THE EDITORS OF THE CAMPUS DEDICATE THIS 31st VOLUME TO THE SPIRIT OF RESEARCH WHICH
“... o'er the earth extends
Its all-subduing energies;
and wields
The sceptre of a vast dominion there.”

---P. B. Shelly
To satisfy the varied tastes of a campus group is an impossible task. We can hope for the enthusiastic acceptance from only a portion of our readers.

Bearing this thought, we present this book as a record of the present which shall become with advancing years a souvenir of the past.

The theme is research, the medium is modern art. The verdict is yours.

EMORY'S ATHLETICS

Recognized all over the country as having one of the most distinctive systems of athletics, Emory University has made more advances with the system within the past two years than in any similar period in the history of the institution.

The principal factor in the increased interest in athletics has been the untiring efforts of Coach Jeff D. McCord, who last year was named as Emory's first full-time director of athletics.

Since Coach McCord was added to the University faculty we added to our equipment a new athletic field, have covered our swimming pool, built and conditioned additional tennis and handball courts, and have added extensively to the equipment used in the lesser sports.

Emory's position in athletics is distinctive and it is the desire of every Emory man that it remain so. The system followed is not one of strict intramural competition but is rather one of part participation in both the intercollegiate and intramural systems. Tennis, swimming, and golf are the intercollegiate sports while all the others are purely intramural. All intercollegiate competition is played on the Emory campus, and this year out of nine matches with other schools in tennis, the Emory net men lost but one. Then, too, in golf, out of the six competitive matches, the Blue and Gold linksmen dropped three matches and won three, which is a very successful year for our intercollegiate teams.

Emory and Emory men are proud of their system of athletics and believe that through it they will learn how to keep their bodies in shape, as well as learn how to do well some form of sport which they can carry over from college into later life. And it is to this system that this section of the 1933 Campus is dedicated.

FOOTBALL

THE 1933 season of football at Emory was one of upsets. The freshmen defeated the Sophs twice, which is more than a phenomena. More than 150 men took part in the sport, and the season was one of one-sided scores. When the teams won, they won by a large score, and when they lost, they usually failed to score at all.

The championship was not decided. The Junior and Senior teams both had only one defeat each, and no play-off was arranged. If there was an edge of superiority, its goes to the last year winners, the Seniors.

Some of the games could not be played on the new field on account of the extremely wet season, but due to the efforts of "Uncle Bud" McCord, who put in a new draining system, the gridiron was soon in playing shape.

Thanks must go also to "Graveyard" Stipe for his unstinted work as an official.

The coaches for the various teams were:

ALL-EMORY SELECTIONS

Tom Law, Back

Tom enjoys with Booshie Turman the distinction of being the hardest man in school to tackle. This has been proven to even a greater extent this year. His line plunges were touchdown bound.

Sam Belcher, End

Sam covered his end position well. His offensive play won him his letter, as he usually led his team back around his end to a long gain.

Leon Shalloway, Guard

The paradox. He looks fat and slow, but in reality he's fast as an end, and hard as they make 'em. Leon was the outstanding guard in school, filling in his side of the center like an iron peg.

Booshie Turman, Back

Turman is dynamite. The sooner that the opposing team learned this the better their chances were for defeating the Juniors, for if this man ever gets loose things don't stop him. This is the second time he gets the All-Emory selection.
ALL-EMORY SELECTIONS

SAM LAIRD, Half
Sam was the high-point scorer for the year. When he got within ten yards of the promised land he never took time out to rest, but carried the skin over for a marker.

LEROY WATSON, End
Winning his second letter, Leroy played his usual fine game on the wing of the Junior eleven. His blocking was better than last year, though his punt covering was a trifle slower and more deliberate.

ARTHUR MARSHALL, Tackle
One of the best tackles at Emory, and that is saying plenty with such players as Morrison, Slaughter, and Hooks fighting for the same position. Arthur was exceptional on defense.

TOM HOOKS, Tackle
The most imposing-looking man on the Emory football teams. Hooks stands well over six feet tall and is considerably filled out with more than one hundred and eighty pounds. He was a scarecrow to the innocent frosh.
ALL-EMORY SELECTIONS

Bruce Logue, Quarterback

Little-man Logue was the brainiest quarterback on the field this season. More than one time he used his grey-matter to make it a win for the Juniors. He can pass and receive with equal ease; a football man of the first rank.

