Antoine Laurent Lavoisier, 1743-1794

Antoine Laurent Lavoisier was born in Paris in 1743 and died a victim of the guillotine of the French Revolution in 1794. To Lavoisier we owe the explanation of what takes place during burning. From the true knowledge of combustion we owe the overthrow of the phlogiston theory and the foundation of modern chemistry.

His death was described as "The greatest crime of the French Revolution." So great was Lavoisier's influence that chemistry was at one time defined as "A French science founded by Lavoisier."

From the days of Democritus (400 B.C.), man has had in a vague way the germ of the atomic theory. This was at various times expressed in a crude philosophical way, but it was not until 1800 that Dalton gave to the world the definite quantitative concept we know as the Atomic Theory, certainly one of the pillars in the edifice of science.

Nine-tenth Year Pact Signed By Frats

Signatures have already been affixed to a contract by which it is agreed that the Sigma Nu and Pi K. A. fraternities are to play a football game each year for ninety-nine years, the winner of the majority of games during this period to gain permanent possession of a handsome cup. The cup incidentally will have the name of the winner for each of the years engraved on it.

Furthermore, it is rumored about the campus that the loser each year has agreed to give the winner a dinner, at which quantities of Coca-Cola will be furnished by the losing fraternity.

No date has been set as yet for the game this year, but it will in all probability be sometime around Thanksgiving.

started by Oglethorpe President

Emory's administration refused Wednesday to be drawn into a controversy over the charges made at a meeting Tuesday evening of the Atlanta board of education by Dr. Thornwell Jacobs, president of Oglethorpe university.

Dr. Jacobs accused Emory of being the "apparent progenitor of a college racket to run Oglethorpe by promulgation of a board rule to outlaw Oglethorpe's graduates and turn $20,000 annually into Emory coffers."

Cupid Runs Wild
Among Emory Collegians

Although 1931 is not a leap year, no less than four Emory men forsought the bachelor ranks and took unto themselves better halves. H. P. Miller, assistant dean of men, S. L. Carter, general secretary of the local YMCA, David Stubbs, theology student, and Bob Ware, last year's fullback on the frosh eleven, were the recent benefactors.

The first of these was "Smiling S. L." Carter. S. L. married Miss Eliza David of Danielsville, Ga., on May 31, in Danielsville.

Bob Ware and his bride, Miss Ruby Dorminy also of Fitzgerald, were wed in Jasper, Fla., on July 1.

David Stubbs and Miss Rachel Ward were married in the Emory Theology Chapel on August 27.

Mr. Periss Miller, the only faculty member to marry, and Miss Ruby May Sherard were quietly wed in Columbus, Ohio in the latter part of the summer.

News from North Carolina came to the Emory campus in mid-summer that Bill Daniels, graduate of the class of '31 and member of the Sigma Nu fraternity, was married to Miss Katheryne Oldham of Wendell, N. C. The ceremony was performed at Smithfield, N. C., on March 29, 1930. The announcement was made by the bride's parents, Mr. and Mrs. S. W. Oldham.

Friedrich August Kekule

Kekule was born in Darmstadt in 1829. At the University of Gussin he came under the influence of the great Liebig and decided to study chemistry. Kekule was a daring and brilliant thinker and we owe to him the fundamental assumptions upon which structural organic chemistry rests. He gave us the concepts of carbon joining to carbon to form chains and also that of the benzene ring.

According to his own story, he conceived the structure theory while dozing in his study.
Strachey Church

Strachey Church was founded in 1832.

At the University of Oxford, I was under the influence of the Great Tradition and was influenced to think critically. Here are a number of people, besides the ever-helpful members of the various Companies that co-operatively put out this, the fortieth volume of the Yearbook of Emory University, who are largely responsible for whatever success this publication may be. To Dr. O. R. Quayle, of the Chemistry Department, who so kindly aided in the selection and arrangement of the theme of the book, we owe many sincere thanks. To Dr. T. H. Jack, who was ever helpful with his suggestions and compositions, the
Emory Campus

The Emory Campus Editor is most grateful. The Registrars and Secretaries of the University were most considerate in getting up lists and data, as were the heads of the various schools. To those of the Editorial Staff who at least showed a bit of interest and willingness to succor the Editor in time of need, we offer thanks. Our only hope is that the next Editor will find his Staff more willing to do the few tasks assigned to them than was the outgoing one.

With the annual Atlanta concert given at the Glenn Memorial Church in March, the Emory University Glee Club ended its fifteenth year of service and accomplishment.

The Club made a number of short trips through Georgia and one long tour that took them through Alabama and Southern Georgia. From the various press reports that followed the Club, the members gave such programmes that so characterizes it. Each city in which the Glee Club gave concerts was warm in its praise of the programme and its rendition.

The feature of the year, "Tons of Money," which was presented in the Winter Quarter, marked the end of the sixth year of existence of the Emory Players. The number of students taking an active interest in Dramatics at Emory this year was amazingly increased over previous years. The old members, assisted by a number of newcomers, showed wonderful talent and ability. A charm is given to the student making the club.

Leonardo da Vinci

Leonardo da Vinci, born about 1450 near Florence, is known to the world today as the painter of "The Last Supper" and "Mona Lisa." In his own times he was perhaps equally known for his study in the fields of science. Here he was unfortunately a man far ahead of his time, and much of his thought and endeavor could not reach fruition. His interest in chemistry caused him to experiment widely with paints and pigments and many of his paintings have as a result been lost to the world. This scientific leaning however caused him to be keen enough of observation to see the value of light and shade in his paintings.

