain a part of that local unit's allotment until the end of the current school year in which allocated.

It is the intent of this General Assembly that local school systems have the authority to utilize increased maintenance and operation funds contained in this Appropriations Act in such a fashion as to accomplish de facto funding of Section 12 of the Adequate Program for Education in Georgia.

Provided, that of the above appropriation for APEG Grants, it is the intent of this General Assembly that funds are included for allotment of instructional units under Section 10 for grades 1 - 2, at a ratio of 1:20 students in average daily attendance.

Provided, that local school systems, in accordance with State Board policy, may use additional instructional units earned in grades 1 - 2 to employ either certificated or licensed instructional personnel in those grades. Funding for licensed instructional personnel shall include salaries as provided for in APEG Section 10b(2) and Section 15 (M&O).

Provided, that of the above appropriation for \$925,000 for Staff Development, \$92,500 is designated and committed to fund a State level staff development program specifically for Special Education Teachers (Section 5) utilized in programs for intellectually gifted students, and to assist in the development of a State program plan for gifted students by the State Superintendent of Schools.

Provided, that of the above appropriations relative to Sections 5, 7, 10, 20, 21, and 21(c)(2) of APEG for salaries, funds may be moved between said Sections by an amendment to the annual operating budget during the month of June with the prior approval of the Office of Planning and Budget.

Provided, that of the above appropriation for direct instructional services for Compensatory Education, \$12,746,747 is designated and committed for a compensatory education program for identified students in grades 3 through 8 and \$3,491,789 is designated and

committed for identified students in grade 9. Provided, however, where a local system Compensatory Education Plan justifies the need, the State Board of Education may approve usage of the funds for grades 3 through 8 in grades 1 and 2. Compensatory education programs at all grade levels shall be used for remedial purposes only.

Provided, that of the above appropriation relating to Community Mental Health Centers, agency income, excluding federal grants where prohibited, shall be expended first to cover expenses for local programs. Surplus funds at the end of the year shall not exceed 60-day collections. Surplus above this limitation shall revert to the State and local governments on a pro rata basis based on contribution of said governments to the program.

Provided, that of the above appropriation relating to Community Residential Service Benefits, the Department is authorized to increase the maximum monthly payments to service providers from \$300 to \$350 and to supplant State funds with patient collection to reduce the State cost of the program.

Provided, that of the above appropriation relating to Community Mental Health Centers, private gifts and donations, as well as proceeds of local fund raising activities, shall not be required to be budgeted to the Department or to the Office of Planning and Budget.

Provided that the Department is given the flexibility in the Community Residential Services Program to use benefits to contract with private home providers for service or to provide small group living situations or semi-independent living situations for clients; and further provided that these residential services are available to clients residing in the community as well as those returning to their communities from the institution.

Provided that Community Mental Health Centers shall provide services to clients living within the geographic catchment area served by such centers without regard to the length of time such client has resided in such geographic catchment area if such client is otherwise eligible to receive services.

Provided, that of the above appropriation pertaining to state facilities and institutions the Department of Human Resources is authorized to provide stipends to facility and institutional employees for training and education to acquire such skills, knowledge, and academic credentials, and/or degrees as the department determines to be needed; and that such stipend shall only be awarded with the understanding that the employee acknowledges that a legal obligation has been incurred to provide services for a period of time commensurate with the time supported by the stipend.

Provided, that of the above appropriation relating to Supportive Living Benefits, the Department is provided the flexibility to contract with private homeproviders for services in the home and/or to provide small group residences for clients and/or provide respiratory care services for clients and/or other residential services needed to support clients in the communities.

Provided, that of the above appropriation relating to Uniform Alcoholism Projects \$250,000 is designated and committed for projects at Waycross (\$200,000) and Dalton (\$50,000).

Provided, that of the above appropriation relating to Community Residential Services \$85,500 is designated and committed for a group home in the Fort Oglethorpe area.

Provided, however, it is the intent of this General Assembly that no additional Youth Services group homes or community treatment centers be started with Federal Funds without prior approval by the General Assembly of Georgia.

It is the intent of this General Assembly that a Services for the Deaf program may be established at Central State Hospital. The program shall be funded within the limits of Central State Hospital's budget, utilizing no more than 24 positions, patient population permitting.

Provided, further, it is the intent of this General Assembly that the office of Planning and Budget is authorized and directed to amend an additional \$100,000 in agency income if realized, above the amount contemplated in this bill for the purpose of contracting for a comprehensive study of the State Forensic Services needs including physical plant considerations.

It is the intent of this General Assembly that to the extent that gross income from operations exceeds the amount contemplated in this Appropriations Act, such excess may be applied toward the cost of operations and excess cost of authorized planning of new facilities, provided that budget amendments reflecting such proposed applications are provided to the Office of Planning and Budget and the Legislative Budget Office at least two weeks prior to such application of funds.

It is the intent of this General Assembly that the World Congress Center Authority repay, by direct remittance to the State Treasury during the next twenty years, the full amount of Capital Outlay authorized in the Fiscal 1978 appropriations bill, such repayments to begin no later than Fiscal 1980. Provided, further, that such payments in any year shall not exceed the net operating revenues derived from the operation of the parking and truck-marshalling facilities contemplated in such Capital Outlay appropriation.

It is the intent of this General Assembly that to the greatest extent feasible, the Georgia Ports Authority utilize existing surplus funds for payments to bond trustees for unmatured issues.

Provided, however, that of the above appropriation for Conviction Reports, payment for conviction reports is not to exceed \$.25 per conviction report.