John Maddox, Back

Maddox is one of the fastest men in school, and when he starts on an end run, he usually completes the job with a score. As a broken-field runner, he is probably without equal at Emory.

Sid Penny, Center

A fast, shifty middleman, who made few bad passes back, and lots of line cracks for the fast Junior backs.

T. K. Slaughter, Tackle

"T. K." was one of the biggest men on the football field this year, and one of the most feared. He's mean and plenty tough. Plays don't work at all over him, quarterbacks soon learn.
ALL-EMORY SELECTIONS

ALBERT STUBBS, Center

After making the All-Emory selection in his Sophomore year, Stubbs came back this year as strong as ever to win his place for the second time. Plays over Stubbs were one of the main attacks of the Junior team.

TAYLOR LAND, Guard

"Tee" won his letter during his freshman year. This year he punted for the Sophs and got them out of many tight holes. When he came out of the line to play fullback, he usually made a long gain by powerful charging.

FRANK MORRISON, Tackle

Frank was working hard all the time to win his selection and was in every play covering his man. His ability to cheer up his team-mates with his pep talks went a long way to making him All-Emory material.
SENIOR FOOTBALL TEAM

THE Seniors, the winners of last year's conference title, tied with the Juniors for the conference champions of 1933.

They were picked to win the championship, but lost a hard fought game to the Juniors, 7-0. This year's team amassed more points than any team in a number of years at Emory, with such stars in the backfield as Laird, Law, and Maddox. Their impenetrable line contained such stars as Penny, Bridges, Marshall, Belcher, and Cooper.

Six members of this eleven were designated All-Emory: Maddox, Law, Belcher, Marshall, Laird, and Penny.

Prof. Lester coached the successful team.

JUNIOR FOOTBALL TEAM

The passing of the Juniors was not as good as it was last year, and that was one of the reasons that this football team didn’t win the championship. Two of the stars of last year were gone, and there were one or two weak spots in the line.

However, as to individual stars the Juniors were far ahead with Slaughter, Hooks, Shalloway, Stubbs, and Watson in the line and Turman, Logue, and Whiting in the backfield.

Prof. J. B. Peebles coached the team to the second best position.

Seven Juniors were All-Emory: Bruce Logue, Albert Stubbs, Pollard Turman, Leon Shalloway, Tom Hooks, T. K. Slaughter, and Leroy Watson.

FOR the second year the class of 1935 has failed to win a game, but they went down fighting. The backfield this year was made up of new men for the most part, and they were too light and inexperienced to gain much ground.

Grier Martin coached the team, and with the number of new plays that the Sophomores used it may be proved that he did his job faithfully.

Defensively, the team was one of the best on the campus with Land, Morrison, Matlin, Johnson, Brooke, and McKay in the line.

Two Sophomores were selected on the All-Emory: Taylor Land and Frank Morrison.

THIS year's Freshman team was one of the best that the campus has had in years, and since they were successful in beating the Sophs twice, their season was all that could be desired.

Harvey Hill showed the first year men how to handle the ball.

In the backfield the outstanding men were: Flournoy, Conyers, Barker, Hancock, and Reichert, and the best of the linemen were: Bailey, Sledd, Randolph, Brumby, Campbell, Sears, Goodyear, Starnes, and Regenstein.

THE 1933 intramural basket-ball title was very closely contested for among the seven class teams. Each team played fourteen games, during which numerous upsets occurred. It was not at all evident until the last few games who would be the victor. The Meds, however, outclassed the other aggregations in most respects and finished the season with only two losses against them.

"Shorty" Doyle, one of the leading cage officials of the city, refereed the games. The players showed a clean, fast, brand of basket-ball under his supervision.

The eight men making letters in basket-ball were: forwards, James Loveless (Meds), Morgan Cantey (Lawyers), and Alf Hind (Juniors); centers, Grier Martin (Grads), and S. R. Bridges (Seniors); guards, Lawrence Greenberg (Meds), John Neal (Seniors), and Francis Nunn (Sophs). The Frosh making numerals were: Sears and Dobson, cen-
Sophomore Team

For the fifth consecutive year the Chi Phis won the Interfraternity Tournament. They defeated the S. A. E.'s in the finals by a rather wide margin. The team led by Charlie Lester took the independent title for the third straight year by virtue of a decisive win over the team under the guidance of Arthur Marshall.