Probably no man has ever surpassed Leonardo da Vinci in his ability in the combined fields of art and science.

Henry Mosely, 1887-1915

Mosely was born in 1887 in Weymouth, England. He was the son of a distinguished family of scientists. He graduated at Trinity College, Oxford, with honors in natural science but also did brilliant work in the classics. He became associated with Rutherford and in four short years completed the series of problems which led to his concept of atomic numbers, which we now know is the fundamental system of classification of the elements.

Mosely enlisted in the British army and was killed at Gallipoli in 1915. His loss was one of the greatest catastrophes of the World War.

Millikan has said: "Had the European War no other result than the snuffing out of this young life, that alone would make it one of the most hideous and irreparable crimes in history."
HenryActivated 1887-1912

Born in 1887, HenryActivated was the son of a lawyer and a barrister. He studied at Trinity College, Oxford, with a specialty in the classics. His parents were both brilliant scholars, and he was expected to follow in their footsteps. However, the concept of atomic energy, which was then in its infancy, caught his attention.

Over the years, he became known as the founder of the movement to classify the elements. "Had the Elements been written down in a certain way, and then altered into a system of the Elements, we..." he once said. His work on the structure of the Elements was groundbreaking.

He passed away in 1912, leaving behind a legacy that continues to influence science today.

Football

FOOTBALL at Emory was definitely on the boom during the 1931 season, as was made evident by the fact that approximately 160 men were taking part in the sport. Keener interest was taken in the Emory league than at any time in recent years because of the unusually elastic standings. The championship was not determined until the last game had been played.

All the games were played on the new sodded field, due to the untiring efforts of Cecil Hefner, Manager, and his able Assistants. For the first time at Emory the gridiron was marked with five-yard lines, instead of the usual ten-yard markers. This enabled the officials to keep a more accurate check on the measurements.

The large number of tie games only went to prove the bitterness of each battle, and the evenness of the strength of the teams. The Juniors led the league early in the season, but were finally overhauled by the Seniors and Sophomores. The Freshmen were never a threat after they tied the Sophomores in their first game, but nevertheless the squad never lost their fight and determination.

Credit for the most successful season should be given to the coaches of the various elevens, and to Professor Stipe and "Uncle Bud" McCord for so efficiently handling the officiating.

Max Blumberg was named to manage the 1932 football season.

The Coaches for the various teams were:

AIDED by several nifty stars from the professional schools, the Seniors emerged from the season undefeated, although they were twice tied by the Junior eleven, and once by the Sophomore aggregation.

The Seniors never did "click" like a well-drilled team, but their superior weight and strength enabled them to take their opponents into camp on every occasion. They had a large squad out for every game, and their reserve power enabled them to wear down the opposition.

Max Hall captained the team from a halfback position, and Prof. Peebles coached the team to its second successive championship.

The following Seniors were awarded letters: Scott Hogg, "Red" Gibbs, Roy Sellars, Peaches Boynton, Grover Irvin, "Phi Bete" Cooper, and Gene Griffin.

All-Emory Selections

ROLLIN GIBBS, Center

"Red" won his letter for the second straight year because of his unusual ability as a snapper-back. He has made fewer bad passes in two years than the average center makes in a game.

ALBERT STUBBS, Center

"Stuggs" is perhaps the best defensive center to play at Emory in a number of years. He stood head and shoulders above the entire Soph line in this particular aspect. His ability to snap accurately and take out his adversary was also noteworthy.

MILTON BENNETT, Guard

"Milt" was particularly versed in the art of taking his man out of the play, and opening up holes for the backs. He is a hard fighter and was arsenic to his opponent on every play.

RALPH BOYNTON, Guard

"Peaches" won his letter after playing four years of consistent football. He came into his own this year, and was a constant menace to the opposing backs. His ability to pile up plays headed in his direction was noticeable throughout the season.

STEVE WORTHY, Tackle

Steve is probably the most powerful man engaged in football at Emory, and it was not until this year that he realized his strength. But since he has found himself, he has dealt destruction to the opposing linemen and is often found in the opponents' backfield.

SAM COOPER, Tackle

Although Sam was not up to his last year's form, nevertheless, he performed well enough to be selected on the All-Emory team. His smashing tactics on defense gained him much praise throughout the year.

TOM LAW, Fullback

Tom is without a doubt the hardest charging back in school. This together with his speed and shiftiness, branded him as a constant threat. He was good in backing up his line, and was the surest blocker in the Junior backfield.
All-Emory Selections

Grover Irwin, Tackle

After making his letter in his Freshman year, "Gruger" finished his career by earning it again, because of his fine defensive play. He was a bulwark in the Senior line, and disappointed many an ambitious ball carrier.

LeRoy Watson, End

LeRoy is a very steady and orthodox end, and the opposing quarterback soon learned that plays would not "click" around his end. He also is a dependable blocker, and covers punts well.

Gene Griffin, End

Because of his devastating blocking and brilliant defensive play, Gene won his letter for the third straight year. He is small but powerful, and unusually hard to get off his feet. Despite his stocky build, he was adept at receiving passes.

Bruce Logue, Quarterback

Although Bruce was the smallest upperclassman engaged in football, he was an excellent blocker and passer. Above all, he ran his team with the precision that was unequalled by any other outfit, and is largely responsible for the success of the Sophs.