Meds—The Meds won the title via their fast and accurate passing game. The offensive play of Stevens, Loveless, and Stephenson was unexcelled, while the defensive work of Greenberg, Lang, and Pierotti was outstanding. Ed Venable coached the champs and contributed very substantially to their successful season.

Grads—The Grads, led by the "indomitable basketeer," Grier Martin, gave the Meds a race to the finish, trouncing them one of their two defeats of the season. Govan, Dunn, Alston, and Graybeal were cogs in the Martin wheel, which pushed this team to numerous victories.
Meds Team

Lawyers—The barristers were final contenders for the championship along with the Grads. Led by Cantey, Maddox, B. Conyers, and Walker at the offensive positions and with Gaines, Turman, and Bowden on the defensive, it is clear how this team became one of the high-lights of the competition.

Seniors—Considering the losses to the professional schools, the Seniors began the season at a slow pace. They soon developed, however, into a fast basket-ball team and a possible contender for the championship. Led by Bridges at center, with Laird and Neal at guards, and Penney and Blair at forwards, this team was hard to beat, always giving their opponents considerable trouble. The Seniors were coached by “Rebel” Bell, the baseball wizard.

Sophs—Starting the season off at a rapid pace, the Sophs looked good for the championship. With Nunn and Page as a nucleus, assisted by Dover, Clements, Abelsky, Mun-
ford, Shannon, and McKoy, the Sophs also were in the going until the final round. Sam Laird coached the Sophomores.

Juniors—Improving as the season advanced, the Juniors, although never close contenders for the championship, exhibited the fastest brand of basket-ball of the season. Outstanding for the Juniors were Hind, Logue, and McGhee, aided by the good work of Brown and Thower.

Freshmen—Showing great improvement in team work as the season advanced, the Frosh, with Grier Martin as coach, gave quite a bit of trouble to the major teams. In Chris Conyers the Freshmen had a real sharpshooter and a stellar guard. Assisting him were Collar, Regenstein, Sears, Jones, Dobson, Flournoy, and Redmond.

Theologs—Running true to form, the Preachers were far behind at the close of the season. They made only two threats during the season—against the Seniors and the Sophs in the first round. Harris, Wood, Heiner, Byrd, Hope, Moorehead, Worley, Irwin, Shea, and Williams all contributed their points to the scion of Candler.
BASEBALL

BROOKS BROWN, assisted by Carlisle Taylor and John Stevens, and a number of Freshman assistants, conducted the 1933 baseball season in a most orderly and systematic style. Their work in keeping the playing field in good order and observing an accurate check on equipment and all statistics was noteworthy.

Both athletic fields were used for baseball this year, making it possible for each team to practice daily, and for two games to be played at one time.

At the time this writing goes to press, May 1933, the Sophomores were leading the league, with the Meds and the Seniors tied for second place. The Sophs with Peggy Shannon on the mound seemed to be the most formidable looking crew on the field. With McLennan pitching the Meds look good for second place. The Senior outfit with Blair doing the hurling will give the Meds a good race for the second berth.

Sophomores—Peggy Shannon is the fast ball artist; Tom Dover, Charlie Clements, Joe Moran, Sam Taylor and Frank Jenkins were the bulwarks in the Soph lineup. The team possessed a number of stars, and caused the local hurlers much trouble.
Meds

Led by McLennan, Lange, Work, and Dobson, the Doctors had an aggregation that had all the requirements of a winning ball team.

Seniors

Coached by Rache Bell the four year men were one of the smoothest clubs in the league. Blair, Bridges, Laird, Marshall and Belcher did nice work for this squad.

Lawyers

In Conyers, Lewis, and Alston the Law-Grad combine had one of the best teams in the loop. Bowden, Turman, Maddox, and Brown were luminaries abat and afield for the Lamarites.
Theologs

Joe Byrd and J. Patterson formed one of the outstanding batteries in school. Harriss, Outler, Taylor, Hefner, and Mackey completed the backbone of the organization.