Pollard Turman, Halfback

"Booshie" was undoubtedly the most versatile back in the Emory Conference. He can pass, punt, and run equally as well as any back in school. As a broken field runner, he has no equal, and when his line opened up a big gain was the result.

Scott Hogg, Halfback

The off-tackle cut-back play has made Scott famous, and has won for him his second football letter. He is also an excellent blocker, taking out his man regularly.

Roy Sellars, Fullback

Roy has developed from a powerful line charger to a shifty and skillful broken field runner. He is one of the best defensive backs in school, closing up any gap made in his line.
Junior Football Team

"The MOST unfortunate team on the campus," is the name attached to the Junior aggregation. Beginning the season with practically an all-star team, they were hampered by injuries and bad breaks throughout the entire season. However, the champion Seniors were played to a standstill on two occasions by these fighting third-year men, and were forced to accept ties both times.

Coach Jim Lester spent his third season with this team, and gave his all to produce a winning outfit, but the team did not quite measure up to championship standards.

Milton Bennett captained the Juniors, and gave an excellent account of himself from a guard position.

Three Juniors were selected on the All-Emory: Milt Bennett, Steve Worthy, and Tom Law.

Sophomore Football Team

The Sophomores were perhaps the smoothest working football team on the campus, but were handicapped by the lack of power. Their plays were well selected and perfectly executed by the shiftiest backfield in the Emory Conference.

No captain was elected, but Bruce Logue acted in this capacity more than did anyone else. Harvey Hill coached this aggregation, and deserves the majority of the credit for their success.

For the second straight year the Sophs were defeated in the final game for the championship. Their greatest playing of the year was done in their last encounter against the Juniors when they defeated the larger rivals decisively.

Booshie Turman, Albert Stubbs, LeRoy Watson, and Bruce Logue were selected on the All-Emory team.

Freshman Football Team

The Class of 1935 never succeeded in winning a game, and tied but one, but they will be remembered as one of the gamest football teams in Emory football history. They were handicapped by the lack of weight and experience, but made up for this shortcoming with grit.

The Coaches, Ellisor and Greene, worked diligently with their men, and deserve credit for their hard work with a minimum of material.

Shorty Everitt, 120 pounds of dynamite, captained the Frosh and showed considerable ability as a ball carrier.

Numerals were awarded to: Everitt, Land, Morrison, Sessions, Heidler, Kingdon, Lipe, Slackman, Davis, Trussell, Matthews, Duncan, Tilford, Bryant, McKay, and Jones.

Basket-Ball

The 1932 interclass basket-ball teams were more evenly matched than ever before, and closely contested games were very numerous. Each team played fourteen games, and the cellar dwellers upset the first division squads on many occasions. However, it was soon evident that the Seniors were the class of the field, and they waded through the opposition with only two losses chalked up against them.

The Athletic Department secured "Shorty" Doyle, one of the leading cage officials of the city, to referee the games, and for the first time, the teams were forced to play clean basket-ball.

The eight men making letters in basket-ball were: J. L. Heard, Seniors; Morgan Cantey, Lawyers, and Bert Blair, Juniors; Centers, Allen McGhee, Sophs, and John Austin, Seniors; Guards, Sam Cooper, Seniors; Harry Lange, Meds, and Henry Bowden, Lawyers.

The Frosh making numerals were: Nunn, Dover, Munday, and Sammons, guards; Page, White, and Shannon, forwards, and McKay, center.

For the fourth consecutive year the Chi Phis won the Interfraternity Tournament. They won over the A. T. O.'s in the finals.

The Celtic Outlaw team took the Independent title for the second straight year by virtue of a decisive win over the Black Cats.

*Championship Senior Team*
The Seniors won their second championship of the year (having previously won the football title), and in doing so proved themselves worthy winners. The sharpshooting of Heard and John Austin, the great floor work of "Legs" Wilson, and the close guarding of Zion, Cooper, and Griffin was too much for the opposition. Prof. J. G. Lester coached the champs and was a big factor in their success.

Juniors—These third-year men at the halfway mark were in second place, but due to injuries to their stellar guards, Neal and Laird, they finished in fifth place. The work of Bair and Stephens at forwards and that of Bridges at center was outstanding. "Rebel" Bell, the baseball wizard, coached the Juniors.

Sophomores—Improving rapidly as the season advanced, the Sophs finished fast and ended in a tie for second place. This aggregation exhibited teamwork unapproached by any other quintet in the league, and this went far toward the success of the team. Logue, Swift, and Tucker at forwards, McGhee at center, and Brown, Klein, and Linn at guards, formed this all-star squad. LeRoy Watson coached the "ebony blizzard."
Freshmen—Much contrary to tradition, the Rats displayed one of the fastest teams in the loop, finishing second to the speedy Seniors. In Frank Nunn the rodents had one of the niftiest guards seen on the campus in many a moon. Page, Sammons, McKay, Munford, White, and Dover aided in the fine showing of the Frosh.

Lawyers—The highlights of the season for the barristers were their walloping of the Seniors and the Meds. Bowden and Cantey were the stars for the sons of L. Q. C. Lamar.

Meds—As usual, the Meds were serious contenders for the rag. Their greatest achievement was the lacing they gave to the Seniors. Lange, Logan, and Pocotte were the mainstays of the machine.

Grads—Here was an erratic team, oftentimes falling into mediocrity, only to rise to the heights in their next battle. Their victory over the Lawyers was the prize of the year. Green, Steadman, and Smith were the cogs of attack.

Theologs—Running true to old form, the Preachers garnered only two wins for the season, but did nice work in trimming the Sophs in the last round. Ed Harris, Harry Wood, and Joe Byrd contributed not a few points for the scion of Candler.
Baseball

Floyd Stephens, ably assisted by John Stephens, Brooks, Brown, and a number of Freshmen assistants, conducted the 1932 baseball season in a most orderly and systematic manner. Their work in keeping the playing field in good order and observing an accurate check on equipment and all statistics was noteworthy.

The new athletic field was utilized for baseball this year, making it possible for each team to practice daily and for two games to be played at one time.

At the time this writing goes to press, the Thelogs, Meds, and Juniors, last year’s champs, were in the thick of the fight for the rag. The Theologs, with Joe Byrd on the mound, seem to be the most formidable looking crew on the field. Although the Juniors are suffering from the loss of Landers and McLennan, mound aces, they pack plenty of power at the bat. The Med outfit is an all-star team, and bid fair to give the Juniors and Preachers a run for their money.

Theologs—Joe Byrd, fast-ball artist; Jerry Bird, and Harry Wood were the bulwarks in the Parsons’ line-up. The team possessed a number of clouters, and caused the local hurlers many a sleepless night.

Meds—Led by Lange, Sanford, Robinson, and Bowen, the Doctors had an aggregation that had all the requirements of an all around ball club.

Juniors—Hampered by injuries and losses the Junior clan put up a neat race for the championship. Bennett, Laird, Marshall, and Blair were the mainstays of the outfit. For the second year, “Rebel” Bell piloted the team.

Seniors—Coached by “Goosey” Gosnell, the fourth-year men were one of the smoothest clubs in the league. Wilson, Smith, Tucker, and Hall did nice work for this squad.
Laiv-Grad—In Jimmy Green the Law-Grad combine had one of the best twirlers in the loop. McMillan, Bowden, Howard, and Brown were the luminaries abat and afield for the Lamarites.

Sophomores—Owing to their inability to hit, the Sophs were never able to hit the pace set by their hard-hitting upperclassmen. Linn, Hunter, Swift, Wilder, and Laird were the class of this outfit.

Freshmen—Lack of experience and poor pitching were the factors that kept the rodents from being the ball club they might have been. Dover and Shannon led the field at bat, while Clements and Moran were the stars on the infield.

Tennis

More interest was manifested in tennis during the 1932 season than ever before, and Emory was represented by a brilliant array of netmen. The Emory racquetees took the first two matches handily, winning from Florida 7-0, and from Davidson 6-3. Although these were the only matches played at the time of this writing, it would be safe to predict an undefeated season for the racquet wielders. Alabama, Vanderbilt, and Mississippi A. and M. were included in the most difficult schedule ever attempted by an Emory team.

Jack Boykin, twice Georgia State Intercollegiate champion, was the most outstanding player, and was awarded the number one position. S. R. Bridges, captain of the team; Nick Polites, former Florida star; Fincher McDaniel, Gene Griffin, Pierre Howard, John Mullin, and Ed Jones were all consistent performers and were largely responsible for the remarkable success of the team.

Golf

The Emory golf team sported an array of iron and wood wielders who were able to give their opponents trouble, and won all of their matches with the exception of one. They began the season by overwhelming Furman and Davidson by large scores. Tech won a hard-fought battle from the Emory golfers for the only defeat of the year. The last match of the year resulted in a victory over the South Carolina "Gamecocks."

Bobby Chambers captained the team and played in the number one position, shooting consistently around par during the entire season. Albert Stubbs, Harvey Hill, and Joe Horacek made up the team, with S. R. Bridges as alternate.

Bond Fleming served as manager for the second consecutive year.

The S. A. E.'s copped the Interfraternity tournament.

Swimming

The 1932 swimming team had four meets during the year and scored well in every encounter. Their outstanding victory of the year was over the Atlanta "Y", whom they defeated by the score of 41-31. The other teams on the schedule were Knoxville "Y", Georgia Tech, and the University of Georgia and Tech in the annual State Meet.

Art Merrill, coach and breast-stoke star, was high point man for the season, and succeeded in breaking the Southern Conference 100-yard breast-stroke record twice. Levering Neely, Sophomore, broke the Southern Conference 200-yard breast-stroke record and placed second in points.

Sam Belcher, dash man and diver; Alan Davis, distance man; John Thompson, back-stroker; R. C. Davis, 100-yard free-styler; Brad McFadden, dash man; Ben Sheppard, distance swimmer, were the other men who acquired enough points to win their letters.
Freshman Athletics

CONTINUING the plan of compulsory athletics for all physically fit Freshmen, this year evidenced more interest on the part of the first-year men than during the previous season. Under a new set of competent coaches, the Freshmen gave a much better account of themselves than they did last year. With the exception of a rather mediocre football team, the Freshmen are proving themselves worthy opponents for the more experienced upperclassmen. They finished in a three-way tie for second place in basket-ball, and are displaying a neat array of talent on the baseball diamond.

Tennis proved the most popular sport for the Freshmen and a number of good varsity products can be seen in the Frosh ranks. A Freshman singles and double tournament was held for them. Tom Edwards was the winner of the singles tourney, and Edwards and Frank Morrison, paired in the doubles, seem likely winners.

A LARGE number of boxing and wrestling matches were held at the basket-ball court this year and the crowd was always impressed with the manner in which the men performed.