Juniors

Owing to their inability to hit, the Juniors were unable to hit the pace set by their contenders. Sutton, Ficklen, McGhee, Whiting, and Hunter were the class of this outfit.

Frosh

The first year men under the direction of Coach McCord gave the upperclassmen more competition than was expected. Looking good for numerals were: Conyers, Hall, Regenstein, Bailey, Johnson, Remond, Flournoy, Kirkman, Boyd, Sears, Wielensky, Hamm, and Cassels.
SWIMMING

The Emory swimming team had a remarkable year. The swimmers met four schools, losing but one match. Wins were taken from Furman, University of Chattanooga, and Auburn, with the only defeat of the year coming from Georgia.

Levering Neely, 200 yard breast-stroke-star of S. E. A. A. U., was the outstanding star in school. In the Interfraternity tournament Art Merril, former coach of the team, barely nosed Neely out for the breast-stroke race, giving the Swimming cup to the S. A. E.'s.

The long-planned covering for the swimming pool was completed for the year, and now Emory has one of the South's finest pools with steam heat and spectators' benches.

Jimmy Campbell was the Freshman star. John Maddox, diving and dashes; Levering Neely, breast stroke and free style; Nag Goodyear, diving; Sam Belcher, diving; Jesse Grantham, distance; John Thompson, dashes.
TENNIS

LOSING but one game of the entire season the Emory net men completed a most successful year. The first match of the season was lost to Florida, and the Emory racqueteers were tied by Furman. Alabama, Tennessee, Sewanee, Vanderbilt, Davidson, Kentucky, and Georgia Tech, however, were all defeated during the year.

Jack Boykin again led the field as number one man. Nick Polities starred in the second position; followed by Pierre Howard, S. R. Bridges, captain of the 1932 team, Frank Morrison, and Sam Seitz.

Emory's golf team of 1933 got away to a grand start with defeats of the University of Richmond, Furman, and Mercer. The last part of the season was unlucky for the golfers, though, and they dropped three matches: Georgia, Alabama, and a close one to Georgia Tech.

Bobby Chambers, last year's captain was re-elected for that position and played number one post again. Other members of the team are Harvey Hill, Albert Stubbs, Joe Horacek, with S. R. Bridges as alternate.

FRESHMAN ATHLETICS

UNDER the now famous Emory system of athletics the first year men began their college physical training.

The Freshmen tied the Sophs in the annual pushball fight, and defeated them twice on the football field. The rats also had a good baseball team, but their basketball team was weaker than the average.

Tennis was the most popular sport again; more frosh signing up for that sport than any other.

A LETTER FROM A FRESHMAN BACK HOME

Dear Old Man:

Here I am off at school for my first year and some things are good and some things are not so good. You will probably remember that you told me about how you'd like for me to join an organization named Few Literary society and that my college career would be a success. Well, the only man on the campus who even remembers anything about the society is a fellow by the name of Bill Bailey, and he wouldn't talk about it much, so I just joined another group called Lambda Chi Alpha, and it's almost as good they say.

Some guy named Prentice Miller has told me various and sundry things to do, but I just haven't had the time to do half of them. They took me up to a place called the Y. M. C. A. where they gave me a physical exam, and aside from getting a little personal I thought they did it right well. The other day we had an election of officers for our class and Bill Hogsed who lives down at Sycamore and came up on the train with me was running, but the boys "over at the house" threatened to beat my trail if I didn't vote for an awful fellow named Eugene Johns, so I was scared not to vote for Johns and Bill Hogsed lost by one vote.

All those fellows on the faculty that you told me about except Dude Boyd, Nag Good-year, Prof. Peebles, and a fellow named Zeke Turner are either dead or gone.

The fellow who directs athletics here is a fisherman by trade, but he's doing right well at his new job. I wouldn't believe it but he told me that he has fought in five wars, and hasn't got but five scars on his body.

Some of the lodges here are living over on a street called frat row, and from all that I can gather from the freshmen in those lodges they wish that they lived on some other row instead. They don't call me Bill up here like they do at home, but they've got a new nick name for me, they call me "Horse." I wonder how they found out I can ride a horse.