The Interfraternity boxing tournament was won by the Sigma Chis, and the All-Campus Tourney brought out some outstanding pugilists. Scott Hogg, Jim McCoy, and Ed Smith won their "E" in boxing, and Melvin Boockholdt and Bill Mackay were awarded numerals.

The S. A. E.'s won the Interfraternity grapplers' tournament by defeating the Chi Phis in the finals.

At the present writing the All-Campus tournament has not been completed but the following look to be contenders for letters: Crane, Justice, J. Stephens, McKinney, Hamby, Swift, B. Jones, Belcher, Whitten, Bridges, Greenberg, M. Mitchell, Blinov, Grove, and Thompson.

Dmitri Mendelejijf was born in Tobolsk, Siberia, in 1834, the last of a family variously stated as fourteen to seventeen. He was a natural philosopher in the widest sense of the word as is shown by the fact that he puzzled over the lack of order or plan in the chemical elements in his day. From his speculations he evolved the Periodic Law of the elements which brought reason and order to the natural elements. Not only did this law give system to the known elements but it accurately predicted the nature of the elements yet undiscovered. Almost simultaneously with Mendelejijf the same law was discovered by Lothar Meyer.

In loving remembrance of Thomas Teetotler Purdom who passed from this life and all its hub-bub on the eleventh day of March in the year 1932 of your Aunt Minnie and was resurrected the twenty-third day of March. He met his demise at the hands of an unknown assailant in the library building. Rumor has it that an Indian squaw killed him with a hatchet because she loved him.

Cheap Politicians

FOUNDED: In Atlanta.     NUMBER OF CHAPTERS: One for Every Horse.
COLORS: Bright Red and Brighter Brass.   SONG: Marching Through Georgia.

We have gone back exclusive this year because we couldn't pledge but a dozen boys. And Madame Mitchell has graduated although she still hangs around the back rooms. Every twenty-eight days she has a tea party for the elite, and we have just lots of elite persons in the lodge.

We simply own the Glee Club and the basket-ball court and we would be boxing champs if Sweet Little Dan Lott's mama hadn't made him quit being an old rufy-tufy. (Personally, we and every one else on the campus wishes some one would bat his precious face in.)

One thing we can't understand is why the campus still calls us "those Damn Chi Phis."

Mother Hyde looks after us, but when she went away Christmas we threw away some of our repressions that we have had since the reign of Prince Thrasher. Jack Peebles was a regular feller, in fact he fell back down every time he got up. We are still nice boys in spite of Johnny Mullin and his city ways.

Nag keeps us going up and up on the social register, never missing a tea-dance at Margaret's, and Bob has half interest in Wesleyan (but it seems that Wesleyan has half interest in the Chi Phi house—week-end visitors, you know). And we pledged a Quillian . . . we pledged a Quillian . . . (in chorus).

FOUNDED: At Rising Fall High School.     NUMBER OF CHAPTERS: In Every Hamlet Below the Mason-Dixon Line.
COLORS: Confederate Blue.

The women and God, not unmixed blessings with spots of pleasure out of Tweet Wynn's trunk, still reign supreme at the old Candler plantation. Yes, Suh!

J. B. and Sweet William Waldo furnish the women, while Rosser does the preaching. He has really reformed, and would reform everybody else if he had the money.

Bob Candler smooths our way through the high sassiety, and he is contributing much prestige in that he is a pledge of D. V. S., at least he thinks he is. Will Camp owns this publication, and with the proceeds from its sale we are going to build a garage and a new sanitary tank. We are just as good as the Sigma Chis every day in the week except Saturday night.

Hay and Ricks, just hayrick to the common people, go home every week-end and that helps matters a lot.

We had to pledge another Candler this year, Dammit.
PHI DELTA THETA
Public Drunks Trained

Founded: By Double Distilling. Colors: Charred.
Number of Chapters: Gaining on Kappa Sigma.

Song: Where the Tall Corn Flows.

Our most weighty ball and chain, in the person of Bill Chadwick, is gone this year, but hard luck seems to be our lot. Who should return from the grave, the watery, wet, old grave but Monsour Coffman? The Monsour with all his French ways is just another skeleton in the Theta closet. We managed to get rid of the Thrice Mighty and his home brew outfit during the fire (yes, we did have a nice fire. Any one in the chapter can tell you all about it 'n everything). Billy Hunter graduated by common consent, Wink Burnley has been quietly put in jail by his 16,892 creditors, and Mouth Dobbs immersed himself in Law School—then up jumped the Monsour for another year. Why couldn't he and Carlos married and both gone to Bordeaux?

We still have a lot of strapping fellows like Wheeler and Carithers, and a lot of big shots like Slick and Hinkey. So why worry?

We could keep on having soirees with the S. A. E. buds, but West has left and Goddard doesn't take so well.

ALPHA TAU OMEGA
Absolutely Too Onery

Slogan: Court 'er Boys We Need a Marble House.

Although the Owls done us dirty, we still have plenty of big shots in the lodge. Haven't we got plenty Quillians? That is, all except one and he wasn't so hot anyway.

Beautiful McGehee with his medals and chin, and some of the other boys helped us pledge seventeen nice boys and one darned good French horn player. And we get a salary from the University for our rushing—Bob Whittaker, you know.

We bopped the A. E. Pis just like that when we pledged a Klein.

In politics we are still on the roll, having taken Dave's and Mose's offer without any hesitation whatever. Jonny Connell, in his more uplifted moments, is our pride and joy.

We have rolled the Chi Phis when it comes to being snooty, and nobody seems to know why. We are just that way and do nothing to help it. Maybe Pruny taught us to be that way. We don't love the Quillian family like we used to do, either.

SIGMA ALPHA EPSILON
Some Asses Everywhere

Founded: At Bordeaux University. Colors: Baby Blue and Lavender.

Song: Ring Around the Rosy. Number of Chapters: Now Quit!

We have one of the nicest bunch of boys and girls you ever saw. The feminine touch furnished by Lucian, Carlos, Tom and Joe added to the virility of people like Rustle Bridges gives us that all-around feeling.

Stubbs (the Y man) is head of the chapter and McMahon is the Chaplain. These two powers for right have made Jessie mend her ways, ejected Monsour Coffman, and
prohibited passing out in the dining room or casting bread on the troubled waters of the kitchen sink.

We bopped the Chi Phis eight times this year, but we didn't get much at that.

Ben Comer and Duke Riley will bring us lasting fame if they don't be more careful, and Holloway still insists on bringing his loose characters around the house despite the reforming influences.

S. R., Monk and Chilly are our up and coming men and will someday fill the shoes of Strozier and Ajax, and then we will have somebody to worship, Oh, goody.

DELTA TAU DELTA

Down to Dirt

FOUNDED: By Finklestein at Jerusalem.  
Number of Chapters: 19,222.

SONG: On the Banks of the Savannah.  
SLOGAN: Tea-Dance or Bust.

We still have a fraternity in spite of all the vague rumors to the contrary. Having bid Purdom, Spann, Jones and Price in the outhouse, our other two brothers, including a transfer from Duke, went out and pledged the first twenty-five wets that got off the train. We would have pledged some more but we ran out of buttons and street car tickets. We lost three pledges later, because we had used buttons that looked like traveling salesmen's trade pins.

The faculty social committee has barred the path of social success to us this year. Horacek, our real Greek, would have sponsored another of those famous Delta house parties had it not been for that mean old committee.

We are going to elect Miss Jemison an honorary member in the near future. She did us a real favor re Tom Purdom.

Our marble mansion is still being considered, especially since Col. Tate reduced the price of marble. We are not going to use the silo idea, but we have decided to install several stalls for our goats . . . you know, the twenty-one goats, not counting the one that got disgusted with the library in March. And as you all know Price is a shagging fool, well just a plain fool then.

SIGMA NU

ShooTa Nickel

FOUNDED: By the Ivory Hunters of South Africa.  
Number of Chapters: We Got Plenty X'ae&Sx'ae Chapters.

Colors: Both Black and White.

Father Max Hall is about all we have left. Of course, Morgan Sutton will probably get the faculty to let him back, and he will keep on trying to install us a chapter at Morris Brown.

Hang Mouth Ashley is bringing us fame and honor in campus affairs. He is another Max Hall, say some, and Max inherits the Ray Nixon tradition. All of which is insulting to the better element such as Penny and Nardin. The two boys still make it a point to drink Norcohol, and wear black glasses. They ought to know better too. That's what got Weldon Henly.

Our new living place is such a nice place; it has fountains that spurt Bromo-Seltzer and other nice things.

We pledged some assorted Freshmen like the Page boy and the xylophone player. Laugh and the world laughs at you is our pledging slogan.
What is a University?

ALLING a group of buildings a University doesn't make it a University.

A University must have money, men, ideals, and standards. Money for buildings, equipment, and operating expenses. Scholarly men — men whose love of learning is animated by an even greater love of God and man — for a faculty. Ideals of character and conduct which tend to develop the best in each individual student. Standards of training which insure that its students will receive what a University purports to give: instruction of the quality accepted and approved by the highest accrediting agencies.

In addition, a real University must have research facilities through which its scholars may strive to extend the boundaries of human knowledge; it must also provide extension courses through which any earnest man or woman may obtain the advantages of University training by correspondence or by afternoon and evening study.

To be a University in every sense of this definition is Emory University’s purpose.

We don’t know what to do about Gene Nardin. He just will milk the Theolog’s cows up in Hell’s Half Acre. And when he does it he always tears his Tux leg or sumpin. But we are a fine bunch, with the exception of Commander Hutch and Jim Harris.

PI KAPPA PHI
Phew! Kinda Putrid

FOUNDED: A Couple of Years Ago In Timbuktu.

NUMBER OF CHAPTERS: One for Every Gootledge.

Somebody suggested that we be abolished . . . the very idea. It’s foolish to even think of such things when we remain such a great influence for good. We run the “Y” and all sorts of little things like that.

Then, too, we turn out lots and lots of good fellows like Tom Wesley and Rudy Roemer. Since the departure of Dave Brown with all his aesthetic ideas we have managed to keep nice girls out of the house. Also Steve Worthy is not half as bad as his brother, Ed.

Although we have had the thing put to us in politics, and will therefore never get another campus honor, we are putting our faith on the broad shoulders of Goot and Wilbanks. They’ll manage somehow.

We pledged Goot, thinking that he really did make money in the Co-Op, but it turned out that he wastes it on women, poker and short pants. It’s tough to have such a break after all the sacrifices we’ve made. That’s about all about us, anyway.

FOUNDED: In Hell’s Whole Acre.

NUMBER OF CHAPTERS: We’re Trying To Get More.

PUBLICATION: The American Swigger.