They've got the funniest fellow running the singing club up here you've ever seen. I think his name is Dooey, but anyway he waves his hands and his head in a most peculiar manner while he's making all the freshmen sing "Old Black Joe." I really thought I was good, for you know I was in the high school minstrel last year, but he said he thought my voice needed a bit of coaxing and cultivation before it would be suited for his purposes. I didn't know that you cultivated voices.

The nearest thing to home I've experienced is the smell which I constantly get from the chemistry building where a little guy named Guy teaches. It reminds me of the guano spreader and those hot autumn days on the farm. But it's not so bad after you get used to it.

I think that the cafeteria which was advertised as an excellent home-cooking establishment has been away from home for a long time, for the cooking doesn't taste much like it did at home. Say Dad, Mamma never did put castor oil in the gravy did she? Well they do up here, and I am diligent all the next day.

We don't have but a few girls in school here. They tell me that if they are pretty that a fellow named Graveyard Stipe will not let them matriculate and I guess that
matriculate means enter school for there aren't but four or five here it seems. There's one girl named Potter and another named Tate who seem to be the outstanding ones from the students' point of view, and they are well looked-after every day.

The Emory Wheel is almost as good as the Pitch Fork in the high school there, but I haven't learned whether it comes out monthly or whether it is a quarterly.

They've got a swell collection of antiques and such things here in the museum, and there is a fellow named Fattig who is always chasing bugs. I just want you and Mamma to come up here some time Dad and see that fellow. He's the funniest looking fellow here I think, although my roommate doesn't think so and says that he thinks the funniest is a guy named Rumble who teaches arithmetic. He may be right, but I still hold out for Fattig.

Every Friday we have chapel and we all have to go. There is a fellow from the preaching school named Smart who leads the services. And Dad, it's funny that he should be named Smart, because I don't think he's any smarter than the other folks in school. The organ here is the first one that I've heard since you and me and sister, and Mamma and aunt Kate and Tom and Nell, went down to Wilkes County fair when I joined the boy scouts. Don't you remember that organ they had out in front of that side show where the fat lady was and that fellow that ate glass, and that rubber man? I think that the organ down at the fair was better than this one, but I wouldn't dare say so up here. I'm just telling you.

They told me that I should put in all my time studying in the library, and for the first few days I went over there, but every time I even coughed or whispered a word or two to the fellow sitting across the room, some lady who they told me later was pretty bad about such things would come over and stare at me just like that fellow Frankenstein in the movie over at Clarkston did, and I got so scared that I always study in my room now.

They are gonna have graduation soon, and they have asked me out of all the freshman class to be what is called a marshal at the exercises. I get to show people where to sit just like that fellow up town at the show does. And they promised me that I could be one next year too, if they liked my work. I've been practicing up every night.

I guess that it's about time I went on over to the post office and got my mail, so I guess that I'll quit now. I hope that sow that was sick when I left home Christmas got all right. And give my love to Mamma and the rest of the folks and tell them that I'll be home as soon as I finish being marshal and all that.

As ever I am your fifth and loving offspring.

—EUSTACE.

DOOLEY'S DIARY

SEPT. 22—Freshmen wander in and cellar gangs take trips over the week-end. Frosh register but not with the upperclassmen. Delta's meet innocents at train and return with sixteen pledges including a red cap. No bops excepting the Southern Railway Company.

SEPT. 23—Freshmen receptions given. Frosh meet Dr. Cox and Prentiss Miller. Thirty-seven transfer to Georgia. Woodward warns the newcomers against fraternities. Pledging becomes brisker.

SEPT. 24—Clements Sutton replaces Bishop Towery in the co-op. Six freshmen reported in hospital with ear ache after round of lectures.

SEPT. 25—Fraternities take pledges and rushees to church to demonstrate good moral influence. Many members attend for first time. Sunday afternoon is spent quietly in hot-boxing freshmen.

SEPT. 26—Pledges begin wishing they'd waited a little while longer. Still unpledged wish they'd gone on and taken that bid. Theta's and K. A.'s, S. A. E.'s and Chi Phi's wage war. Everybody says they won.

SEPT. 28—Rush week is over, thank God. Sigma Chi's with 15, K. A.'s with 17, and A. T. O.'s with Hamm have most to regret. Larger majority of freshmen than ever before found to have pledged. Woodward gnashes teeth.

SEPT. 29—Registration begins. Chaos, confusion, and "Shylock" Mew reign. Emory students who discover they have dime left go to Garber Hall. Jordan whistles "My Gal, Sal."

SEPT. 30—Classes begin, theoretically. Mogul Allen and his University Clubbers distribute dance tickets to fraternities.

First Wheel emanates after half the staff succumbs to nervous prostration. Theta's stage gambling drive in effort to pay for new house. Get deeper in debt.

OCT. 2—Unidentified student buys cold dope at co-op. Campus is dubious while Cartledge beams. Annual decides it has played fairy godmother to students too long. Picture rates are raised again. Candler million expected to be doubled before year is out. Pud May attends Palais Peachtree. Y. M. C. A. shudders.

OCT. 4—Tau Epsilon Phi presidency fluctuates to other member. Carroll manages dime-a-dance at Fair. "Great God" Allen is green with envy. Carroll also green. Have you seen that suit?

OCT. 5—Rat courts begin. Smell of burning cloth begins to be noticed about campus. Pledges and active chapter with forces about even have pitched battle at the Kappa Sig house.

What is a University?

In a group of buildings a University doesn’t make it a University.

A University must have money, men, ideals, and standards. Money for buildings, equipment, and operating expenses. Scholarly men—men whose love of learning is animated by an even greater love of God and man—for a faculty. Ideals of character and conduct which tend to develop the best in each individual student. Standards of training which insure that its students will receive what a University purports to give: instruction of the quality accepted and approved by the highest accrediting agencies.

In addition, a real University must have research facilities through which its scholars may strive to extend the boundaries of human knowledge; it must also provide extension courses through which any earnest man or woman may obtain the advantages of University training by correspondence or by afternoon and evening study.

To be a University in every sense of this definition is Emory University’s purpose.

"UNIVERSITY GIRL"

(TUNE: "That All-American Girl")

1.
She's got a halfback playing for the Juniors,
   She's got a right end on that Freshman line;
And her quarterback plays for the Seniors,
   He beats that Sophomore fullback's time.
She's got a Theolog who sends her candy,
   A Med has got her in a whirl;
But that law school just runs her ragged—
   She's a University girl.

2
She has a late date with Brad McFadden,
   McGehee meets her between each class,
Then up steps Belcher and wants squelcher her,
   But Webb just will not let him pass.
When Morgan Cantey puts on that grey suit
   And that shirt of blue and green,
He rides with Arkwright to Marietta
   To see that University Queen.

3
And she makes eyes at young Dr. Loemker
   And "Goosey" thinks she's mighty cute;
And when she passes by, well she just cuts that eye
   And leaves our prexy mute.
And too she makes "A's" in all her history,
   She says that math is just a dream—
And by this time all the profs in school know
   That she's the University Queen.
THE ideal of an editor may be worthy or not. It may be a dream of a beautiful book, or it may be a false conception whose final effort is meaningless. In either event he cannot claim all of the laurels, for success or failure in the achievement of this ideal depends entirely on the help he receives. Therefore, since it appears that the goal has been reached, we cautiously await the verdict which shall be rendered by you that we may pass on to our helpers your decision. The editor is grateful for this opportunity to thank his helpers. To the members of the editorial staff who have labored hard in getting together material for this edition we are greatly indebted. We appreciate the assistance and cooperation we have received from the members of the faculty and their associates in giving us data and in offering their very needed suggestions.

Individually, the editor wishes to thank Charlie Young, of Foote & Davies Company, the printers; Walt Dargan, of Wrigley Engraving Company, the engravers; Stanley Marques, of White Studio, the photographers; and A. A. Lubersky, of the S. K. Smith Company, the cover producers, for their constant and untiring efforts which have been most essential in publishing the 1933 CAMPUS.

We wish to pay tribute to Reid Hearn, Jr., who executed all of the art work for this edition, for it is through his technique that we have been able to present to you our theme and the artistic beauty embodied in the views and beauties.

ROBERT W. CANDLER.