We are now the undisputed masters of Hell’s Half and we have priority rights on Lucy since her husband left her.

The married men in our chapter give us stability, Pud furnishes Y. M. C. A. influences, Belcher maintains the old tradition, and Ed Stephens helps us along socially with all the pinks.

Since Chief Mason resigned we haven’t had to contend with the Sheriff over such little items as rubber checks, etc., and we are now running on a paying basis: pay as you enter, please; three dollars a throw.

We are all ajitter over Lander’s leaving ‘cause we will never win another cup, unless it is a stein. We are most congenial breakfast hosts on the campus, but keep that under your shirts, please. All the boys had a real nice time at the dances, at least, those that could remember had a good time. We’ll get along ‘cause haven’t we got Brown and Purity coming up?

thing from Scott Hogg to Bond Fleming: the high life to the low life. Judson Strickland defies classification.

We have after all these years secured that juicy plum, The Phoenix, for Bill Rawlings and his lusting. Gardner was hanging around until the humane society decided to parole him. We will miss his shining light, but the Deltas have taught us how to work the Houdini and get our god back.

Gatey Workman, a man of divers parts, is still on the campus, and although he doesn’t help us win cups like Foggy Fitts did, he certainly keeps people from forgetting that we are here.

We pulled through with the boxing cup, and we are going to fill that trophy case that Father Boykin bought us if we have to buy the cups ourselves. We did buy one or two. They help a lot when times get hard and Brother Coley passes out in the bathroom.

Our sewer runneth over and Emory Bell teacheth us to lie down in green pastures. Ain’t the new thirty-six car garage a beaut? It runs seven gallons a day.

It looks like the Barnett boys are getting wise and are about to leave, and then who will do our rushing for us, ‘cause the rest of the brothers are stowed away in the said garage.

Shortdog’s Punks

FOUNDED: During the Johnstown Flood.
NUMBER OF CHAPTERS: Why Bring That Up?
PUBLICATION: The Atlanta Life.

We may be just a bunch of working boys, but we have the power in the faculty. There is good old Print Miller and George (The Robber) Mew, not to mention several others of equal disrepute. Just you wait about three more years until Brother Mew gets control of the sewerage disposal of Fulton County and the home brew industry of the campus and we’ll hock our hovel on Oxford and move into the treasurer’s office.

Since Shortdog went back to plowing we have had a hard time doing any stewing in politics. However, we still run Few in spite of Willie Spann and his army of Freshmen.

Carmichael goes out a lot these days and he always has a nice bedtime story for all the boys. John Rooney is trying to get us into society, but we know our limitations better than he does.

No other Jewish lodge on the campus can compete with us. Goldwasser will graduate this year, removing a handicap of long standing. Then we will step out and build a swell house, bigger than the Standard Club. Our fire insurance is all paid up too.

We pledged some smart Ikes this year and won the scholarship cup again. Even old Leslie can’t figure us out of that, but Hankswasser, the Chi Phi Yid, talked us out of a good horse slipper match.

We own Alpha Epsilon Upsilon lock, stock and barrel. They do have a barrel, although Prentiss doesn’t know it.

FOUNDED: By the I. W. W. NUMBER OF CHAPTERS: More Than We Deserve.
SONG: There's Power in Other Lands Than This.

Something ought to be done about fire departments. We tried to have another fire insurance fiesta and the fire department, co-operating with the Sigma Pi garden hose, turned it into a fiasco thereby extinguishing all our hopes for a new house this year, next year, or any year. Maybe some day the Glens will come to our rescue again. We have hopes.

We have decided to pursue a policy of utmost conservatism and exclusiveness. Therefore, we pledged only one Freshman this year. He is a good boy and has achieved the only honor the chapter has had since George Rogers grew his mustache. He is president of the Chess Club, and they have meetings down here every now and then.

Our house is always kept clean since LeMasters stole the broom from the A. F. D. We were cleared in the investigation conducted by Pan-Hellenic, however.

Osgood has a housemother that he brings out occasionally.

Leave Council Alone

FOUNDED: In Sears-Roebuck Bargain Basement.
NUMBER OF CHAPTERS: Not So Many But Will Take Any Offer.
COLOR: Yellow.

We believe that we have the most versatile fraternity on the campus. We also have a cup. We are not a local, nor has our charter been jerked. Although we are reluctant to announce it, we have "some" and not "a" pledges. These are the facts plainly stated.

Our rating is very high, especially since we moved out of the old Chi Phi hovel.

Our versatility may be accounted to our ability to go local overnight, fool Uncle Bud, defeat the Independents in the hare and hounds and then go national again. Results: a trophy cup.

We are not followers of the rabble, and we have ideas of our own. Hence we have remained aloof from the vulgar politics and snobbery of Pan-Hellenic. We refuse to be corrupted. And we are national, goody-goody! We are national although the high councils won't admit it. They are jealous.

And good old Vines Collier is still with us, German haircut and all.

Dooley’s Diary—Continued

May 6—Irumas Club stages last minute brawl. Dr. J. Sam (don’t drink out of the beaker) Guy gives out prizes. Grantham wins the terbaccy, and is seen later in corner giving Dr. Jack his cut in.

May 7—Delta Tau Deltas go to warm Springs on their annual retreat. Campus has rest. Vogel finally makes Phi Bete. Hogg gives up.

May 8—Dr. M. H. "Mother Hooey" Dewey writes from Yurrop. His letter is a jumbled mass of cornices, fugues, columns, facades, etc., that only a Glee Club soloist could understand. Campus griped.

May 9—Delta Tau Delta "cavalry" returns from Warm Springs deputation. Campus is reminded that horses do not help the paths.

May 11—K. A.’s and A. T. O.’s continue the dynasty in the business managers positions as Connell, Thrower, and Leonard are named. Campus don’t like it worth a damn, and neither do they like the men, so one dislike sets off another and they let it go at that.

May 12—Leroy Watson, only candidate, is awarded A. K. Psi medal mid galaxy of Sigma Nus, and one more.

May 14—Tidmore announces that annual will be off the press by May 26. Very few knew till that time that he also was a liar. Glausier and Candler are announced as beauties for the annual. Campus greatly surprised. Editor is not.

May 15—"Jimmy-Jaw" Jemison, student nightmare, leaves for New Orleans. Students start going to library to study. "Buffalo" Jones named head of Student Lecture association. McLean shines up tuxedo again in hopes there will be a banquet.

May 17—Miss Margaret (now-you-hush) Jemison, glaring glibarian, returns. Students no longer study in library.

May 18—Campus afflicted with another letter from Dr. (You-See-What-I-Mean) Dewey. This time from Pitti Palace. Campus pities Dewey.

May 20—May changes name of Y. M. C. A. Cabinet to Y. M. C. A. Congress and picks thirty-one congressmen. Judge Dorsey speaks to Political Science Club. Jim and Hugh make A’s under Goosie.

May 22—University decides to award more degrees than they ever have in the past. Lambright may get one, and Cooper has hopes.

May 23—Mayor Key tells Wheel reporter that Dr. Cox is just a "mule," but Wheel is afraid to publish it. George Williams is cursed into the Presidency of the Law Student body.

May 24—"Baby Face" Nixon announces that David Marsh will speak at graduation exercises. Students prefer Will Rogers.

May 26—Students stand comprehensives. Phi Betes pass. All the rest flunk. Graduation lists revised. Lambright does better on second go-round. Tidmore still worried.

May 27—Annual Bat pajama dance is officially called off, but turns out to be a great "unofficial" prance.

May 29—"Bunco" Mew grafts more money out of Seniors for caps and gowns. Students wonder why University didn’t start some kind of an economy plan there. Maybe the faculty committee should ask for report from treasurer’s office to see whether or not it should continue to exist on campus.

June 1—Summer arrives officially. Annual goes to press. And with this Dooley sobered up and gets too damned serious to be of any benefit to students so he quits wishing for the entire student body a glorious fourth of July and a tight box.

"Do you see the pretty mans?"
"Yes, I see the pretty mans. What is the pretty mans' name?"
"The pretty mans' name is King David."
"I think David is such a pretty name, and what is he king of?"
"The pretty mans is king of Emory."
"Does the pretty mans rule the whole of Emory?"
"No, he does not rule the whole school but he rules the political destinies of the university."
"Who does this take in?"
"Why it includes six fraternities, the Delta Tau Deltas, and all the nons."
"Does he rule it all by himself?"
"Again no. He is the real ruler, but of course he has his henchmen."
"And who are his henchmen, mama dear."
"Why, my child, your ignorance is astounding. Anybody should know that! They are 'Pussle' Brown, 'Disease' Perdue, and 'Irish' Wachtel."
"Tell me, why does he want all these awful persons around him?"
"To carry out his orders and wash his feet, of course."
"My Gawd, what a combination, but mama will the pretty mans bite me?"
"Why no, my offspring, he is as harmless as he looks, but if you take cold easily do not be around when he blows his royal nose."
"What will the pretty mans be when he grows up?"
"Why, my child, again your utter lack of knowledge is refreshing. He is going to be janitor of the courthouse when 'Sweet Mose' Harvey is keeper of the pound. You know 'Sweet Mose' gave the pretty mans his start at Emory. And if your little head can hold a secret, I'll tell you why the pretty mans got riled up and busted up the Democratic Party. My Aunt Mamie told me that 'Sweet Mose' said it was because he did not make D. V. S."
In the production of fine books, or for that matter, fine printing of any sort there must be an adequacy of understanding and experience to plan and interpret. Of workers who have mastered their crafts. Of materials of the best quality. And of modern equipment and exact skill in its direction. « « «

It looked extremely dark for the Emory boys that year
No dances they had at all and spring was near.
The faculty though it tried hard to make the functions click
Had failed because depression made the whole darn nation sick.
From the lodges full of "brothers" there came a muffled roar
It sounded like that storm that once hit our Miami shore,
We want to trip, we want to tread, they chortled all together,
"No, never," said the faculty, "No, never, never, never."
So Sigma Chi and S. A. E. sought help from him on high,
They talked it over with good Phi Delt and Connally Chi Phi.
Then Allen came, and said, "My Greeks, buck up, stick out your chest,
I've signed up Ozzie Nelson, and they say that he's the best."
So from the gladdened brothers went up a joyous yell,
It hit against the Law School and rattled in the dell.
Then rumblings of dances soon rang throughout the schools
For Allen, Mogul Allen, was working with his tools.
The dances came, the functions went, we tripped a light fantastic,
Then the administration took some action, oh so drastic.

Oh somewhere on this campus green, the students flee and flit
And somewhere students study, while others only sit
And somewhere students yodel, and somewhere students pout
But Sigma Chi was mourning, Mogul Allen was thrown out—
